*वर्ष 1984-85 तक डाक घाटा संचार प्राप्तियों द्वारा पूरा किया गया था। उसके बाद यह सामान्य राजस्वों से पूरा किया जा रहा है। 31.3.1985 तक "3.07 संचार" के अंतर्गत नकारात्मक व्यय के लिए खातों, पूर्ववर्ती समुद्र पारीय संचार सेवाओं (जो 31.3.86 तक सरकार का विभागीय वाणिज्यिक उपक्रम था) की अतिरिक्त प्राप्तियों के साथ मिला दिया गया है।

** Upto the year 1984-85 Postal Deficit was met by Telecommunications receipts. Thereafter it is being met from General Revenues. This coupled with surplus receipts of the erstwhile Overseas Communications Service(which was a Departmental Commercial Undertaking of Government upto 31-3-1986), accounts for the negative expenditure under "3.07 Communications" upto 31-3-1985.*

1. इसमें उर्वरक विभाग के सचिवालय के व्यय के लिए व्यवस्था है।

2. यह व्यवस्था उर्वरक प्रतिधारण मूल्य स्कीम के अन्तर्गत आर्थिक सहायता (सब्सिडी) के लिए है, जिसमें उर्वरकों के भाड़े के लिए आर्थिक सहायता भी शामिल है । यह सब्सिडी स्कीम किसानों को उचित कीमतों पर उर्वरक उपलब्ध कराने और उर्वरकों के उत्पादकों को उनके निवेश पर उचित लाभ दिलाने के लिए है । उर्वरकों की बिक्री समय-समय पर निर्धारित निर्गम मूल्यों पर की जाती है ।

3. चूंकि उर्वरकों की मांग को पूरा करने के लिए स्वदेशी उत्पादन पर्याप्त नहीं है, इसलिए कमी को पूरा करने के लिए आयात का प्रबन्ध किया जाता है। उर्वरकों की मुख्यतः तीन किस्मों अर्थात् यूरिया, डाइ-अमोनियम फास्फेट और म्यूरेट आफ पोटाश का आयात किया जाता है ।

इसकी लागत में मोटे तौर पर आयातित उर्वरकों की कीमत और उर्वरक उठाने-धरने तथा उनके वितरण की लागत शामिल होती है । किसानों को उर्वरकों की बिक्री की कीमतें उर्वरक नियंत्रण आदेश के अन्तर्गत नियंत्रित की जाती हैं और इस प्रकार उपभोक्ता कीमतें साविधिक रूप से विनियमित होती हैं । किसानों को उर्वरकों की बिक्री से प्राप्त राशि और आयात की लागत के बीच का अन्तर उर्वरकों के आयात पर दी जाने वाली सब्सिडी का द्योतक है ।

4. यह व्यवस्था चुने हुए जिलों में हिन्दुस्तान फर्टिलाइजर्स कारपोरेशन लि. द्वारा क्रियान्वित भारत-ब्रिटिश उर्वरक शिक्षा परियोजना के लिए की गई है । इसका उद्देश्य उर्वरकों की खपत के स्तर में वृद्धि करना और किसानों को उर्वरकों की वैज्ञानिक जानकारी देकर शिक्षित करना है। यह परियोजना पांच वर्षों की अवधि के लिए है । इस कार्यक्रम के अन्तर्गत वर्षापोषित कृषि परियोजना भी हिन्दुस्तान फर्टिलाइजर्स कारपोरेशन लि. द्वारा क्रियान्वित की जा रही है। एक नई सूखी खेती योजना ओ.डी.ए. अनुदान के अंतर्गत शामिल की गई है। इसे "कृभको" द्वारा कार्यन्वित किया जाएगा ।

5. इस कार्यक्रम के अन्तर्गत, यूरोपीय आर्थिक समुदाय चार उर्वरक शिक्षा परियोजनाओं की, जो उर्वरक और रसायन ट्रावनकोर (एफ.ए. सी.टी.) राष्ट्रीय रसायन और उर्वरक लि. (आर. सी. एफ. एल), राष्ट्रीय उर्वरक लि. (एन. एफ. एल) और पाइराइट्स एण्ड केमिकल्स लि. (पी.पी. सी.एल) द्वारा कार्यान्वित की जा रही हैं, स्थानीय लागत के लिए अंशदान करता है। इन परियोजनाओं का उद्देश्य कृषि पद्धतियों के उन्नत पैकेजों को प्रोत्साहन देना है, जिनमें उर्वरकों का कुशल और सन्तुलित उपयोग भी शामिल है ।

1. Provision is for secretariat expenditure of the Department of Fertilizers.

2. This provision relates to subsidy under Fertilizer Retention Price Scheme including freight subsidy for fertilizers. The subsidy scheme is intended to make fertilizers available to the farmers at reasonable prices and give producers of fertilizers a reasonable return on their investment. The fertilizers are sold at issue prices, fixed from time to time.

3. As indigenous production is not adequate to meet the demand for fertilizers, imports are arranged to make up the shortfall. Mainly, three varieties of fertilizers viz., Urea, Di-Ammonium Phosphate and Muriate of Potash are imported.

The cost involved is broadly the price (C&F) of imported fertilizers plus the cost of handling and distribution of the fertilizers. The selling price of fertilizers to farmers is controlled under the Fertilizer Control Order and the consumer prices are thus statutorily regulated. The difference between the amount realised by way of sale of fertilizers to farmers and the import costs to Government represents the subsidy on fertilizer imports.

4. The provision is for Indo-British Fertilizers Education Project implemented by Hindustan Fertilizers Corporation Ltd. (HFCL) in selected districts. It aims at increasing the level of fertilizer consumption and in educating the farmers on Scientific knowledge of fertilizers. The Project is for a duration of five years. Under this programme Rain-Fed farming Project is also being implemented by Hindustan Fertilizers Corporation Ltd. (HFCL). A New Dry Land farming project under ODA Grant is also included which will be implemented by KRIBHCO.

5. Under this programme, EEC contributes the local cost of four fertilizer education projects which are being implemented by FACT, RCFL, NFL and PPCL. These projects aim at providing improved packages of agricultural practices including efficient and balanced use of fertilizers.

इस विनियोग में केन्द्रीय सरकार की ऋण संबंधी देनदारी (आंतरिक एवं बाह्य) पर ब्याज प्रभारों के भुगतान तथा वाणिज्यिक विभागों की मूल्य ह्रास तथा अन्य प्रारक्षित निधियों से सम्बद्ध ब्याज प्रभारों की व्यवस्था की गई है । भविष्य निधि पर देय ब्याज की व्यवस्था, डाक घर बचत बैंक जमाखातों, अल्प बचत प्रमाण पत्रों इत्यादि पर देय ब्याज को भी इस विनियोग में शामिल किया गया है । सम्पूर्ण व्यय भारत के संविधान के अनुच्छेद 112(3)(ग) के अनुसार भारत की समेकित निधि पर "भारित" है।

1991-92 के संशोधित अनुमानों में कमी मुख्यतः राजकोषीय हुण्डियों पर बट्टे के फलस्वरूप हुई है ।

1992-93 के बजट अनुमानों में वृद्धि मुख्यतः 1991-92 के बाजार उधारों पर देय पूरे वर्ष के ब्याज के कारण हुई है । यह वृद्धि राजकोषीय हुण्डियों पर बट्टे भारतीय रिजर्व बैंक को जारी की गई प्रतिभूतियों के लिए अधिक रकम की आवश्यकता, तथा आन्तरिक तथा बाह्य ऋणों पर ब्याज में संभावित वृद्धि होने तथा अल्प बचत योजनाओं के अन्तर्गत अतिरिक्त धनराशियों के संभावित संग्रह तथा धनराशियों के राज्य भविष्य निधियों तथा विशेष भविष्य, अधिवार्षिकी उपदान निधियों तथा अन्य जमा खातों आदि में जमा होने के कारण हुई है ।

The Appropriation provides for interest charges on Central Government's debt obligations (internal as well as external) and on depreciation and other reserve funds of Commercial departments. Provision for interest payable on Provident Funds, Post Office Saving Bank Deposits, Small Savings Certificates, etc. is also included in this Appropriation. The entire expenditure is '*Charged*' on the Consolidated Fund of India in terms of Article 112(3) (c) of the Constitution of India.

The decrease in the Revised Estimates, 1991-92 is mainly due to discount on treasury bills.

The increase in the Budget estimates, 1992-93 is mainly on account of full year's interest due on market borrowings in 1991-92, larger requirements for discount on treasury bills, securities issued to RBI Interest on external loans likely to be raised, anticipated additional collections and accretions under small saving schemes, State Provident Funds and Special deposits of Provident, superannuation and Gratuity Funds and other Deposit accounts, etc.

यह एक मिश्रित मांग है जिसमे सभी केन्द्रीय मंत्रालयों तथा विभागों और उनके अधीनस्थ संगठनों और संघ राज्य क्षेत्रों के प्रशासनों (दिल्ली, चंडीगढ़ आदि) की आवश्यकताओं के लिए व्यवस्था की गई है ताकि वे अपने कर्मचारियों को ऋण और अग्रिम दे सकें । इसमें संसद सदस्यों को मोटरगाड़ी की खरीद के लिए अग्रिम दिए जाने की भी व्यवस्था शामिल है ।

जिन प्रयोजनों के लिए सब्याज उधार दिए जाते है उनमें गृह निर्माण, वाहन की खरीद, कम्प्यूटर की खरीद, पखों तथा गर्म कपड़ों की खरीद के लिए दिए जाने वाले अग्रिम शामिल है ।

विभागीय कैंटिनों को दिए जाने वाले ऋणों से आशय कैंटीन कर्मचारियों के वेतन बिलों के भुगतान में हुई कमी की पूर्ति करना है । अक्तूबर, 1991 को दिए गए भारतीय उच्चतम न्यायालय के निर्णय के अन्तर्गत असांविधिक विभागीय कैंटिनों के कर्मचारियों को सरकारी कर्मचारी माना जाना है । तद्नुसार, कैंटीन कर्मचारियों के वेतन और भत्तों की सम्पूर्ण राशि सम्बद्ध मंत्रालयों/विभागों के अनुदान की मांगों में सरकार के प्रत्यक्ष राजस्व व्यय के रूप में उपलब्ध कराई जा रही है । इससे 1992-93 के बजट अनुमानों में कैंटिनों को ऋण के प्रावधानों के अभाव का स्पष्टीकरण हो जाता है ।बजट अनुमान 1992-93 में सरकारी कर्मचारी सहकारी समितियों के लिए अनुदान राशि की व्यवस्था मंत्रालयों/विभागों द्वारा अपनी-अपनी अनुदानों की मांगों में की जानी है।

1991-92 के संशोधित अनुमानों में कमी प्रवर्तन और मितव्ययता उपायों के कारण हुई है ।

वर्ष 1992-93 में गृह निर्माण अग्रिमों के लिए वृद्धि केन्द्रीय सरकारी कर्मचारी समूह बीमा योजना के अधीन उच्च प्राप्तियों के द्वारा पूरी कर दी जाएगी ।

This is a composite Demand which provides for the requirements of all the Central Ministries and Departments and their subordinate organisations and Union territory administrations (like Delhi, Chandigarh, etc.) for payment of loans and advances to their employees. It also includes provision for advances to Members of Parliament for purchase of motor conveyances.

The purposes for which the interest-bearing loans are advanced include house-building, purchase of conveyances, purchase of computors, fans and warm clothings.

The Loans to Departmental Canteens are intended for meeting shortfall towards payment of salary bills of the canteen employees. Under a judgement of the Supreme Court of India, delivered in October 1991, the employees of the non-statutory departmental canteens are to be treated as Government servants. Accordingly the entire amount of pay and allowances of the canteen employees is being provided in the Demands for Grants of the respective Ministries/Departments as a direct revenue expenditure of the Government. This explains the absence of provision for loans to canteens in BE 1992-93. Provision in BE 1992-93 for loans to Government Co-operatives are to be made by Ministries/ Departments iin their respective Demands for Grants.

The decrease in provisions in the Revised estimates for 1991-92 is due to enforcement of economy measures.

The increase for house building advances in the 1992-93 will be matched by higher receipts under Central Government Employees Group Insurance Scheme.

इस मांग में आयकर विभाग की आवश्यकता के लिए व्यवस्था है जो केन्द्रीय सरकार द्वारा लगाए गए, तथा इकट्ठे किए गए सभी प्रत्यक्ष करों अर्थात् आय पर कर (निगम क्षेत्र की आय शामिल है) सम्पदा शुल्क, धन कर और दानकर सम्बन्धी प्रशासन कार्य करता है । शुल्कों के संग्रह के लिए देश को कार्यक्षेत्रों में विभाजित किया गया है । इस विभाग में बड़े पैमाने पर अपवचन, निरीक्षण, अनुसंधान, सांख्यिकी और प्रकाशनों के मामलों की छानबीन करने के मामलों के लिए अलग से निदेशालय भी हैं। संशोधित अनुमानों में मद संख्या 1 से 4 में जो वृद्धियां हुई हैं वे मुख्य रूप से मंहगाई भत्ते की अतिरिक्त किस्त मंजूर किए जाने, बोनस की व्यवस्था करने, तथा कार्यालय के लिए अतिरिक्त स्थान किराए पर लिए जाने तथा बड़े पैमाने पर राजस्व संग्रह अभियान आदि को तेजी से चलाने के लिए अतिरिक्त पदों का सृजन करने आदि के कारण हुई हैं। बजट 1992-93 में सामान्य वृद्धि के लिए व्यवस्था कर दी गई है ।

मद संख्या 5 के समक्ष जो व्यवस्था है वह वित्त अधिनियम, 1986 (यथासंशोधित) द्वारा यथारोपित आयकर अधिनियम, 1961 के अध्याय XXC में परिकल्पित प्रबंध के अनुसार केन्द्रीय सरकार के द्वारा अचल सम्पत्तियों को पूर्वक्रयाधिकार के अनुसार खरीद कर लिए जाने के संबंध में है। इस प्रयोजन के लिए जो व्यवस्था की गई है उसमें से ऐसी अधिग्रहीत सम्पत्तियों की बिक्री से प्राप्त 90 करोड़ रुपए की रकम को घटा दिया गया है, जिनका विक्रय केन्द्रीय सरकार ने किया है ।

The Demand provides for the requirement of the Income-tax department, which administers all direct taxes levied and collected by the Central Government, namely, taxes on income (including income of the corporate sector), estate duty, wealth tax and gift tax. For purpose of collection, the country has been divided into charges. The Department has also got separate Directorates for scrutiny of cases involving large scale evasion, inspection, research, statistics and publications. The increases in Revised Estimates at items 1-4 are mainly due to the effect of grant of additional instalments of D.A., bonus, upward revision in the rates of daily wages, hiring of additional office accommodation, creation of additional posts as a part of intensified revenue collection drive, etc. Budget Estimates 1992-93 take into account normal growth.

The provision at item 5 relates to pre-emptive purchase of immovable properties by Central Government as envisaged in Chapter XXC of the Income- tax Act, 1961 as amended by the Finance Act, 1986. The provision for this purpose is net of estimated sale proceeds amounting to Rs.90 crores in respect of the acquired properties disposed off by the Government.

मलेरिया उन्मूलन कार्यक्रम : पांचवें दशक के पूर्वभाग में 7.5 करोड़ व्यक्ति मलेरिया से पीड़ित थे और मलेरिया से मरने वालों की संख्या प्रतिवर्ष 8 लाख थी । मलेरिया के मामलों की यह संख्या घट कर 1 लाख से कम रह गई और वर्ष 1965 में मलेरिया से कोई मौत नहीं हुई । उसके बाद से 1976 में मलेरिया पुनः फैलने के 64 लाख मामले हुए परन्तु इसे छठी योजना अवधि के दौरान कम करके 20 लाख मामलों तक लाया गया है । सातवीं योजना अवधि के दौरान मलेरिया के मामले कमोबेश स्थिर रहे और इसलिए, स्थानीय स्थिति अर्थात एकीकृत बीमारी रोगवाहक नियंत्रण पर बल देते हुए मलेरिया होने की सम्भवना के आधार पर नई नीति की आवश्यकता है ।

क्षय रोग नियंत्रण कार्यक्रम : क्षयरोग अभी भी स्वास्थ्य की एक प्रमुख समस्या बना हुआ है । इस कार्यक्रम का मुख्य उद्देश्य अधिक से अधिक क्षय-रोगियों का पता लगाकर उनका सही इलाज करना है जिससे संक्रामक रोगियों के संक्रमण को दूर किया जा सके तथा असंक्रमक मामलों की आरम्भिक अवस्था में ही देखभाल करके उन्हें संक्रामक होने से रोका जा सके ।

कुष्ठ रोग नियंत्रण कार्यक्रम : राष्ट्रीय कुष्ठ निवारण कार्यक्रम के अंतर्गत देश के उन भागों में, जहां यह रोग सबसे अधिक होता है, रहने वाले 43 करोड़ व्यक्तियों की देखभाल की जाएगी । देश के लगभग 40 लाख कुष्ठ रोगियों में से 30 लाख रोगियों का सक्रिय रूप से इलाज चल रहा है । कुष्ठ के मामलों में बहु-औषधि उपचार (मल्टी ड्रग ट्रीटमेंट) को बहुत ही प्रभावकारी पाया गया है । इस कार्यक्रम पर और अधिक बल

The activities under this scheme are carried out by respective Mass Education and Media set-ups created in the States and Media units of the Ministry of Information and Broadcasting. These activities are coordinated and monitored by the Mass Education and Media Division at the Centre which prepares prototypes, formulates policies and provides guidelines and support for the operationalisation of the total media endeavour in the country to promote family welfare and popularise the small family norm. A provision of Rs.19.00 crores is proposed in B.E. 1992-93 for this scheme.

9. **Training, Research and Evaluation:** The success of Family Welfare Programme depends, to a large extent, upon the availability of qualified trained and educated workers. Considering the nature of Family Welfare Programme where one dissatisfied acceptor will have a long lasting adverse effect on the Programme, the need for having properly and adequately trained manpower under the programme can hardly be over-emphasised. Training is, therefore, given due weightage under the programme. The training at various levels is imparted through the network of Health and Family Welfare Training Centres, F.W. 11.02 और 11.03 **परम्परागत गर्भनिरोधकों का निःशुल्क एवं वाणिज्यिक वितरण**: इस तथ्य को मानते हुए कि और अधिक युवा युगल प्रजनन आयु समूह में प्रवेश कर रहे हैं, उनके लिए परिवार नियोजन का अंतिम उपाय अर्थात् नसबन्दी का प्रस्ताव नहीं किया जा सकता । युवा युगलों की आवश्यकता पूरी करने के लिए इस कार्यक्रम के अन्तर्गत परिवार नियोजन की अन्तराल पद्धतियों जैसे कि खाने वाली गोलियां, निरोध, कापर-टी आदि गर्भ निरोधक दिए जाते हैं। इस कार्यक्रम के अन्तर्गत निःशुल्क और सामाजिक विपणन, दोनों तरीकों से गर्भ-निरोधक दिए जाने के लिए वर्तमान में 69.60 करोड़ रुपए की व्यवस्था है ।

11.04 **क्षेत्रीय परियोजनाएं** : भारत एक विशाल और विविधता-पूर्ण देश है । यहां राज्यों के बीच सामाजिक-आर्थिक, सांस्कृतिक एवं मूल्य पद्धतियों की दृष्टि से भिन्नता पाई जाती है और इसलिए सभी राज्यों के लिए एकसमान आधारभूत संरचना का सुझाव नहीं दिया जा सकता । क्षेत्र परियोजनाओं की यह स्कीम छठी पंचवर्षीय योजना के आरम्भ में लागू की गई थी जिसका उद्देश्य देश के कुछ चुनींदा पिछड़े जिलों में स्वास्थ्य एवं परिवार कल्याण सेवा प्रणाली में सुधार करना था ताकि राष्ट्रीय औसत के समतुल्य इनका शीघ्र विकास किया जा सके । यह स्कीम पांच दाता अभिकरणों से आंशिक वित्तीय सहायता प्राप्त कर शुरु की गई थी, ये अभिकरण है - विश्व बैंक, यू.एन.एफ.पी.ए., ओ.डी.ए. (यू०के०), यू.एस.ए.आई.डी और डेनिडा । इस स्कीम के अन्तर्गत भवनों, वाहनों, जनशक्ति आदि के लिए अतिरिक्त निवेश की व्यवस्था की जाती है । इस प्रयोजन के लिए 1992-93 के बजट अनुमानों में 60.00 करोड़ रुपए की व्यवस्था का प्रस्ताव है ।

11.05 **अन्य विभागों और स्वैच्छिक संगठनों की भागीदारी**: संगठित क्षेत्र में राष्ट्रीय परिवार कल्याण कार्यक्रम रेल मंत्रालय, रक्षा मंत्रालय, डाक व तार विभाग के माध्यम से और सरकारी क्षेत्र में सीमा सड़क संगठनों के माध्यम से क्रियान्वित किया जा रहा है । 1992-93 के बजट अनुमानों में इन विभागों के लिए 3.77 करोड़ रुपए और लोगों को शिक्षित करने, प्रेरणा देने और परिवार नियोजन की सेवाएं प्रदान करने के सरकार के प्रयास में एक महत्वपूर्ण भूमिका निभाने हेतु स्वैच्छिक संगठनों को प्रोत्साहित करने के लिए 2.00 करोड़ रुपए की व्यवस्था करने का प्रस्ताव है ।

11.06 **नसबन्दी बिस्तर**: इस योजना के अन्तर्गत अनुरक्षण अनुदान के रूप में 3000/- रुपए प्रति बिस्तर प्रति वर्ष की दर से सहायता दी जाती है बशर्ते कि प्रति बिस्तर प्रति वर्ष 60 ट्यूबेक्टोमी किए हों । ऐसे 3600 से अधिक बिस्तरों का अनुरक्षण स्वैच्छिक संगठनों और स्थानीय निकायों द्वारा किया जाता है । वर्ष 1992-93 के लिए 1.30 करोड़ रुपए की व्यवस्था करने का प्रस्ताव है ।

11.07. **अन्य योजनाएं**: इसमें अन्तर्राष्ट्रीय सहयोग, निजी स्वैच्छिक संगठनों को अनुदान तथा विविध योजनाएं सम्मिलित है ।

12. **सरकारी उद्यमों में निवेश**: हिन्दुस्तान लेटेक्स लिमिटेड को इसके विविधीकरण कार्यक्रम के तहत परिवार कल्याण से सम्बन्धित कतिपय गतिविधियों को शुरू करने के लिए सहायता प्रदान की जाती है ।

objective of the programme is to provide anti-natal, natal and post-natal services to expectant monthers and also to provide Family Planning Services besides diagonising early cases of cervical cancer. A provision of Rs.49.30 crores is proposed in B.E. 1992-93 for this scheme.

11.02 &11.03 **Free and Commercial Distribution of Conventional Contraceptives**: Recognising the fact that more younger couples are entering the re-productive age group, terminal methods of Family Planning, namely sterilisation, cannot be advocated for them. To respond to the needs of younger couples, various contraceptives under spacing methods of Family Planning such as oral pills, condoms, Cu-Ts etc. are offered under the programme. A provision of Rs.69.60 crores exists under the programme for supply of contraceptives - both free and under social marketing.

11.04 **Area Projects**: India is a vast and diversified country. The States do vary in terms of socio-economic, cultural and value systems and as such a uniform pattern of infrastructure cannot be advocated for all States. The Area Projects scheme was initiated in the beginning of the 6th Five Year Plan to improve Health and Family Welfare Delivery System in certain identified backward districts of the country so as to hasten their development at par with the National average. The scheme was started with partial financial assistance from five donor agencies viz., World Bank, UNFPA, ODA(UK), USAID & DANIDA. Under the scheme, additional inputs in terms of buildings, vehicles, manpower are provided. A provision of Rs.60.00 crores is proposed in BE 1992-93 for the purpose.

11.05 **Involvement of Other Departments and Voluntary Organisations**: The National Family Welfare Programme in the organised sector is being implemented through the Ministry of Railways, Ministry of Defence, P&T Department, and Border Roads Organisation in the Government Sector. An amount of Rs.3.77 crores is proposed in B.E. 1992-93 for these Departments and Rs.2.00 crores to encourage voluntary organisation to play a vital role in Government's endeavour to educate, motivate and provide Family Planning services to the people.

11.06 **Sterilization Beds**: Under this scheme assistance @ Rs.3,000/- per bed per annum is admissible as maintenance grant subject to performance of 60 tubectomies per bed per annum. More than 3600 such beds are maintained by voluntary organisations and local bodies. A provision of Rs.1.30 crore is proposed for 1992-93.

11.07 **Other Schemes**: Include International Cooperation, grants to private voluntary organizations and miscellaneous schemes.

12. **Investment In Public Enterprises**: Assistance is provided to Hindustan Latex Limited for taking up certain Family Welfare related activities under its diversification programme.

*inclusive of Works Outlay as below:-

पुनर्वास :

1. **दण्डकारण्य विकास योजना :** दण्डकारण्य परियोजना की स्थापना भूतपूर्व पूर्वी पाकिस्तान से आए विस्थापित व्यक्तियों को दण्डकारण्य क्षेत्र में बसाने और क्षेत्र के एकीकृत विकास के लिए वर्ष 1958 में की गई थी । इन उद्देश्यों को पूरा करने के लिए चार जोनों, अर्थात् कोरापुट जिला (उड़ीसा) में उमेरकोट तथा मल्कानगिरी और बस्तर जिला (मध्य प्रदेश) में परालकोट तथा कोंडागांव, में विभिन्न परिसम्पदाओं का सृजन किया गया और कई संस्थाएं गठित की गई । कुल मिलाकर, परियोजना के अन्तर्गत 25,231 परिवार बसाए गए । राज्य सरकारों द्वारा क्षेत्र में बसाए जा रहे आदिवासी परिवारों के लिए वित्तीय सहायता भारत सरकार द्वारा दी गई है ।

चूंकि भूतपूर्व पूर्वी पाकिस्तान से आए विस्थापित व्यक्तियों के पुनर्वास का काम पूरा हो गया है, इसलिए इन परिसम्पदाओं व संस्थाओं को मध्यप्रदेश और उड़ीसा की सरकारों को अन्तरित कर दिया गया है । अब भारत सरकार का दायित्व राज्य सरकारों को अन्तरित की गई इन परिसम्पत्तियों के 'अनुरक्षण' व 'अभाव' की व्यवस्था करना है ।

पोट्टरू सिंचाई परियोजना नामक एक बड़ी सिंचाई परियोजना का कार्यान्वयन उड़ीसा सरकार द्वारा और वित्तपोषण भारत सरकार द्वारा किया जा रहा है और जिसका प्रयोजन विस्थापित व्यक्तियों और स्थानीय आदिवासियों को सिंचाई की सुविधाएं प्रदान करना है । इस परियोजना के अनुमानों में किए जाने वाले संशोधन अभी विचाराधीन है ।

2. **श्रीलंका से स्वदेश लौटे व्यक्तियों को राहत और पुनर्वास :** भारत-श्रीलंका करार 1964, 1974 और 1986 के तहत, श्रीलंका में भारतीय मूल के 5.06 लाख व्यक्तियों को, जिन्हें भारतीय नागरिकता प्रदान की गई है, भारत में वापस लाना है तथा उन्हें राहत एवं पुनर्वास संबंधी सहायता प्रदान की जानी है । बजट में की गई व्यवस्था स्वदेश लौटे इन व्यक्तियों को राहत एवं पुनर्वास संबंधी सहायता प्रदान करने के लिए है तथा अन्य बातों के साथ-साथ, इनके पुनर्वास में कार्यरत रिपेट्रिएट कोआपरेटिव फाइनेंस डेवलपमेन्ट बैंक को सहायता और ऋण तथा राज्य सरकारों व संघ राज्य क्षेत्रों की सरकारों को ऋण व अग्रिम की रकम भी इस व्यवस्था में शामिल है । चूंकि वापस आने वाले व्यक्ति ज्यादातर बागान कामगार हैं इसलिए इन्हें आवास सहायता देने के अलावा काफी, रबड़ आदि जैसी विभिन्न बागान योजनाओं और उद्योग, छोटे कारोबार तथा व्यवसाय, स्व-रोजगार की योजनाओं के अन्तर्गत फिर से बसाने के प्रयत्न किए जा रहे हैं । इस व्यवस्था का अधिकांश अंश श्रीलंका से आकर शिविरों में रहने वाले शरणार्थियों के राहत कार्य पर होने वाले व्यय और उसके साथ-साथ स्टाफ संबंधी व्यय के लिए है ।

3. **अन्य देशों से वापस आने वाले व्यक्ति :** इसके अन्तर्गत बर्मा, तिब्बत, भूतपूर्व पश्चिमी पाकिस्तान तथा पूर्वी पाकिस्तान से आए शरणार्थियों के संबंध में व्यय की व्यवस्था शामिल है । भूतपूर्व पूर्वी पाकिस्तान से आए विस्थापित व्यक्तियों के लिए पश्चिम बंगाल में 607 आबादकार कालोनियों में भूमि-अधिग्रहण और अधिकार-पत्र वितरण की जो योजना फरवरी, 1987 में अनुमोदित की गई थी, उस पर काम हो रहा है ।

4. **बट्टेखाते डाले गए पुनर्वास ऋण :** दण्डकारण्य परियोजना के माध्यम से विस्थापित व्यक्तियों को दिए गए ऋणों को बट्टेखाते डालने के लिए संशोधित अनुमान 1991-92 और बजट अनुमान 1992-93 में एक सांकेतिक (टोकन) व्यवस्था की गई है ।

5. **अन्य पुनर्वास कार्यक्रम :** इसमें 1971 के भारत-पाक युद्ध से प्रभावित व्यक्तियों को सहायता देने तथा उनके पुनर्वास और अन्य सामाजिक सुरक्षा तथा कल्याण कार्यों के लिए व्यवस्था शामिल है ।

Rehabilitation:

1. **Dandakaranya Development Scheme :** The Dandakaranya project was set up in 1958 for the resettlement of displaced persons from former East Pakistan in the Dandakaranya region and for the integrated development of the area. To fulfil the objectives, various assets and institutions were created in the four zones namely Umerkote and Malkangiri in Koraput District (Orissa) and Paralkote and Kondagaon in Bastar District (Madhya Pradesh). In all 25,231 families were settled in the Project. For the tribal families being settled in the area by the State Governments, financial assistance has been provided by Government of India.

Since the work of rehabilitation of displaced persons from former East Pakistan has been completed, the assets and institutions have been transferred to the Governments of Madhya Pradesh and Orissa. The Government of India's liability is now to provide 'maintenance' and 'deficiency' for the assets transferred to the State Governments.

There is one major irrigation project namely Potteru Irrigation Project being executed by the Government of Orissa and funded by Government of India to provide irrigation facilities to the displaced persons as well as local tribals, Revision of the estimates of this Project is under consideration.

2. **Relief and Rehabilitation of Repatriates from Sri Lanka :** Under the Indo-Sri Lanka Agreements of 1964, 1974 and 1986, 5.06 lakh persons of Indian origin in Sri Lanka granted Indian citizenship are to be repatriated to India and to be provided relief and rehabilitation assistance. The budget provision is for providing relief and rehabilitation assistance to these repatriates and also includes, interalia, assistance and loan to Repatriates Cooperative Finance Development Bank and loans and advances to State Governments and Union Territories involved in their resettlement. Efforts have been made to settle the repatriates, who are mainly plantation workers, in various plantation schemes like coffee, rubber etc. and also in industries, small trade and business, self employment schemes besides providing housing assistance. The major chunk of the provision is for providing relief assistance to refugees from Sri Lanka, who are staying in camps, as also for staff expenditure.

3. **Repatriates from other Countries :** It covers expenditure on refugees from Burma, Tibet, former West Pakistan and East Pakistan. The scheme for acquisition of land and distribution of title deeds for Displaced Persons from the former East Pakistan in 607 Squatters Colonies in West Bengal approved in February 1987 is in progress.

4. **Rehabilitation Loans written off :** A token provision has been made in RE 1991-92 and BE 1992-93 for write off of loans given to displaced persons through Dandakaranya Project.

5. **Other Rehabilitation programmes :** It includes provision for relief and rehabilitation of persons affected by Indo-Pak conflict, 1971 and other social security and welfare measures.

The project is progressing with the target for the first flight test by 1992.

4. **Geo-Synchronous Launch Vehicle (GSLV) :** One of the major objectives of Space Programme has been to achieve self-reliance in realising application satellites, payloads and the launch capability. For providing the above space based services on an assured basis, development of Geosynchronous Satellite Launch Vehicle (GSLV) and a Cryogenic Engine & Stage to enable indigenous launch of Communication Satellites will be two crucial steps in this direction which will ensure self reliance and cost effectiveness.

The scope of the GSLV Project is to develop and qualify a Geosynchronous Satellite Launch Vehicle (GSLV) for placing 1500/2500 kg class spacecraft in Geosynchronous transfer orbit. It provides for one developmental flight of GSLV MK-1 and two developmental flights of GSLV MK-II.

Financial sanction has been issued for Rs.756.07 crores in November 1990 for undertaking the GSLV project including procurement of two Cryo Engine and Stage.

निगम कर तथा कृषि आय पर लगने वाले करों से भिन्न आयकर की निवल प्राप्तियों को संविधान के अनुच्छेद 270 के अन्तर्गत संघ तथा राज्यों के बीच वितरित करना होता है । इस प्रयोजन के लिए संघ राज्य क्षेत्रों से संबंधित आयकर संघीय परिलब्धियों के संबंध में देय कर तथा संघीय प्रयोजनों के लिए लगाये गये आयकर के अधिभार को विभाज्य पूंजी से बाहर रखा गया है । संविधान (राजस्व वितरण) सं. 3 आदेश, 1990 के उपबन्धों के अनुसार, जिसे नौवें वित्त आयोग की दूसरी रिपोर्ट में 1990-95 अवधि के लिए की गई सिफारिश के आधार पर 1990-95 के दौरान प्रत्येक वर्ष आय संबंधी करों से प्राप्त होने वाली निवल धनराशियों के 85 प्रतिशत अंश को, सिवाए उस स्थिति के जिसमें ये प्राप्तियां संघ राज्य क्षेत्रों को प्राप्तव्य अंश (1.437 प्रतिशत) तथा संघीय परिलब्धियों के संबंध में देय करों की द्योतक हो, राज्यों के नाम समनुदेशित कर दिया जाता है और अनुबन्ध 3 में उल्लिखित प्रतिशतताओं के अनुसार राज्यों में ही संवितरित कर दिया जाता है ।

आयकर में राज्यों के हिस्से का हिसाब उपर्युक्त आधार पर कर लिया गया है और नीचे दिखाया गया है (प्रत्येक राज्य के हिस्से की राशि अनुबन्ध 4 में दी गई है)-

1990-91 में वास्तविक राजस्व का और 1991-92 तथा 1992-93 में अनुमानित राजस्व का वस्तुओं के अनुसार ब्यौरा अनुबंध 1 में दिया गया है ।

(i) *आयात शुल्क*:- मूल बजट में 25560.85 करोड़ रुपए के अनुमानों की अपेक्षा 1991-92 के संशोधित अनुमान में 21855.65 करोड़ रुपए की व्यवस्था की गई है । चालू वित्तीय वर्ष के दौरान आयात राजस्व में कुल कमी आयात-दबाव और सरकार द्वारा लगाई गई ऋण पाबन्दियों के कारण है। सकल राजस्व में अनुमानित कमी मुख्यतः मशीनरी, कार्बनिक रसायनों, वनस्पति वसा और तेल, यात्री सामान, लोहा और इस्पात, हस्तनिर्मित फिलामेंट तथा रेशे, वायुयानों तथा जलयानों, मोटर वाहन संघटकों, यन्त्रों, रबड़ उत्पादों, खनिज पदार्थों आदि से राजस्व की कम वसूली होने के कारण है। अनुमानित राजस्व वसूलियों में कमी परियोजना आयातों, कच्चा तेल, लोहे तथा इस्पात की वस्तुओं, अकार्बनिक रसायनों आदि से प्राप्त होने वाले राजस्व में वृद्धि द्वारा अंशतः प्रतिसंतुलित हुई है ।

वर्ष 1992-93 में आयात शुल्क की प्रत्याशित (निवल) वसूली वर्ष 1991-92 के संशोधित अनुमानों की तुलना में 2678.35 करोड़ रुपए अधिक है। भुगतान संतुलन की सुधरी हुई स्थिति होने के कारण, 1992-93 में आयात राजस्व में सर्वतोमुखी सुधार होने की आशा है। सकल राजस्व में वृद्धि मुख्यतः कार्बनिक तथा अकार्बनिक रसायन, कच्चा तेल और पेट्रोलियम उत्पाद, परियोजना आयात, मशीनरी, प्लास्टिक, तांबा, यन्त्रों, परिवहन उपस्कर लौह धातु, यात्री सामान आदि से अपेक्षित है।

(ii) *निर्यात शुल्क*:- संशोधित अनुमानों के अनुसार वर्ष 1991-92 में निर्यात शुल्क से मूल अनुमान में 0.10 करोड़ रुपए की तुलना में 0.35 करोड़ रुपए की निवल राशि प्राप्त होने की संभावना है । वर्ष 1992-93 के बजट अनुमानों में 142.50 करोड़ रुपए प्राप्त होने की संभावना है। 1992-93 के बजट में तैयारशुदा चमड़े, ग्रेनाइट (परिष्कृत को छोड़कर) पर निर्यात-शुल्क की लेवी से राजस्व में पर्याप्त वृद्धि होने की आशा है।

(iii) *निर्यात पर उपकर*:- 1991-92 के संशोधित तथा 1992-93 के बजट अनुमान क्रमशः 44 करोड़ रुपए और 55 करोड़ रुपए के हैं जबकि वर्ष 1991-92 का बजट बनाते समय 45.31 करोड़ रुपए का अनुमान लगाया गया था ।

(iv) *अन्य प्राप्तियां*:- संशोधित अनुमान 1991-92 तथा बजट अनुमान 1992-93 दोनों में क्रमशः 240 करोड़ रुपए और 295.15 करोड़ रुपए प्राप्त होने के अनुमान हैं जबकि 1991-92 के बजट में 293.15 करोड़ रुपए का अनुमान लगाया गया था।

(v) *जब्त किए गए सोने और चांदी की बिक्री* :— ये प्राप्तियां जब्त किए गए सोने और चांदी की बिक्री की आय से संबंधित हैं। 1991-92 के बजट अनुमानों में इसके लिए 334 करोड़ रुपए की प्राप्तियों की "अन्य कर-भिन्न राजस्व-राजकोषीय सेवाएं— अन्य राजकोषीय सेवाएं" के अंतर्गत परिकल्पना की गई थी।

The commodity-wise break-up of the actual revenue collections during 1990-91 and the estimated revenue in 1991-92 and 1992-93 are indicated in *Annexure 1.*

(i) *Import Duties.*- As against the original estimate of Rs.25560.85 crores, Revised Estimate for 1991-92 is placed at Rs.21855.65 crores. The overall shortfall in import revene has been due to import compression and credit restrictions pursued by the Government during the current financial year. The estimated decrease in gross revenue is mainly on account of less revenue realisations from machinery, organic chemicals, vegetable fats and oils, baggage, iron and steel, man-made filaments and fibres, air-crafts and vessels, components of motor-vehicles, instruments, rubber products, mineral substances, etc.This decrease in estimated revenue realisations has partly been offset by increased collection of import duties from project imports, crude oil, articles of iron and steel, inorganic chemicals, etc.

Anticipated import duty realisation (net) in 1992-93 shows an increase of Rs.2678.35 crores as compared to the Revised Estimate of 1991-92. Due to the improved position of the balance of payment, an all round improvement in the import revenue is expected in 1992-93. The increase in gross revenue is expected mainly from organic & inorganic chemicals, crude oil & petroleum products, project imports, machinery plastics, copper, instruments, transport equipments ferrous metals, baggage etc.

(ii) *Export Duties* :- The Revised Estimate of net collections from export duties in 1991-92 is placed at Rs.0.35 crores as against the original estimate of Rs. 0.10 crores. The Budget Estimate for 1992-93 has been placed at Rs. 142.50 crores. The substantial growth in revenue is expected from levy of export duty on finished leather, granite (other than polished) and iron ore in budget 1992-93.

(iii) *Cesses on Exports*:--Revised Estimate for1991-92 and Budget Estimate for 1992-93 are placed at Rs 44.00 crores and Rs. 55.00 crores respectively, against Rs.45.31 crores as anticipated at the Budget stage for 1991-92.

(iv) *Other Receipts*:-- Collections are placed at Rs.240 crores and Rs.295.15 crores respectively in the Revised Estimate for 1991-92 and Budget Estimate for 1992-93 as against the Budget Estimate of Rs.293.15 crores in 1991-92.

(v) *Sale of Confiscated gold and silver* :— The receipts relate to sale proceeds of confiscated gold and silver. In BE 91-92 receipts of Rs.334 crores were assumed on this account under "Other Non-Tax Revenue-Fiscal Services-Other Fiscal Services".

संघ उत्पाद शुल्क तथा उपकर केन्द्रीय उत्पाद तथा नमक अधिनियम, 1944 और अन्य विशेष अधिनियमों के अंतर्गत, जो समय-समय पर लागू होते रहते हैं, आने वाली वस्तुओं पर लगाए जाते हैं । इन वस्तुओं को बजट

शीर्षों की 139 वस्तुओं में बांटा गया है । तथापि, कई वस्तुओं को शुल्क से मुक्त कर दिया गया है । अनुमान है कि वर्ष 1991-92 में 27695.79 करोड़ रुपए की प्राप्तियां होंगी जबकि मूल बजट अनुमान में 27402.18 करोड़ रुपए की व्यवस्था वित्त (संख्या 2) अधिनियम 1991 के अन्तर्गत किए गए परिवर्तनों को हिसाब में लेते हुए की गई थी, जो 293.61 करोड़ रुपए की वृद्धि दर्शाता है। यह आशा है कि वर्ष 1992-93 में 32210.55 करोड़ रुपए की प्राप्तियां होंगी, अर्थात् वर्ष 1991-92 के संशोधित अनुमानों से 4514.76 करोड़ रुपए ज्यादा प्राप्त होगा। निम्नलिखित सारणी में उत्पाद-शुल्क से प्राप्त राजस्व (वापसी घटाकर) का संक्षिप्त ब्यौरा दिया गया है :—

The receipts in 1992-93 are expected to be Rs. 32210.55 crores i.e. Rs. 4514.76 crores more than the Revised Estimate of 1991-92. संघ उत्पाद शुल्कों से प्राप्त राजस्व का वस्तु-वार ब्यौरा वर्ष 1990-91 के वास्तविक आंकड़ों के लिए, वर्ष 1991-92 के बजट और संशोधित अनुमानों के लिए और वर्ष 1992-93 के बजट अनुमानों के संबंध में अनुबन्ध 2 में दिया गया है ।

The commodity-wise details of revenue from Union Excise Duties for actuals of 1990-91, budget and revised estimates of 1991-92 as well as the budget estimates of 1992-93 are given in *Annexure 2.*

संशोधित अनुमानों में बुनियादी और विशेष उत्पाद शुल्कों की प्राप्तियों को 21983.02 करोड़ रुपए आंका गया है जबकि मूल अनुमान में 22551.78 करोड़ रुपए आंका गया था। 568.76 करोड़ रुपए की प्रत्याशित वृद्धि मुख्यतः प्लास्टिक, सीमेंट, गैर-विद्युत मशीनरी, मोटर वाहन, वातित जल आदि के कारण है। अनुमानित राजस्व वसूली में होने वाली यह वृद्धि मोटर स्पिरिट, सिगरेट, हस्तनिर्मित रेशे और यार्न आदि से प्राप्त होने वाले राजस्व में कमी से अंशतः प्रतिसंतुलित हो जाएगी।

As against the original estimate of basic and special excise duties of Rs. 21983.02 crores, the revised estimate has been placed at Rs.22551.78 crores. The anticipated increase of Rs. 568.76 crores is mainly on account of higher revenue realisation from plastics, cement, non-electrical machinery, motor vehicles, aerated waters, etc. This increase in estimated revenue realisation is likely to be partially offset by decreased revenue from motor spirit, cigarettes, man-made fibres and yarns, etc.

वर्ष 1991-92 के संशोधित अनुमानों की तुलना में वर्ष 1992-93 के बजट अनुमानों में जो वृद्धि हुई है, वह मुख्य रूप से हस्त निर्मित रेशे और यार्न, सिगरेट, मशीनरी, सीमेंट, चीनी, लोहा और इस्पात, टायर, मोटर स्पिरिट, रसायन आदि से उत्पाद-शुल्क वसूली में संभावित वृद्धि होने के कारण हुई है। उपर्युक्त मदों के अन्तर्गत वृद्धि देशीय कच्चे तेल से प्राप्त होने वाले कम उपकर राजस्व से अंशतः प्रतिसंतुलित हो जाएगी ।

The increase in Budget Estimate for 1992-93 as compared to the Revised Estimate of 1991-92 is mainly on account of expected growth in excise revenue realisations from man-made fibres & yarns, cigarettes, machinery, cement, sugar, iron & steel, tyres, motor spirit, chemicals etc. The increase under the above items will be partly offset by decreased revenue from Cess on indigenous crude oil.

संशोधित अनुमान 1991-92 में, वित्त (संख्या 2) अधिनियम, 1991 के अन्तर्गत किए गए परिवर्तनों को हिसाब में लेकर मूल अनुमान में 1933.31 करोड़ रुपए की तुलना में बिक्री कर के बदले आरोपित अतिरिक्त उत्पाद शुल्कों की प्राप्तियों को 1911.43 करोड़ रुपए आंका गया है। 1992-93 के बजट अनुमानों में 2204.22 करोड़ रुपए की राशि प्रदर्शित की गई है ।

The receipts from Additional Excise Duties in lieu of Sales Tax are placed at Rs.1911.43 crores in the Revised Estimate for 1991-92 as against Rs.1933.31 crores in the original estimate (after taking into account the changes made thereon in the Finance (No.2) Act, 1991. The Budget Estimate for 1992-93 is placed at Rs.2204.22 crores.

केन्द्र और राज्यों में संघ उत्पाद शुल्कों का वितरण:

Distribution of Union Excise Duties between Centre and States:

संविधान के अनुच्छेद 272 के अन्तर्गत, संघ उत्पाद शुल्कों की निवल प्राप्तियों के ऐसे भाग की अदायगी तथा राज्यों के बीच उनके वितरण के लिए इस प्रयोजन से बनाए गए कानून के अनुरूप व्यवस्था की गई है । तथापि, अतिरिक्त उत्पाद शुल्क (वस्त्र तथा वस्त्र-सामग्री) अधिनियम, 1978 के अन्तर्गत वस्त्रों तथा वस्त्रों से संबंधित सामग्री पर लागू अतिरिक्त शुल्कों से प्राप्तियां उक्त अधिनियम की धारा 3(2) के अनुरूप है, जो राज्यों के बीच बांटी नहीं जा सकती । इसी प्रकार, निर्धारित उपकरों से प्राप्त राशि को भी राज्यों में नहीं बांटा जाता ।

Article 272 of the Constitution provides for sharing a part of net proceeds of Union Excise Duties and their distribution among the States in accordance with law enacted for the purpose. However, the receipts from additional duties on textiles and textile articles levied under the Additional Duties of Excise (Textiles and Textile Articles) Act, 1978 are, in terms of Section 3(2) of the said Act, not distributable among the States. Similarly, the receipts from earmarked cesses are also not shareable with States.

संघ उत्पाद शुल्क (संवितरण) संशोधन अधिनियम 1990 के अंतर्गत जिसमें नौवें वित्त आयोग की दूसरी रिपोर्ट में की गई सिफारिशों के आधार

Under the Union Duties of Excise (Distribution) Amendment Act, 1990 based on the recommendations made in the Second Report of the

पर विशेष अधिनियमों के अन्तर्गत समाए गए तथा निर्दिष्ट प्रयोजनों के लिए निर्धारित किए गए उपस्करों को छोड़कर केन्द्रीय उत्पाद शुल्क तथा नमक अधिनियम, 1944 के अन्तर्गत और ऐसे ही शुल्क को आरोपित करने के लिए तथा एकत्रित करने के लिए लागू किसी अन्य कानून के अन्तर्गत आरोपित एवं संग्रहीत संघ उत्पाद शुल्कों की निवल प्राप्तियों की रकम के 45 प्रतिशत अंश को राज्यों को 1990-91 से 1994-95 तक प्रत्येक वित्तीय वर्ष के दौरान आयोग द्वारा निर्धारित प्रतिशतताओं के आधार पर दिया जाना है । प्रतिशतता के आधार पर प्रत्येक राज्य का हिस्सा अनुबंध-3 में दिया गया है ।

अतिरिक्त उत्पाद शुल्क (विशेष महत्व का माल) अधिनियम 1957 में चीनी, तम्बाकू, सूती फेब्रिकों, ऊन के तथा हाथ से बने कपड़ों पर अतिरिक्त उत्पाद शुल्क आरोपित किए जाने और उसे एकत्रित किए जाने की व्यवस्था है। यह शुल्क केन्द्रीय उत्पाद शुल्क तथा नमक अधिनियम, 1944 अथवा इस समय प्रवृत्त किसी अन्य कानून के अन्तर्गत देय शुल्कों के अतिरिक्त है और राज्यों की सरकारों के साथ सहमति से किए गए निर्णय के अनुसार बिक्री कर को प्रतिस्थापित करता है जिसे राज्य इन वस्तुओं पर अन्यथा आरोपित करते हैं। संघ राज्य क्षेत्रों को प्राप्तव्य राशियों को छोड़कर अतिरिक्त उत्पाद शुल्कों से प्राप्त होने वाली समग्र धनराशियां राज्यों के बीच बांट दी जाती है । अतिरिक्त उत्पाद शुल्क (विशेष महत्व का माल) संशोधन अधिनियम, 1990 में जो कि नौवें वित्त आयोग की दूसरी रिपोर्ट में की गई सिफारिशों के आधार पर अधिनियमित किया गया था, विभिन्न राज्यों को 1990-91 से 1994-95 तक प्रत्येक वित्तीय वर्ष में निवल प्राप्तियों से उनके 1.903 प्रतिशत के बराबर की रकम घटाकर जो कि संघ राज्य क्षेत्रों को प्राप्त होती है, अदा की जाने वाली निवल प्राप्तियां प्रतिशतताएं निर्धारित की गई है ।। प्रत्येक राज्य का प्रतिशत हिस्सा अनुबंध 3 में दिया गया है । उत्पाद शुल्कों का यह विभाजन इस शर्त के अधीन रहेगा कि यदि किसी वित्तीय वर्ष में उस राज्य के किसी भी कानून के द्वारा अथवा अंतर्गत इन वस्तुओं में से किसी भी वस्तु की बिक्री या उसकी खरीद पर किसी भी राज्य में कोई कर आरोपित किया जाएगा अथवा एकत्रित किया जाएगा, तो जब तक केन्द्रीय सरकार विशेष आदेश जारी करके अन्यथा निर्देश न दे तब तक उस वित्तीय वर्ष के दौरान उस राज्य को उस वस्तु के संबंध में कोई धनराशि अदा नहीं की जाएगी ।

संघ राज्य उत्पाद शुल्कों तथा बिक्री कर के बदले आरोपित अतिरिक्त उत्पाद शुल्कों में राज्यों का हिस्सा उपर्युक्त आधार पर निर्धारित किया गया है।

राज्यों को देय शेयर का अनुमान नीचे दी गई सारणी में दिखाया गया है:-

Ninth Finance Commission, 45 per cent of the net proceeds of Union duties of excise levied and collected under the Central Excise and Salt Act, 1944, and any other law for the levy and collection of such duty, excluding cesses levied under special Acts and earmarked for specific purposes, are to be paid to the States and distributed among them during each of the financial year 1990-91 to 1994-95 on the basis of the percentage prescribed by the Commission. The percentage share of each States has been given in Annexure-3.

The Additional Duties of Excise (Goods of Special Importance) Act, 1957 provides for the levy and collection of additional duties on sugar, tobacco, cotton fabrics, woollen fabrics and man-made fabrics. This duty is in addition to the duties payable under the Central Excises and Salt Act, 1944 or under any other law for the time being in force, and had replaced, by agreement with the State Governments, the sales tax otherwise levied by the States on these commodities. The entire proceeds of the additional excise duties, other than the proceeds attributable to Union territories, are distributable among the States. Additional Duties of Excise (Goods of Special Importance) Amendment Act, 1990 based on the recommendations made in the Second Report of the Ninth Finance Commission prescribes the percentages of net proceeds to be paid to various States during each of the financial years 1990-91 to 1994-95, after deducting a sum equal to 1.903 per cent of the net proceeds as being attributable to Union territories. The percentage share of each State is shown in *Annexure 3.* The sharing would be subject to the condition that if during any financial year, there is levied and collected in any State, a tax on the sale or purchase of any of these commodities by or under any law of that State, no sums shall be payable to that State in respect of that commodity in respect of that financial year unless the Central Government by special order otherwise directs.

The States' share of Union Excise Duties and Additional Excise Duties in lieu of Sales tax has been worked out on the above basis.

The estimate of share payable to States is shown in the following table:-

(a) Interest on loans to States

In pursuance of the recommendations of the Ninth Finance Commission (Second Report for the period 1990-95) as accepted by the Government, the State Plan loans advanced to States during 1984-89 and outstanding as at the end of 1989-90 have been consolidated for 15 years with 9% rate of interest. The Ninth Finance Commission has not recommended any change in respect of the pre-1979 consolidated loans. The pre 1979 consolidated loans carry rate of interest of 4.75 *per cent*, while those advanced during 1979-84 and consolidated for terms ranging from 15 years to 30 years carry interest at rates varying from 6 *per cent* to 6.75 *per cent*.

Small Savings loans given to the State Governments prior to 1.4.1974 carry effective rate of interest of 4.75 *per cent*. The loans from 1.8.74 to 31.5.81 and 1.6.81 to 31.5.82 carry interest at 6.25 *per cent* and 7.25 *per cent* respectively. The loans from 1.6.1982 to 31.5.83 carry interest at 7.75 *per cent* and those from 1.6.83 to 31.5.84 that of 8.75 *per cent*. The rate of interest from 1.6.84 is 9.75 *per cent* and from 1.6.85 it is 10.25 *per cent*. The loans from 1.6.86 to 31.5.89 carry

प्रतिशत और 1.6.1985 से 10.25 प्रतिशत है । 1.6.86 से 31.5.89 तक ऋणों पर 12 प्रतिशत की दर से ब्याज लगता था। 1.6.89 से 31.5.91 बब्याज दर 13 प्रतिशत है । 1.6.91 से ब्याज की दर बढ़ाकर 13.5 प्रतिशत कर दी गई है।

राज्यों को दिए गए अन्य आयोजना और आयोजना-भिन्न ऋणों पर 1.6.84 से 31.5.85 तक और 1.6.85 से 31.5.86 तक ब्याज की दर क्रमशः 7.50 प्रतिशत और 8 प्रतिशत थी । 1.6.86 से 31.5.87 तक के ऋणों पर 8.75 प्रतिशत की दर से ब्याज लगता था, जबकि 1.6.87 से 31.5.88 तक लिए गए ऋणों पर 9.25 प्रतिशत की दर से ब्याज लगा था। 1.6.88 से 31.5.90 तक लिए गए ऋणों पर 9.75 प्रतिशत ब्याज लगा था। 1.6.90 से 31.5.91 तक के ऋणों पर ब्याज की दर 10.25 प्रतिशत है। दिनांक 1.6.91 से ब्याज की दर बढ़ाकर 10.75 प्रतिशत कर दी गई है।

1991-92 के संशोधित अनुमानों में राज्य सरकारों से 6840.57 करोड़ रुपए की ब्याज प्राप्तियां तथा 1992-93 के बजट अनुमानों में 8240.60 करोड़ रुपए की ब्याज प्राप्तियों का अनुमान लगाया गया है । 1992-93 के बजट अनुमानों में वृद्धि आयोजनागत और आयोजना-भिन्न प्रयोजनों के लिए दिए गए उधारों पर ब्याज और अल्प बचतों की संग्रहीत राशियों के आधार पर दिए गए / 1990-91 के दौरान दिए जाने वाले उधारों के ब्याज की वसूली के कारण है ।

उपर्युक्त अनुमानों में, नौवें वित्त आयोग द्वारा वर्ष 1990-95 के लिए दूसरी रिपोर्ट में की गई सिफारिशों के प्रभाव को हिसाब में लिया गया है । पंजाब राज्य सरकार को 1989-90 और 1990-91 के दौरान दिए गए विशेष ऋणों के संबंध में अगले वर्ष में ब्याज की अदायगी पर पंजाब को अतिरिक्त स्थगनावधि प्रदान की गई है ।

(ख) संघ राज्य क्षेत्रों की सरकारों को दिए गए उधारों पर ब्याज

संघ राज्य क्षेत्र पांडिचेरी को दिए गए ऋण अग्रिमों पर 1991-92 के दौरान 18.29 करोड़ रुपए और 1992-93 के बजट अनुमानों में 19.00 करोड़ रुपए की ब्याज-प्राप्तियां होने का अनुमान है ।

(ग) रेलवे द्वारा दिया जाने वाला ब्याज

संसद की अनुक्रमिक रेलवे अभिसमय समितियों की सिफारिशों के अनुसार रेलवे में लगी पूंजी पर, जिसका हिसाब वार्षिक आधार पर लगाया जाता है, रेलवे द्वारा ब्याज के एवज में सामान्य राजस्व को एक निश्चित लाभांश और थोड़ा सा अंशदान दिया जाता है । रेलवे अभिसमय समिति की लोक सभा में 22.2.91 को प्रस्तुत की गई उनकी तीसरी रिपोर्ट में की गई सिफारिशों के आधार पर 1992-93 के लिए अनुमान 1991-92 में किए गए प्रबन्धों के आधार पर अनंतिम रूप से बनाए गए हैं । ये व्यवस्थाएं इस प्रकार हैं :-

(i) रिहायशी इमारतों की पूंजीगत लागत को छोड़कर, जिन पर 3.5 प्रतिशत की दर से लाभांश दिया जाता है, रेलवे निम्नलिखित दरों पर इस लाभांश को अदायगी करती है:-

(1) 31.3.1980 तक निवेशित पूंजी पर 6 प्रतिशत (31.3.1964 तक राज्यों को अदायगी के लिए निवेश्य पूंजी पर यात्री किराया कर आदि के बदले 1.5 प्रतिशत सहित)

(2) उसके बाद निवेशित पूंजी पर 6.5 प्रतिशत

(ii) रेलवे नीचे बताई गई पूंजी के संबंध में लाभांश की अदायगी नहीं करती:-

(1) *सामरिक महत्व की लाइनें* — ऐसी लाइनों के कार्यचालन में वार्षिक हानि सामान्य राजस्व से पूरी की जाती है और उनके कार्यचालन में फालतू राशि, यदि कोई हो तो, सामान्य लाभांश के स्तर तक सामान्य राजस्व को अन्तरित कर दी जाती है।

(2) *अलाभकारी ब्रांच लाइनें*- लगी पूंजी पर लाभांश की अदायगी से एक ब्रांच लाइन विशेष को छूट इस लाइन की अलाभदायकता की वार्षिक समीक्षा के आधार पर दी जाती है जिसके निर्धारण में "सीमान्तिक लागत" का सिद्धांत अपनाया जाता है ।

(3) नौकाओं, कल्याण, कार्यों से संबंधित इमारतों, (अस्पताल, दवाखाने, स्वास्थ्य एकक, क्लब, संस्थाएं, स्कूल तथा कालेज,

interest at 12 per cent. The loans from 1.6.89 to 31.5.91 carry interest at 13 per cent. The rate has been revised to 13.5 per cent from 1.6.91.

The rate of interest on other plan and non-plan loans to States from 1.6.84 to 31.5.85 and 1.6.85 to 31.5.86 carry interest at 7.50 per cent and 8 per cent respectively. Loans from 1.6.86 to 31.5.87 carry interest at 8.75 per cent while loans from 1.6.87 to 31.5.88 carry interest at 9.25 per cent. Loans from 1.6.88 to 31.5.90 carry interest at 9.75 per cent. The loans from 1.6.90 to 31.5.91 carry interest at 10.25 per cent. The rate has been raised to 10.75 per cent w.e.f. 1.6.1991.

The interest receipts from the State Governments are estimated at Rs.6840.57 crores in the Revised Estimate 1991-92 and Rs. 8240.60 crores in Budget Estimate 1992-93. The increase in Budget Estimate 1992-93 is due to recovery of interest on the loans for Plan and Non-Plan purposes and loans against Small Savings Collections advanced during 1990-91.

The above estimates take into account the effect of the recommendations of the Ninth Finance Commission made in Second Report for 1990-95. Additional maratorium on payment of interest in next year has been granted to Punjab in respect of special loans advanced to the State Government during 1989-90 and 1990-91.

(b) Interest on loans to Union Territory Governments

The interest receipts during 1991-92 is estimated at Rs. 18.29 crores and Rs. 19.00 crores in Budget Estimates 1992-93 on loans advanced to Union territory of Pondicherry.

(c) Interest payable by Railways

In terms of the recommendations of the successive Railway Convention Committees (RCC) of Parliament, the Railways pay a fixed dividend to General Revenues on the capital invested in the Railways as computed annually in lieu of interest charges *plus* a small amount of contribution. Based on the recommendation of RCC in their 3rd Report presented to Lok Sabha on 22.2.91, the estimates for the year 1992-93 have been provisionally framed on the basis of the arrangements adopted for 1991-92. These arrangements are:

(i) Except for the Capital cost of residential buildings which bears dividend at 3.5 per cent., Railways pay dividend at:

(1) 6% on capital invested upto 31.3.1980 (inclusive of 1.5% on dividend bearing capital less subsidy capital invested upto 31.3.1964, for payment to States in lieu of passenger fares tax).

(2) 6.5% on the capital invested thereafter.

(ii) The Railways do not pay dividend on capital in respect of:

(1) *Strategic Lines* - the annual loss in respect of working of such lines is borne by General Revenues and surplus, if any, in their working is transferred to General Revenues upto the level of normal dividend.

(2) *Unremunerative branch lines* - the exemption of a particular branch line from payment of dividend on capital is based on annual review of the un-remunerativeness of the line, the remunerativeness being determined adopting the 'marginal cost' principle.

(3) Ferries, welfare buildings (hospitals, dispensaries, health units, clubs, institutes, schools and colleges, hostels and

होस्टल तथा अन्य कल्याण केन्द्र) और पूर्वोत्तर सीमा रेलवे के असामरिक भाग के संबंध में लगी पूंजी।

other welfare centres) and non-strategic portion of the Northeast Frontier Railway.

(4) अयस्क लाइनें (किरिबुरू-बिमलगढ़ तथा संभलपुर-टिटलागढ़ लाइनें, जिन पर अयस्क की ढुलाई के लिए भाड़े की रियायती दरें उपलब्ध कराई जाती हैं) बशर्ते कि वे लाभकारी नहीं हैं। लाभप्रदता, "सीमान्तिक लागत" सिद्धान्त को अपनाते हुए निर्धारित की गई है।

(4) Ore lines (Kiriburu-Bimlagarh and Sambhalpur-Titlagarh lines, which involve concessional rates of freight for the carriage of ore) provided that they are not remunerative, the remunerativeness being determined adopting the 'marginal cost' principle.

(5) "वित्तीय लाभ के आधार से भिन्न आधार पर" पहली अप्रैल, 1955 को अथवा उसके बाद शुरू की गई 28 "नई लाइनों" की पूंजीगत लागत जिनमें से 'सीमान्तिक लागत' के सिद्धान्त के अनुसार वे लाइनें शामिल नहीं है जिनसे वर्ष के दौरान लाभ प्राप्त होना शुरू हो गया था। यह प्रबंध जम्मू-कठुआ तथा तिरुनेलवेली-त्रिवेन्द्रम- कन्याकुमारी लाइनों पर लागू होता है जिनको 'राष्ट्रीय महत्व के निवेश' माना जाता है।

(5) 28 'new lines' taken up on or after 1st April, 1955 on 'other than financial' considerations, except those which become remunerative during the year adopting the 'marginal cost' principle; this arrangement applies also to Jammu-Kathua and Tirunelvelli - Trivandrum - Kanyakumari lines which are known as 'national investments'.

उपर्युक्त 'नई लाइनों' को छोड़कर अन्य नई लाइनों में निवेशित पूंजी पर लाभांश, निर्माण की अवधि के दौरान तथा उनके खुलने के बाद पहले पांच वर्षों के लिए स्थगित किया गया है। स्थगित लाभांश छठे वर्ष से वसूल किया जा सकता है, बशर्ते कि नई लाइनों की निवल आय में चालू लाभांश की अदायगी के बाद कुछ अधिशेष रहे। नई लाइनों पर स्थगित लाभांश का खाता, उनके खुलने की तारीख से 20 वर्ष की अवधि के बाद किसी भी जिम्मेदारी को समाप्त करते हुए जिसे उस अवधि में समाप्त नहीं किया गया, बन्द कर दिया जाता है।

On the 'new lines' other than those referred to above, dividend on capital invested is deferred during the period of construction as well as for the first five years after their opening. The deferred dividend is recoverable from the sixth year provided the net income of the new lines leaves a surplus after payment of the current dividend. The account of the unliquidated deferred dividend on these lines is closed after a period of 20 years from the date of their opening, extinguishing any liability for deferred dividend not liquidated within that period.

(iii) एक वर्ष में चालू पूंजीगत निर्माण कार्यों पर होने वाले पूंजी-परिव्यय के 50 प्रतिशत भाग को (जिस पर अन्यथा लाभांश देय होता हो) तीन वर्ष की अवधि के लिए लाभांश की अदायगी से छूट दी गई है।

(iv) उपर्युक्त लाभांश छूटों को (सामरिक महत्व की लाइनों से संबंधित कार्यों पर होने वाली हानि को छोड़कर) सामान्य राजस्व से आर्थिक सहायता के रूप में उपलब्ध किया जाता है।

(v) ऐसे वर्षों में जब रेलवे का निवल राजस्व चालू लाभांश देनदारियों को पूरा करने के लिए काफी नहीं होता, चालू लाभांश की अदायगी की कमी को आस्थगित देनदारी माना जाता है (जिस पर कोई ब्याज नहीं लिया जाता) क्योंकि इस राशि की अदायगी आने वाले वर्षों में रेलवे की बचतों से की जाती है।

(iii) 50 per cent of the outlay in a year on capital works-in-progress (which would otherwise be liable to payment of dividend) is exempted from payment of dividend for a period of three years.

(iv) The above dividend concessions (except losses in the working of strategic lines) are provided to Railways in the form of subsidy from General Revenues.

(v) In years in which the net revenue of the Railways is not adequate to meet the current dividend liability, the shortfall in the payment of the current dividend is treated as deferred dividend liability (on which no interest is charged) to be discharged by Railways from surplus in future years.

उपर्युक्त सिद्धांतों के आधार पर 1991-92 और 1992-93 के दौरान रेलवे द्वारा देय लाभांश के अनुमान नीचे दी गई सारणी के अनुसार हैं:-

Based on the principles mentioned above, the estimates of dividend payable by Railways for 1991-92 and 1992-93 work out as follows:-

रेलवे अभिसमय समिति 1977 की सिफारिशों के अनुसार, रेलवे की सामान्य राजस्व के प्रति 1978-79 से पूर्व की देनदारी, जो लाभांश की अदायगी की कमी की द्योतक है, उनके द्वारा भविष्य में प्राप्त होने वाले अधिशेषों से अगले दस वर्षों की अवधि में पूरी की जाएगी जिसके बाद

In terms of the recommendations of the Railway Convention Committee1977, the pre-1978-79 liability of the Railways to General Revenues representing the shortfall in dividend payments, was required to be discharged by them out of future surpluses in the next ten years,

स्थिति का पुनरीक्षण किया जा सकेगा । इस लाभांश की देनदारी पूरी कर दी गई है।

1978-79 के बाद के आस्थगित लाभांश का दायित्व 1990-91 के अंत तक 416.46 करोड़ रुपए का था और 1991-92 के अंत तक यह इतना ही बना रहेगा और वर्ष 1992-93 में इसके पूरी तरह चुकाए जाने का प्रस्ताव है ।

1964-65 से पहले की पूंजी पर रेलवे द्वारा दिए जाने वाले 1.5 प्रतिशत के अतिरिक्त लाभांश में से 23.12 करोड़ रुपए की रकम का रेलवे द्वारा प्रदत्त अंशदान, निरसित रेलवे यात्री किराया कर के एवज में राज्यों को तथा अंशतः रेलवे को सुरक्षा कार्यों अर्थात् कर्मचारी नियंत्रित रेलवे फाटक, सड़क ऊपरी पुलों और निचले पुल के खर्च को पूरा करने के लिए दिया जाता है। तथापि, आठवें और नौवें वित्त आयोग की सिफारिशों के आधार पर केन्द्र 95 करोड़ रुपए 1989-90 तक तथा 1990-91 से 150 करोड़ रुपए का वार्षिक अनुदान राज्यों को देता है तथा यह राशि आयोग की सिफारिशों के अन्तर्गत निर्धारित प्रतिशत आधार पर राज्यों में बांट दी जाती है जैसा कि अनुबंध 3 में दिखाया गया है ।

(घ) दूर संचार *विभाग द्वारा देय ब्याज* :- दूर संचार विभाग तथा सामान्य राजस्व के वित्तीय संबधों को शासित करने वाले अभिसमय के अन्तर्गत दूर संचार विभाग सामान्य राजस्व को निम्न दरों के अनुसार लाभांश देगा:-

(i)1963-64 के अन्त तक दी गई उस निवल पूंजी पर 4.5 प्रतिशत प्रतिवर्ष लाभांश, जिसमें डाक-तार विभाग के 31 मार्च 1960 तक के संचित अधिशेष के अंश की रकम (29.78 करोड़ रुपए) और विभाग की नवीकरण प्रारक्षित निधि* में 1963-64 के अन्त में जमा रकम (52.72 करोड़ रुपए) घटा दी जाती है ।

(ii) वर्ष 1980-81 और उससे आगे तक संबंधित वर्षों में लिए गए ऋण पर लागू ब्याज की औसत दर :

(क) वर्ष 1964-65 से 1969-70 तक दी गई पूंजी जिसमें से इसी अवधि में नवीकरण प्रारक्षित निधि* में हुई निवल वृद्धि की रकम घटा दी गई है, और

(ख) 1969-70 के बाद 1984-85 तक प्रदत्त पूंजी जिसमें से डाक संबंधी संचयित घाटे की रकम निकाल दी गई थी, पूर्ववर्ती डाक व तार विभाग की राजस्व प्रारक्षित निधि में से (938.40 करोड़ रुपए) पूरी कर दी गई ।

यदि विभाग सामान्य राजस्व में देय लाभांश को अदा करने में असमर्थ है, तो उत्तरवर्ती विभाग के कार्यचालन परिणामों में हुई कमी और घाटे को यदि, कुछ हो, पूरा करने के लिए दूर संचार राजस्व प्रारक्षित निधि को ब्याज पर अग्रिम देता है ।

परिव्यय राशि में से घटाकर परिसम्पत्ति की वास्तविक प्रारंभिक लागत के आधार पर मूल्यह्रास के लिए की गई व्यवस्था को पूंजी खाते में अंतरित कर दिया जाता है ।

राजस्व प्रारक्षित निधि और पूंजी प्रारक्षित निधि के शेषों पर औसत दर से ब्याज मिलता है और यह ब्याज निधियों में जमा कर दिया जाता है।

दूर-संचार विभाग के कार्यचालन के वित्तीय परिणाम संक्षिप्त रूप में इस प्रकार है :-

**नवीकरण प्रारक्षित निधि को पहली अप्रैल, 1970 से समाप्त कर दिया गया था ।*

after which the position could be reviewed. This dividend liability has been completely liquidated.

The post 1978-79 deferred dividend liability stood at Rs.416.46 crores at the end of 1990-91 and will remain the same at the end of the year 1991-92 and is proposed to the completely liquidated in the year 1992-93.

Out of the additional 1.5 *per cent* dividend paid by the Railways on the pre-1964-65 capital, an amount of Rs.23.12 crores is contributed by the Railways for being passed on to the States as grant in lieu of the repealed tax on railway passenger fares and the balance is made available to States and partly to Railways to finance railway safety works such as manned level crossings, road over-bridges and under-bridges. However, on the basis of the recommendations of Eighth and Ninth Finance Commissions, Centre is paying an annual grant of Rs.95 crores upto 1989-90 and Rs.150 crores from 1990-91 to States and this is distributed among the States according to percentage share recommended by the Commissions, shown in Annexure 3.

(d) *Interest payable by the Department of Telecommunications.-* Under the Convention governing the financial relationship between the Department of Telecommunications and the General Revenues, the Department of Telecommunications would pay dividend to General Revenues at the following rates:

(i) 4.5% per annum on the net capital advanced upto the end of 1963-64 reduced by the Department's share of accumulated surplus as on 31st March, 1960(Rs.29.78 crores), and the balance in the Department's Renewals Reserve Fund* as at the end of 1963-64 (Rs.52.72 crores).

(ii) Average borrowing rate of interest as applicable to the respective years from 1980-81 and onwards on:

(a) Capital advanced from 1964-65 to 1969-70 reduced by the net accretion to the Renewals Reserve Fund* during this period and;

(b) Capital advanced after 1969-70 upto 1984-85 reduced by amount of accumulated Postal deficit met out of Revenue Reserve Fund of the erstwhile P & T Department (Rs.938.40 crores).

In case the Department is unable to pay dividend due to General Revenues, the latter makes interest-bearing advance to the Telecommunication Revenue Reserve Fund to cover the shortfall, as well as for meeting the deficit, if any, in the working results of the Department.

Provision for depreciation based on historical cost of assets is transferred to capital in reduction of the outlay.

The balances in the Revenue Reserve Fund and the Capital Reserve Fund earn interest at the average rate and this interest is added to the Funds.

The financial results of the working of the Department of Telecommunications are briefly as under :-

** The Renewals Reserve Fund was abolished with effect from 1st April, 1970*

(क) और (ख) - आठवें वित्त आयोग की सिफारिशों के अनुसार, जैसा कि वे सरकार द्वारा मंजूर की गई है, राज्य सरकारों को 1983-84 तक दिए गए और 1984-85 के अन्त तक बकाया केन्द्रीय ऋणों को समेकित किया गया है । समेकन के प्रयोजन से वित्त आयोग ने 1978-79 तक दिए गए ऋणों और 1979 से 1984 तक दिए गए ऋणों को अलग-अलग माना था। यद्यपि कुछ राज्यों के संबंध में 1979 से पहले के ऋणों की शर्तों में किसी परिवर्तन की सिफारिश नहीं की गई है, लेकिन अन्य राज्यों के मामले में इन ऋणों को 25 वर्षीय ऋणों अथवा 30 वर्षीय ऋणों के रूप में समेकित करने की सिफारिश की गई है । जहां तक 1979-84 के दौरान दिए गए ऋणों का संबंध है, इन ऋणों को सभी राज्यों के मामले में, 15 वर्षों से लेकर 30 वर्षों तक की अवधियों के ऋणों के रूप में समेकित कर दिया गया है । नौवें वित्त आयोग ने अपनी 1989-90 के लिए पहली रिपोर्ट में और 1990-95

(a) & (b): In pursuance of the recommendations of the Eighth Finance Commission, as accepted by the Government, the Central loans advanced to the State Governments upto 1983-84, and outstanding as at the end of 1984-85, have been consolidated. For purposes of consolidation, the Finance Commission had treated loans advanced up to 1978-79 and those advanced during 1979-84 differently. While no change has been recommended in the terms of pre-1979 loans in the case of some States, these loans have been recommended to be consolidated into either 25 year loans or 30 year loans in the case of others. As regards loans advanced during 1979-84, these have been consolidated in the case of all the States with periods ranging from 15 years to 30 years. The Ninth Finance Commission in their First Report

के लिए दूसरी रिपोर्ट में इन समेकित ऋणों के सम्बन्ध में कोई परिवर्तन करने की सिफारिश नहीं की है ।

(ग) ये वसूलियां राज्यों को 1982-83 और 1983-84 में उनके ओवरड्राफ्टों को चुकाने के लिए दिए गए ऋणों की है । इन ऋणों को आठवें/नौवें वित्त आयोग द्वारा निर्धारित समेकन योजना के अन्तर्गत समेकित नहीं किया गया ।

(घ) नौवें वित्त आयोग की 1990-95 की अवधि के लिए दूसरी रिपोर्ट में दी गई सिफारिशों के अनुसार, जैसा कि सरकार द्वारा मंजूर किया गया है, राज्य सरकारों को 1984-89 के दौरान दिए गए और 1989-90 के अन्त में बकाया राज्य आयोजना ऋणों को 15 वर्षीय ऋणों में समेकित किया गया है ।

(ङ) नौवें वित्त आयोग की 1990-95 की अवधि के लिए दूसरी रिपोर्ट में दी गई सिफारिशों के अनुसार, जैसा कि सरकार द्वारा मंजूर की गई हैं, संघ राज्य क्षेत्र के रूप में गोवा और मिजोरम सरकारों द्वारा 1986-87 तक की योजनाओं के लिए प्राप्त अधिक केन्द्रीय ऋणों को बट्टे खाते डालने के बाद, 31.3.1990 को बकाया शेष राशियों को 15 वर्षीय ऋणों में समेकित किया गया है ।

(च) ये अनुमान राज्य योजना स्कीमों के लिए 1984-85 से 1989-90 की अवधि के लिए दिए गए जो ऋण समायोजित (उपर उल्लिखित (घ) द्वारा) कर लिए गए हैं, उन्हें छोड़कर 1984-85 से स्वीकृत ऋणों से संबंधित थे। जबकि मूल बजट और संशोधित बजट 1991-92, 1984-85 से 1990-91 के दौरान आयोजनागत और आयोजना-भिन्न प्रयोजनों के लिए दिए गए ऋणों के संबंध में, वसूलियों से संबंधित है, 1992-93 का बजट उन वर्षों में दिए गए ऋणों और 1991-92 के दौरान दिए गए ऋणों पर आधारित है ।

1989-90 में राज्य आयोजनाओं के लिए 1990-91 से आगे स्वीकृत ऋणों की परिपक्वता अवधि, 15 वर्ष के बजाए, 20 वर्ष होगी और उनकी वापसी अदायगी 20 समान किस्तों में की जाएगी । परन्तु, इनमें से 50 प्रतिशत ऋणों के लिए पांच वर्ष की रियायती अवधि दी जाएगी, जिसके बाद इन ऋणों की वापसी अदायगी 15 समान वार्षिक किस्तों में की जाएगी।

नौवें वित्त आयोग ने अपनी वर्ष 1990-95 के लिए दूसरी रिपोर्ट में 1984-89 के दौरान पंजाब को दिए गए विशेष ऋणों (2301 करोड़ रुपए) के सम्बन्ध में मूल ऋणों की वापसी अदायगी और ब्याज की अदायगी के लिए स्थगन अवधि की सिफारिश की है । पंजाब राज्य सरकार को वर्ष 1989-90 में (560.01 करोड़ रुपए) और 1990-91 में (800 करोड़ रुपए) दिए गए विशेष ऋणों के संबंध में पंजाब को वर्ष 1991-92 में अतिरिक्त स्थगन अवधि मंजूर की गई है। 1992-93 के बजट में पंजाब को दिए गए इन विशेष ऋणों की वसूलियों का अनुमान लगाया गया है।

(छ) अल्प बचत ऋण भी उन ऋणों में से हैं, जिनको आठवें वित्त आयोग की समेकन योजना के अन्तर्गत समेकित नहीं किया गया । इन ऋणों की वसूली जो पहले रोक दी गई थी, 1985-86 से फिर से शुरू कर दी गई है। नौवें वित्त आयोग ने अल्प बचतों में संग्रहित राशियों के प्रति केन्द्रीय ऋणों से संबंधित मौजूदा शर्तों में परिवर्तन करने का कोई सुझाव नहीं दिया है ।

इन ऋणों पर मूलधन की वापसी-अदायगी की आस्थगन अवधि-5 वर्ष है और वापसी-अदायगी की अवधि 25 वर्ष है जिसमें आस्थगन अवधि शामिल है । अगले वर्ष में वृद्धि का कारण 1986-87 में दिए गए ऋणों की वापसी अदायगी किस्त का शुरू होना है ।

(ज) यह वसूली हीराकुड चरण-I से सम्बद्ध ऋणों की है जो कि उड़ीसा सरकार को दिए गए थे । ये समेकन योजना के अन्तर्गत नहीं आते है।

उपर्युक्त अनुमानों में नौवें वित्त आयोग की सरकार द्वारा यथास्वीकृत ऋण राहत संबंधी सिफारिशों के प्रभाव को हिसाब में लिया गया है।

(ii) **संघ राज्य क्षेत्रों से (विधान मंडल सहित) वसूलियां:** ये वसूलियां पांडिचेरी संघ राज्य क्षेत्र को दिए गए ऋणों के सम्बन्ध में है ।

(iii) **अन्यों द्वारा वापसी अदायगी :** संशोधित अनुमान, 1991-92 में राज्य सरकारों तथा संघ राज्य क्षेत्रों की सरकारों को छोड़कर अन्य पार्टियों अर्थात् सरकारी क्षेत्रों के औद्योगिक और वाणिज्यिक उपक्रमों, वित्तीय संस्थाओं, विदेशी सरकारों, नगरपालिकाओं, पत्तन न्यासों तथा गैर-सरकारी क्षेत्र की कम्पनियों और संस्थाओं, सहकारी समितियों आदि तथा सरकारी सेवकों से ऋणों की वसूलियों के रूप में 2189.25 करोड़ रुपए की प्राप्ति का अनुमान लगाया गया था । 1992-93 के दौरान 2506 करोड़ रुपए की वापसी-अदायगियों का अनुमान लगाया गया है जिसमें रेलवे विकास निधि को सामान्य राजस्व से दिए गए ऋण की वसूली की 58 करोड़ रुपए की राशि भी शामिल है। इनका स्थूल ब्यौरा इस प्रकार है:-

for 1989-90 and Second Report for 1990-95 have not recommended any change in respect of these consolidated loans.

(c) These recoveries pertain to loans given to States in 1982-83 and 1983-84 to overcome their overdraft difficulties. These loans were not covered by the scheme of consolidation of the Eighth/Ninth Finance Commission.

(d) In pursuance of the recommendations of the Ninth Finance Commission contained in its second Report for the period 1990-95, as accepted by the Government, the State Plan loans advanced to State Government during 1984-89 and outstanding as at the end of 1989-90 have been consolidated into 15 year loans.

(e) In pursuance of the recommendation of the Ninth Finance Commission contained in the Second Report for the period 1990-95, as accepted by the Government, the remaining outstanding balance as on 31.3.1990, after write-off of the excess of central loans received by the Government of Goa and Mizoram for plans upto 1986-87 as Union Territories, have been consolidated into 15 year Loans.

(f) These estimates related to loans sanctioned from 1984-85 other than loans for State Plan Schemes for the period 1984-85 to 1989-90 which was consolidated (vide (d) above). While the original Budget and the Revised 1991-92 relate to recoveries in respect of loans advanced for Plan and Non-Plan purposes during 1984-85 to 1990-91, Budget 1992-93 is based on loans advanced during those years and also loans advanced during 1991-92.

The maturity period of the loans sanctioned for State Plans from 1990-91 onwards will be 20 years, repayment being made in 20 equal annual instalments. However, fifty percent of these loans will enjoy a five year initial grace period, after which the repayments of these loans will be effected in 15 equal annual instalments.

The Ninth Finance Commission in its Second Report for 1990-95 have recommended moratorium on repayment of principal and payment of interest during 1990-91 and 1991-92 in respect of special loans given to Punjab during 1984-89 (Rs. 2301 crores). The additional moratorium has been granted to Punjab in 1991-92 in respect of Special loans advanced to the State Government in 1989-90 (Rs. 560.01 crores) and 1990-91 (Rs. 800 crores). Budget 1992-93 assumes recoveries on account of these special loans advanced to Punjab.

(g) Small Savings loans are also among those loans not covered by the scheme of consolidation of the Eighth Finance Commission. The recovery of these loans suspended earlier has been resumed from 1985-86. The Ninth Finance Commission have not suggested any change in the existing terms and conditions relating to central loans against the small savings collections.

These loans carry moratorium of 5 years towards repayment of principal, and the period of repayment is 25 years including moratorium period. The increase in next year is due to commencement of the repayment instalment of loans advanced in 1986-87.

(h) The recovery relates to Hirakud Stage-I loans advanced to Government of Orissa which are not covered by the scheme of consolidation.

The estimates above take into account the effect of recommendations of the 9th Finance Commission regarding debt relief as accepted by the Government.

(ii) **Recoveries from Union Territories (with Legislature):** The recoveries are in respect of loans advanced to the Union Territory of Pondichery.

(iii) **Repayments by Others:** Loan repayments by parties other than State and Union Territory Governments, viz. foreign Governments, industrial and commercial enterprises and financial institutions in the public sector, municipalities, Port Trusts, private sector companies and institutions, cooperatives, etc. are estimated at Rs.3094.58 crores in RE 1991-92. During 1992-93, repayment estimates are placed at Rs.2808.38 crores which also include Rs.267.44 crores towards recovery of loans advanced from General Revenues to Railway Development Fund. The broad details are:–

4. Disinvestment of equity holdings in public sector enterprises.

The receipts are on account of partial disinvestment of Central Government's holdings in the equity capital of selected public sector enterprises to mutual funds and financial/investment institutions in the public sector.

(i) **अल्प बचतें:-** अल्प बचत के साधनों में, डाक घर बचत खाते, डाकघर सावधिक निक्षेप खाते, डाकघर आवर्ती निक्षेप खाते, राष्ट्रीय बचत पत्र, इंदिरा विकास पत्र और राष्ट्रीय बचत योजना तथा डाकघर मासिक आय योजना और किसान विकास पत्र शामिल हैं।

संग्रहों की कमी की प्रवृत्ति और बैंक ब्याज दरों में बढ़ोतरी को ध्यान में रखते हुए, ब्याज दर में निम्नलिखित सुधार किए गए हैं :-

(1) 1.10.1991 से 1 वर्षीय, 2 वर्षीय, 3वर्षीय और 5 वर्षीय डाकघर सावधि जमा खाते की ब्याज दरें 9.5 प्रतिशत, 10 प्रतिशत, 11 प्रतिशत और 11.5 प्रतिशत से बढ़ाकर क्रमशः 10 प्रतिशत, 11 प्रतिशत, 13 प्रतिशत और 13.5 प्रतिशत कर दिया गया है।

(3) 1.10.91 को या उसके बाद खोले गए 5 वर्षीय डाकघर आवर्ती जमा खाते का परिपक्वता मूल्य बढ़ा दिया गया है। 10 रुपए मूल्य वर्ग के किसी खाते का परिपक्वता मूल्य पहले संदेय 811.10 रुपए की तुलना में 856.40 रुपए है।

(4) 16.12.91 से बेचे गए 5½ वर्षीय किसान पत्र का परिपक्वता मूल्य बढ़ा दिया गया है। इस प्रकार 1000 रुपए मूल्य वर्ग के लिए परिपक्वता मूल्य पहले दिए जाने वाले 2000 रुपये की तुलना में 2100 रुपए है। 16.12.91 से बेचे गए किसान पत्रों को 2½ वर्ष के पश्चात परिपक्वतापूर्व नकदीकरण पर संदेय मूल्य भी बढ़ा दिया गया है।

डाकघर मासिक आय योजना के संबंध में 5 प्रतिशत की कमी की गई थी, अगर किसी खाते को 6 वर्ष की परिपक्वता अवधि के पूर्व बंद कर दिया गया हो। पहली अक्तूबर, 1991 से उदारीकरण के उपाय के रूप में, खाता खोलने के 3 वर्ष के बाद खाते को समय से पूर्व बंद करने के संबंध में कोई कमी नहीं की जाएगी।

उपर्युक्त वृद्धियों के अलावा, आयकर अधिनियम की धारा 80ढ के अन्तर्गत कर रियायतें निर्धारण वर्ष 1992-93 में राष्ट्रीय बचत पत्र (आठवां निर्गम) पर मिले वाले ब्याज पर भी दे दी गई हैं।

(i) **Small Savings:** The small savings instruments comprise post office savings accounts, post office time deposits, post office recurring deposits, national saving certificates, Indira vikas patra, national saving scheme, post office monthly income scheme and kisan vikas patra.

Keeping in view the declining trend in collections as also upward revision in bank interest rates the following improvements in interest rates have been made :-

(1) The rates of interest on 1 year, 2 year, 3 year and 5 year Post Office Time Deposit accounts (POTD) were raised from 9.5%, 10%, 11% and 11.5% to 10%, 11%, 13% and 13.5% respectively from 1.10.1991.

(2) The rates of interest c 1 year and 2 year POTD have been further raised from 10% and 11% respectively to 12% from 16.12.91.

(3) The maturity value of 5 year Post Office Recurring Deposit account opened on or after 1.10.91 has been raised. Thus for a denomination of Rs.10, the maturity value is Rs.856.40 as against Rs.811.10 payable earlier.

(4) The maturity value of 5½ year Kisan Vikas Patra sold from 16.12.91 has been raised. Thus, for a denomination of Rs.1000, the maturity value is Rs.2100 as against Rs.2000 payable earlier. The values payable on patras sold from 16.12.91 on premature encashment after 2½ years have also been raised.

In respect of Post Office Monthly Income Scheme, a reduction of 5% was made if an account was closed before the maturity period of 6 years. As a measure of liberalisation from 1st Oct., 1991, no reduction will be effected in respect of premature closure made after 3 years of the opening of the account.

Besides the above, tax concessions under Section 80L of Income-tax Act has also been extended to interest on National Savings Certificates (VIII Issue) from the assessment year 1992-93.

(ii) **लोक भविष्य निधि :-** लोक भविष्य निधि अधिनियम, 1968 के अन्तर्गत तैयार की गई लोक भविष्य निधि योजना के अधीन जमा की गई राशियों पर आयकर अधिनियम के अन्तर्गत कर कटौती में छूट मिलेगी । एक अभिदाता एक वर्ष में 60,000 रु. तक की राशि जमा कर सकता है जब कि कम से कम 100 रुपए प्रति वर्ष जमा करना जरूरी है। इन जमा राशियों पर 12 प्रतिशत प्रति वर्ष की दर पर कर मुक्त ब्याज मिलता है । इस योजना के अन्तर्गत किसी भी व्यक्ति के नाम से और हिन्दू अविभाजित परिवार की ओर से खाते खोले जा सकते हैं।

(iii) **सेवानिवृत्त होने वाले सरकारी कर्मचारियों के लिए जमा योजना:** यह योजना 1 जुलाई, 1989 से चालू की गई थी । केन्द्रीय सरकार और राज्य सरकार के सेवानिवृत्त/सेवानिवृत्त होने वाले कर्मचारी इस योजना के अन्तर्गत अपने सेवा निवृत्ति लाभों का निवेश कर सकते है । इस योजना का प्रचालन भारतीय स्टेट बैंक और राष्ट्रीयकृत बैंकों की चुनी हुई शाखाओं के माध्यम से किया जा रहा है । इस योजना के अन्तर्गत किए गए निवेशों पर 9 प्रतिशत वार्षिक दर से ब्याज दिया जाएगा जो छः माह के पश्चात् देय होगा। बाण्डों के मूल्य की राशि पर धनकर से छूट है और ब्याज आय कर मुक्त है । निवेशकर्ताओं को राशि जमा करने की तारीख से 3 वर्ष के पश्चात जमाराशि निकाल लेने का विकल्प है ।

(iv) **सार्वजनिक क्षेत्र की कम्पनियों के सेवानिवृत्त होने वाले कर्मचारियों के लिए जमा योजना** : यह योजना जिसे 1 जनवरी, 1991 से शुरू किया गया था, सेवानिवृत्त होने वाले सरकारी कर्मचारियों के लिए जमा योजना जैसी ही है। यह योजना सार्वजनिक क्षेत्र के बैंकों, जीवन बीमा निगम तथा सार्वजनिक क्षेत्र की अन्य कम्पनियों के सेवानिवृत्त / सेवानिवृत्त होने वाले कर्मचारियों द्वारा निवेश के लिए खुली है ।

प्रत्येक राज्य में किए जाने वाले बचतों के निवल संग्रह लोक भविष्य निधि के तीन चौथाई हिस्से तक के दीर्घावधिक ऋण राज्य सरकारों को स्वीकृत किए जाते हैं । इसके अलावा स्थिर दीर्घावधिक बचतों को बढ़ावा देने के लिए राज्य सरकारों को अतिरिक्त ऋण भी दिया जाता है यदि राज्य में हुए सकल संग्रह के प्रति अल्प बचतों के निवल संग्रह का अनुपात 5 प्रतिशत से अधिक बैठे । उपर्युक्त अखिल भारतीय प्रतिशत अनुपात से राज्य के प्रतिशत अनुपात में होने वाली 5 प्रतिशत की प्रत्येक वृद्धि के संबंध में राज्य में होने वाले निवल संग्रह के 2.5 प्रतिशत के बराबर की राशि का अतिरिक्त ऋण भी प्रदान किया जाता है ।

राज्य सरकारें भी सेवानिवृत्त होने वाले सरकारी कर्मचारियों और प्रत्येक राज्य में सरकारी क्षेत्र की कम्पनियों के सेवा निवृत्त होने वाले कर्मचारियों के लिए जमा योजना के अधीन निवल संग्रहों के 50 प्रतिशत तक लेने की हकदार है।

6. ***राज्य भविष्य निधियां :-*** इस शीर्ष के अन्तर्गत दिखाए जाने वाले लेनदेन सरकारी कर्मचारियों की विभिन्न भविष्य-निधियों से सम्बद्ध होते हैं। जो रकमें जमा की जाती है उनमें से निधि में जमा की गई राशियों तथा शेष राशि पर ब्याज और निकासियों तथा अस्थायी अग्रिमों की राशियां घटा दी जाती है । पहली अप्रैल, 1986 से जमा रकमों पर 12 प्रतिशत वार्षिक की दर से ब्याज लगेगा । बजट अनुमान 1991-92 में कुल 1300 करोड़ रुपए की निवल प्राप्ति का अनुमान था । इसकी तुलना में संशोधित अनुमान में 1400 करोड़ रुपए की व्यवस्था थी । वर्ष 1992-93 के बजट में 1500 करोड़ रुपए की निवल प्राप्ति आंकी गई है।

अन्तर्राष्ट्रीय मुद्रा कोष : कोष के करार-पत्र के "मूल्य अनुरक्षण" (एम.ओ.वी.) उपबंधों के अन्तर्गत सदस्यों द्वारा सामान्य संसाधन खाते में धारित मुद्राओं के मूल्य को विशेष आहरण अधिकार (एस.डी.आर.) के रुप में बनाए रखना जरूरी है और इस उपबन्ध के अनुसार कोष में किसी सदस्य की मुद्रा की धारिता में उस समय समायोजन किया जाता है जब किसी प्रचालन में उस मुद्रा का प्रयोग हो या कोष तथा दूसरे सदस्य के बीच लेन-देन से या जब कोष ऐसा करने का निर्णय करे या सदस्य ऐसा करने का अनुरोध करे । 30 अप्रैल, 1991 के अनुसार भारतीय मुद्रा की धारिताओं के कोष द्वारा मूल्यांकन के परिणामस्वरूप अपरक्राम्य और गैर-ब्याजू रुपया प्रतिभूतियों को जारी करके कोष को 1805.03 करोड़ रुपए की राशि अदा की गई है। इस मद में अगले वर्ष 4600 करोड़ रुपए का अनुमान लगाया गया है।

जून, 1990 में नौवीं कोटा समीक्षा के परिणामस्वरूप, भारत का कोटा भाग एस.डी.आर 2207.7 मिलियन से बढ़कर एस.डी.आर.3055.5 मिलियन हो गया है । भारत सरकार ने इस संशोधन को स्वीकार किया है। इस एस. डी. आर. 847.8 मिलियन की वृद्धि को जनवरी-फरवरी, 1992 तक अंतर्राष्ट्रीय मुद्रा कोष को अदा करने का अनुमान लगाया गया था। अब यह अनुमान है कि यह कोटा समीक्षा मार्च, 1992 के बाद प्रभावी होगी और भुगतान रुपया प्रतिभूतियों के रूप में वर्ष 1992-93 में किया जाएगा।

विशेष आहरण अधिकार: भारत अन्तर्राष्ट्रीय मुद्रा कोष के एस.डी.आर. विभाग का भागीदार है । 1981 से भारत को आबंटित निवल संचित एस.डी.आर. 681.2 लाख बने रहे क्योंकि एस.डी.आर. का नया आबंटन नहीं किया गया । भारत अपने एस.डी.आर. का उपयोग प्रभारों की अदायगी और पुनः क्रय संबंधी देनदारियों को पूरा करने के लिए कर सकता है । भारत अपने एस.डी.आर. का उपयोग अतिरिक्त अंशदान की अदायगी के लिये भी कर सकता है ।

कोष प्रत्येक धारक को उसके द्वारा धारित एस.डी.आर. पर ब्याज की अदायगी करता है और प्रत्येक भागीदार के निवल संचित आबंटन पर उसी दर से प्रभार लगाता है । कोष सभी भागीदारों के निवल संचित आबंटनों पर उनके एस.डी.आर. खाते के प्रशासन के संबंध में निर्धारण प्रभार भी लगाता है । प्रत्येक वर्ष के फरवरी, मई, अगस्त और नवम्बर के आरम्भ में निवल ब्याज अथवा निवल प्रभारों को व्यक्तिगत धारक खाते को जमा करके अथवा नामे डाल कर तय किया जाता है ।

1991-92 के दौरान विस्तारित निधि सुविधा के अन्तर्गत भारत ने 30.4.1984 तक 3900 मिलियन एस.डी.आर. का उपयोग करके 1048 करोड़ रुपए के बराबर की राशि की पुनः खरीद की है । इस उद्देश्य के लिए 1992-93 के बजट में 760.29 करोड़ रुपए की राशि के बराबर एस.डी.आर. की राशि के प्रयोग किए जाने का अनुमान है।

International Monetary Fund (IMF): Under the 'Maintenance of Value' provision of the Fund's Article of Agreement, the value of the currencies of members held in the General Resources Account is required to be maintained in terms of the Special Drawing Rights and an adjustment in the Fund's holdings of a member's currency pursuant to this provision is made on the occasion of the use of that currency in a operation or transaction between the Fund and another member and at such other times as the Fund may decide or the member may request. As a result of valuation of the Fund's holding of Indian currency as on April 30, 1991, an amount of Rs.1805.03 crores has been paid to the Fund by issue of non-negotiable and non-interest bearing rupee securities. Next year's estimates on this account are placed at Rs.4600 crores.

As a result of ninth quota review in June 1990 India's quota share has been revised from SDR 2207.7 million to SDR 3055.5 million. Government of India has accepted this revision. This increase of SDR 847.8 million was earlier envisaged to be payable to the IMF by January - February 1992. It is now anticipated that this quota review will become effective after March 1992 and the payment would be made in 1992-93 in the form of rupee securities.

Special Drawing Rights (SDRs): India is a participant in the Special Drawing Rights Department of the IMF. Since 1981 the net cumulative allocations of SDR to India remained at SDR 681.2 million as there was no fresh allocation of SDRs. The SDRs are used in transactions such as payment of charges and discharge of repurchase obligations including for payment of additional subscription.

The Fund pays interest to each holder on its holding of Special Drawing Rights and levies charges at the same rate on each participant's net cumulative allocation. It also levies assessment charges in regard to administration of the SDR account, for all participants on their net cumulative allocations. The net interest or net charges are settled by crediting or by debiting individual holding account at the beginning of February, May, August and November of each year.

During 1991-92India would repurchase an amount of Rs.908.48 crores by using SDRs on account of the drawing of SDR 3900 million made upto 30.4.1984 under the Extended Fund Facility. Budget for 1992-93 assumes use of SDRs for an amount equal to Rs.639.30 crores for this purpose.

Summary of Demands for Grants, 1992-93

290 Fin/93

प्रस्तावना

संविधान के अनुच्छेद 113 के खण्ड (2) में यह अपेक्षित है कि वार्षिक वित्तीय विवरण में सम्मिलित, भारत की समेकित निधि में से किए जाने वाले व्यय के वे अनुमान, जो इस निधि पर "भारित" नहीं होते, अनुदानों की मांगों के रूप में लोक-सभा की स्वीकृति के लिए प्रस्तुत किए जाएं। सामान्यतः प्रत्येक मंत्रालय/विभाग के संबंध में एक मांग प्रस्तुत की जाती है। तथापि, कुछ बड़े-बड़े मंत्रालयों/विभागों के संबंध में एक से अधिक मांग प्रस्तुत की जाती है। प्रत्येक मांग में प्रायः एक सेवा के लिए आवश्यक धनराशि की कुल व्यवस्था दिखाई जाती है अर्थात् इसमें राजस्व खाते का व्यय और उस सेवा के लिए, पूंजी खाते का व्यय (उधार सहित) दिखाए जाते हैं। यद्यपि भारत की समेकित निधि पर "भारित" व्यय के अनुमानों के लिए संसद की स्वीकृति लेना आवश्यक नहीं होता, तथापि संविधान के अनुच्छेद 113 के खण्ड (1) के अनुसार ऐसे व्यय के बारे में संसद के दोनों सदनों में से किसी सदन में बहस की जा सकती है। इसलिए अनुदान की मांग में अगर किसी ऐसे खर्च की व्यवस्था होती है जो भारत की समेकित निधि पर "भारित" होता है तो उसे मोटे अक्षरों में दिखाया जाता है। जहां किसी सेवा के लिए यह व्यवस्था भारत की समेकित निधि पर पूरी तरह "भारित" व्यय के लिए होती है जैसे ब्याज संदाय और ऋण की वापसी, तो उसे मांग से पृथक विनियोग के रूप में प्रस्तुत किया जाता है, यद्यपि उस पर कोई स्वीकृति नहीं मांगी जाती।

2. संसद में वार्षिक वित्तीय विवरण के साथ 1992-93 के लिए अनुदानों की जो मांगें और विनियोग प्रस्तुत किए गए हैं वे समस्त मंत्रालयों/विभागों के लिए इसी खंड में प्रस्तुत किए गए हैं। लेकिन इन मांगों से पहले मांगों का सारांश प्रस्तुत किया गया है जिसमें 1992-93 के लिए अनुदानों की मांगों और विनियोगों की पूरी सूची एक साथ दी गई है जिसमें राजस्व खाते और (उधारों सहित) पूंजी खाते के अंतर्गत "स्वीकृत" और "*भारित*" शीर्षों के अधीन प्रत्येक मांग और विनियोग के सामने की गई व्यवस्था की कुल राशि दिखाई गई है। यह सारांश अनुदानों की मांगों और विनियोगों का अभिसूचक प्रलेख भी है।

3. मांगों के संदर्भ में, मंत्रालयों या विभागों के उल्लेख 10 फरवरी, 1992 के तत्काल पूर्व विद्यमान मंत्रालयों या विभागों से संबंधित हैं, और उस तारीख को या उसके बाद इससे अभिप्राय यह होगा कि यह उल्लेख समय-समय पर पुनर्गठित संबद्ध मंत्रालयों या विभागों के बारे में है। वर्ष के दौरान विभिन्न मंत्रालयों तथा विभागों के निर्धारित कार्य में अधिसूचित परिवर्तनों को इन मांगों में समाविष्ट कर दिया गया है। 1992-93 की मांगों को इस समय गठित मंत्रालयों/विभागों के अनुरूप प्रदर्शित किया गया है और आंकड़ों की तुलना के कार्य को सरल बनाने के लिए 1991-92 के तदनुरूप बजट अनुमान तथा संशोधित अनुमान भी साथ-साथ प्रस्तुत कर दिए गए हैं, हालांकि 1991-92 की अनुदानों की मांगों में, जिनको जुलाई 1991 में संसद में प्रस्तुत किया गया था, इन व्यवस्थाओं को उस समय विद्यमान मंत्रालयों/विभागों की अनुदानों की मांगों के अन्तर्गत दिखाया गया था।

4. पहली अप्रैल, 1987 से, खातों के मुख्य शीर्षों और आयोजना के अंतर्गत यथावस्थित विकास शीर्षों के बीच तादात्म्यतापूर्ण एकरूपता स्थापित करने के लिए लेखांकन संबंधी वर्गीकरण में परिवर्तन कर दिए गए हैं। अनुदानों की मांगों में 1992-93 के बजट अनुमानों में की गई व्यवस्था संशोधित वर्गीकरण के अन्तर्गत प्रदर्शित की गई है।

5. मांगों में सम्मिलित "नई सेवा/सेवा के नए साधनों" का मदवार विवरण अन्त में दिया गया है।

6. इन मांगों पर टिप्पणियों सहित व्यय की मुख्य मदों/योजनाओं का ब्यौरा "व्यय बजट - खंड 2" नामक एक अलग खंड में दिया गया है।

INTRODUCTION

Clause (2) of Article 113 of the Constitution requires that so much of the estimates of expenditure from the Consolidated Fund of India included in the Annual Financial Statement as are not 'charged' on the Fund shall be submitted in the form of Demands for Grants for the vote of the Lok Sabha. Normally one Demand is presented in respect of each Ministry/ Department. In respect of some of the large Ministries/ Departments, however, more than one Demand is presented. Each Demand normally includes the total provisions required for a Service, that is to say, expenditure on Revenue Account, as well as expenditure on Capital Account (including Loans) for the Service. Although the estimates of expenditure 'charged' on the Consolidated Fund of India are not required to be voted by Parliament, clause (I) of Article 113 of the Constitution permits discussion thereon in either House of Parliament. Accordingly, a Demand for Grant also shows, distinctly in italics, the provision for expenditure, if any, 'charged' on the Consolidated Fund of India in relation to the Service represented by the Demand. Where the provision for a Service is entirely for expenditure 'charged' on the Consolidated Fund of India, for example, Interest Payments and Repayment of Debt, a separate Appropriation, as distinct from a Demand, is presented, although no vote is sought thereon.

2. The Demands for Grants and the Appropriations for 1992-93 presented to Parliament along with the Annual Financial Statement are contained in this volume in respect of all the Ministries/ Departments. A Summary of the Demands giving at one place a complete list of the Demands for Grants and Appropriations for 1992-93 showing against each the total amount of the provision, separately under Revenue Account and Capital Account (including Loans) as well as "Voted" and *"Charged"* precedes the Demands. This Summary also serves as an Index to the Demands for Grants and Appropriations.

3. References to Ministries or Departments in the Demands are to such Ministries or Departments as existed immediately before February 10, 1992 and shall, on or after that date, be construed as references to the appropriate Ministries/Departments as reconstituted from time to time. Changes in Allocation of Business to the various Ministries/ Departments notified during the year have been given effect to in these Demands. The Demands for 1992-93 have been shown against the Ministries/Departments as presently constituted and to facilitate comparison, figures of the corresponding Budget Estimates and Revised Estimates for 1991-92 have been exhibited along side even though in the Demands for Grants 1991-92 presented to Parliament in July, 1991, the provisions were shown under Demands of Ministries/Departments as they existed at that time.

4. From 1.4.1987 changes have been made in the accounts classification to bring about a one to one correspondence between major heads of account and the heads of development adopted in the plans. The Demands for Grants show the provision under the revised classification in regard to Budget Estimates for 1992-93.

5. A Statement showing items of "New Service/New Instrument of Service" included in the Demands is given at the end.

6. Details of major items of expenditure/schemes along with the Notes on these Demands are given in a separate volume "Expenditure Budget Volume 2".

प्रस्तावना

वित्त मंत्रालय का आर्थिक कार्य प्रभाग, बजट को आर्थिक विश्लेषण का एक उपयोगी माध्यम बनाने के उद्देश्य से वर्ष 1957-58 से केन्द्रीय सरकार के बजटीय लेन-देनो का वर्गीकरण तैयार करता आ रहा है । संक्षेप मे, इस वर्गीकरण के द्वारा केन्द्रीय सरकार के, जिसमें रेलवे तथा डाक व तार विभाग भी शामिल है, व्ययों और प्राप्तियों का वर्गीकरण, महत्वपूर्ण आर्थिक वर्गों के अनुसार किया गया है, जिसमें चालू खाते के खर्च को पूंजी परिव्यय से, वस्तुओं और सेवाओं की खरीद के व्यय को व्यक्तियों और संस्थाओं को किए गए अन्तरणों से, किस्म के अनुसार कर संबधी प्राप्तियों को अन्य प्राप्तियों से तथा उधारों और अन्तार-सरकारी ऋणों और अनुदानों आदि से अलग करके दिखाया गया है । इस रीति से पुनर्वर्गीकृत करके केन्द्रीय सरकार को प्राप्त होने वाली आमदनी तथा उसके द्वारा किए जाने वाले व्ययों को लेन-देनों के महत्वपूर्ण वर्गों से संबधित किया जा सकता है, जो कि अर्थव्यवस्था के अन्य क्षेत्रों की प्रवृत्तियों को प्रभावित करते हैं । चूंकि राष्ट्रीय आय-वर्ग की सरकारी खाता पद्धति ही आर्थिक वर्गीकरण की सबसे महत्वपूर्ण पद्धति है, इसलिए इस विश्लेषण में वही प्रणाली तथा सिद्धान्त प्रयोग में लाये गये हैं जो कि राष्ट्रीय आय संबधी लेखा प्रणाली में प्रयुक्त किए जाते हैं ।

देश में आर्थिक आयोजना के समारम्भ के पश्चात्, वार्षिक आयोजना परिव्ययों को बजट सम्बन्धी परिव्ययों से एकीकृत कर दिया गया है, जिसके अनुसार बजट सम्बन्धी परिव्ययों का और आगे विश्लेषण कार्य सम्बन्धी वर्गों के अनुसार किया जाता है । इस प्रकार के कार्यात्मक वर्गीकरण से इस बात के विश्लेषण मे सहायता मिलती है कि केन्द्रीय सरकार आयोजना में निर्धारित प्राथमिकताओं के अनुसार विभिन्न कार्यों या प्रयोजनों के लिए कितनी राशि आवंटित कर रही है । तदनुसार केन्द्रीय सरकार के लेनदेनों से संबंधित आर्थिक और कार्य सम्बन्धी वर्गीकरण तैयार करने का काम 1967-68 से प्रतिवर्ष किया जा रहा है ।

आगे के पृष्ठों में प्रस्तुत किया गया, केन्द्रीय सरकार के 1992-93 के बजट का आर्थिक एवं कार्य-संबंधी वर्गीकरण पहले के वर्षों की प्रणाली के ही अनुरूप किया गया है । इस विश्लेषण के मुख्य-मुख्य निष्कर्षों का संक्षिप्त विवरण भाग I और II में दिया गया है और इस वर्गीकरण में इस्तेमाल की गई विभिन्न मदों को कहा से प्राप्त किया गया है और इसके लिए औचित्य का आधार क्या है, इसे भी अन्त में तकनीकी परिशिष्ट में विस्तार से बताया गया है ।

PREFACE

Since 1957-58, the Economic Division of the Ministry of Finance has been preparing an economic classification of the Central Government budgetary transactions to make the budget a more useful tool of economic analysis. In brief, this classification involves arranging the expenditures and receipts of the Central Government including those of railways and posts and telecommunications by significant economic categories distinguishing current from capital outlays, spending for goods and services from transfers to individuals and institutions, tax receipts by kind from other receipts, and from borrowing and inter-governmental loans and grants etc. Reclassified in this manner, the flows into and out of the Central Government can be related to important categories of transactions influencing the behaviour of the other sectors of the economy. Since the national income type of government account is the most prevalent form of an economic classification, the methodology and concepts used in this analysis are those used in the national income accounting system.

With the advent of economic planning in the country, annual plan outlays have been integrated with the budgetary outlays which called for a further analysis of budgetary outlays into functional categories. Such a functional classification helps in analysing how much the Central Government is allocating to different functions or purposes in accordance with the priorities laid down in the Plan. Accordingly since 1967-68, an economic-cum-functional classification of the Central Government transactions is being prepared.

The economic-cum-functional classification of the Central Government Budget 1992-93 presented in the following pages conforms to the pattern of the earlier years. The salient features of this analysis are summarised in Sections I and II, and the derivation of rationale of various items used in this classification have been explained in the Technical Appendix at the end.

केन्द्रीय सरकार के 1992-93 के बजट के विश्लेषण से पता चलता है कि केन्द्रीय सरकार का खपत व्यय जो मजदूरी, वेतन और वस्तुओं और सेवाओं की खरीद पर आधारित है 1991-92 (संशोधित अनुमान) के 24731 करोड़ रुपए से बढ़कर 1992-93 (बजट अनुमान) में 27130 करोड़ रुपए हो गया है । केन्द्रीय सरकार की प्रत्यक्ष सकल पूंजी निर्माण की रकम भी जो 1990-91 (वास्तविक) में 8602 करोड़ रुपए थी, काफी बढ़कर 1991-92 (संशोधित अनुमान) में 9502 करोड़ रुपए और 1992-93 (बजट अनुमान) में 11787 करोड़ रुपए हो जाएगी । 1992-93 के बजट में दिए गए केन्द्रीय सरकार के साधनों में से सकल पूंजी निर्माण प्रत्यक्ष और अप्रत्यक्ष (अन्य क्षेत्रों को पूंजी निर्माण के लिए दी गई वित्तीय सहायता), दोनों के लिए कुल वित्तीय व्यवस्था की रकम, 1991-92 (संशोधित अनुमान) के 35746 करोड़ रुपए की तुलना में 1992-93 (बजट अनुमान) में 38593 करोड़ रुपए होगी । केन्द्रीय सरकार और इसके विभागीय उपक्रमों (गैर-विभागीय उपक्रमों को "शेष अर्थव्यवस्था" के रूप में माना जाता है) की निवल बचतों में चालू वर्ष में सुधार हुआ है । 1990-91 में 12765 करोड़ रुपए और 1991-92 (संशोधित अनुमान) में 10696 करोड़ रुपए की नकारात्मक निवल बचत की तुलना में यह सुधर कर 1992-93 (बजट अनुमान) में 6968 करोड़ रुपए की नकारात्मक राशि पर आ गई ।

केन्द्रीय सरकार के विकास संबंधी कार्यकलापों पर होने वाले खर्चों में सकल पूंजी निर्माण पर परिव्यय और आर्थिक और सामाजिक सेवाओं पर होने वाला चालू व्यय दोनों शामिल हैं । सामाजिक और आर्थिक सेवाओं पर होने वाले आयोजनागत तथा आयोजना-भिन्न कुल व्यय मोटे तौर पर केन्द्रीय सरकार के कुल विकास व्यय के बराबर ही है । अनुमान है कि 1992-93 (बजट अनुमान) में यह व्यय 59601 करोड़ रुपए होगा जो कि उस वर्ष के लिए बजट में निर्धारित कुल व्यय की राशि के 48.5 प्रतिशत के बराबर है ।

Analysis of the Central Government Budget 1992-9 shows that the consumption expenditure of th Central Government composed of wages and salarie and purchase of goods and services will increase fron Rs.24731 crores in 1991-92 (Revised Estimates) t Rs.27130 crores in 1992-93 (Budget Estimates) The Central Government's direct gross capita formation will increase substantially from Rs.860 crores in 1990-91 (Accounts) to Rs.9502 crores in 1991-92 (Revised Estimates) and further to Rs.11787 crores in 1992-93 (Budget Estimates). The total financial provision for gross capital formation, both direct and indirect (financial assistance provided to other sectors for capital formation) out of the Central Government budgetary resources in 1992-93 (Budget Estimates) will be Rs.38593 crores compared with Rs. 35746 crores in 1991-92 (Revised Estimates). The net savings of the Central Government and its departmental undertakings (non-departmental undertakings are treated as "rest of the economy") have, shown an improvement in the current year. As against a negative net savings of Rs.12765 crores in 1990-91, and Rs.10696 crores in 1991 -92 (R.E.), it improved to a negative figure of Rs.6968 crores in 1992-93 (Budget Estimates).

The Central Government's development expenditure includes both outlays on gross capital formation and current expenditure on economic and social services. The plan and non-plan expenditures in the Central Budget on economic and social services correspond broadly to the total deveopment expenditure of the Central Government. This is estimated at Rs.59601 crores in 1992-93 (Budget Estimates) and forms 48.5 per cent of the total expenditure budgeted for that year.

(ख) अन्तिम परिव्यय

3. वर्ष 1992-93 के बजट में कुल 122878 करोड़ रुपए का व्यय रखा गया है, इसमें से केन्द्रीय सरकार का अन्तिम परिव्यय 38917 करोड़ रुपए या कुल परिव्यय का लगभग 31.7 प्रतिशत भाग है । यह परिव्यय खपत और पूंजी निर्माण के संबध में केन्द्रीय सरकार की वस्तुओं और सेवाओं की प्रत्यक्ष मांग को सूचित करता है । राष्ट्रीय लेखा प्रणाली मे ये अन्तिम परिव्यय शेष अर्थ-व्यवस्था के खपत संबधी व्यय और पूंजी निर्माण की रकम से जुड़ जाते हैं । कुल व्यय के शेष भाग अर्थात् 83961 करोड़ रुपए अथवा लगभग 68.3 प्रतिशत भाग में अन्तरण अदायगियां वित्तीय निवेशों और ऋणों के रूप में शेष-व्यवस्था को किया गया भुगतान शामिल है । इसका उद्देश्य अन्य क्षेत्रों की चालू या पूंजीगत प्राप्तियों की अनुपूर्ति करना है।

खपत संबंधी व्यय

4. खपत संबधी व्यय (अर्थात् मजदूरी और वेतन तथा चालू उपयोग के लिए सामान और सेवाओं के संबध मे होने वाले व्यय) के लिए 1992-93 के बजट में 27130 करोड़ रुपए की जो व्यवस्था की गई है वह अन्तिम परिव्यय का 70 प्रतिशत और कुल व्यय का 22.1 प्रतिशत बैठती है । 1992-93 मे खपत संबंधी व्यय मे होने वाली वृद्धि पिछले वर्ष के संशोधित अनुमान के मुकाबले मे 9.7 प्रतिशत बैठती है । इसकी तुलना में 1990-91 (वास्तविक) के मुकवले में 1991-92 (संशोधित अनुमान) में 10.6 प्रतिशत की वृद्धि हुई है ।

(b) Final Outlays

3. Of the total expenditure of Rs. 122878 crores budgeted for 1992-93, Rs.38917 crores or about 31.7 per cent constitute final outlays of the Central Government representing its direct demand for goods and services for consumption and capital formation. In a system of national accounts, these final outlays get linked up with the consumption expenditure and capital formation in other sectors of the economy. The rest of the total expenditure amounting to Rs. 83961 crores or about 68.3 per cent constitute disbursements by way of transfer payments, financial investment and loans to the rest of the economy, and are intended to supplement current and capital receipts of other sectors.

Consumption Expenditure

4. Consumption expenditure (i.e. expenditure on wages and salaries and commodities and services for current use) budgeted at Rs.27130 crores for 1992-93 forms 70 per cent of the final outlays and 22.1 per cent of the total expenditure. The growth in consumption expenditure works out to 9.7 per cent for 1992-93 over revised estimates for the previous year. Against this, there was an increase of 10.6 per cent in 1991-92 (Revised Estimates) over 1990-91 (accounts).

सकल पूंजी निर्माण

5. केन्द्रीय सरकार के प्रत्यक्ष सकल पूंजी निर्माण (अर्थात् इमारतों, लोक निर्माण कार्यों, उपस्करों और अन्य स्थिर परिसम्पत्तियों के संबंध में निवेश) के बारे में अनुमान है कि यह 1991-92 के 9047 करोड़ रुपए से बढ़कर 1992-93 में 11255 करोड़ रुपए हो जाएगा । सकल पूंजी निर्माण में कार्य संबंधी भंडारों के परिवर्तन शामिल है, जिसमे 1991-92 (संशोधित अनुमान) के मुकाबले में 1992-93 (बजट अनुमान) में 23.8 प्रतिशत की वृद्धि दिखाई देती है ।

Gross Capital Formation

5. The Central Government's direct gross fixed capital formation (i.e. investment in buildings, public works, equipments and other fixed assets) is estimated to rise from Rs. 9047 crores in 1991-92 to Rs.11255 crores in 1992-93. The gross capital formation, which includes changes in works stores, shows an increase of 23.8 per cent in 1992-93 (Budget Estimates) over 1991-92 (Revised Estimates).

(ग) केन्द्रीय सरकार के बजट में उपलब्ध साधनों से पूंजी निर्माण

(c) Capital formation out of the budgetary resources of the Central Government

पूंजी निर्माण के लिए वित्तीय सहायता

6. केन्द्रीय सरकार शेष अर्थ-व्यवस्था को ऐसे पूंजी निर्माण के अतिरिक्त, जो स्वयं किया जाता है, अनुदानों व ऋणों के माध्यम से और शेयरों में धन लगा कर पूंजी निर्माण करने में सहायता देती है । वर्ष 1992-93 के लिये 26806 करोड़ रुपए की बजटीय सहायता में 1991-92 के संशोधित अनुमानों की अपेक्षा 2.2 प्रतिशत की वृद्धि होने का अनुमान है ।

Financial Assistance for Capital Formation

6. In addition to the capital formation directly undertaken, the Central Government also provides assistance to the rest of the economy for capital formation through grants, loans and investment in share capital. The budgeted assistance of Rs. 26806 crores for 1992-93 is estimated to increase by 2.2 per cent over the revised estimate of 1991-92.

** यह वास्तविक रूप से केन्द्रीय सरकार द्वारा किया गया पूंजी निर्माण है, चूंकि गैर-विभागीय वाणिज्यिक प्रतिष्ठानों को शेष अर्थ-व्यवस्था से सम्बद्ध मान लिया जाता है, इसलिए इस शीर्ष के अन्तर्गत आने वाले परिव्यय को शेष अर्थ-व्यवस्था में पूंजी निर्माण के लिए वित्तीय सहायता मान लिया गया है।*

** This is essentially capital formation by the Central Government but since non-departmental commercial undertakings are treated as belonging to the rest of the economy, the outlay under this head is taken as financial assistance for capital formation in the rest of the economy.*

पूंजी निर्माण के लिए कुल व्यवस्था

7. इस प्रकार केन्द्रीय सरकार, 1992-93 में सकल पूंजी निर्माण के लिए बजट में उपलब्ध ससाधनों से 38593 करोड़ रुपयों की व्यवस्था करेगी । यह रकम केन्द्रीय सरकार के कुल व्यय का 31.4 प्रतिशत बैठती है। सकल पूंजी निर्माण के लिए 1992-93में जो कुल व्यवस्था की गई है, उससे 1991-92 के संशोधित अनुमान की तुलना में 8.0 प्रतिशत की वृद्धि का पता चलता है ।

Total provision for capital formation

7. Thus, in the aggregate, the Central Government would provide Rs. 38593 crores for gross capital formation out of its budgetary resources during 1992-93 representing 31.4 per cent of its total expenditure. The aggregate provision for gross capital formation for 1992-93 shows an increase of 8.0 per cent over the revised estimates for 1991-92.

8. The expansionary impact of the Government's budgetary operations is indicated by the difference between its net capital formation and net savings. The net capital formation by the Central Government (i.e. net addition to the stock of fixed assets and works stores) estimated at Rs. 8858 crores for 1992-93 has been arrived at by deducting from gross fixed capital formation, the provision for expenditure on renewals and replacements by the departmental commercial undertakings. The components of total net capital formation are as follows:-

II आर्थिक और कार्य संबंधी वर्गीकरण

II. ECONOMIC-CUM-FUNCTIONAL CLASSIFICATION

15. वर्ष 1992-93 के बजट के आंकड़ों के आधार पर आर्थिक और कार्य संबंधी इन दोनों श्रेणियों के अनुसार केन्द्रीय सरकार के व्यय का सम्मिलित वर्गीकरण इस भाग के अन्त में तीन विवरणों में दिया गया है । नीचे के पैराग्राफों में इस प्रकार वर्गीकरण से निकलने वाले निष्कर्षों का संक्षिप्त ब्यौरा दिया गया है ।

15. Based on the data in the budget for 1992-93 a cross classification of the Central Government expenditure by both economic and functional categories has been given in the three statements at the end of this section. The following paragraphs provide a brief summary of the findings of the functional classification.

कुल व्यय

16. वर्ष 1992-93 के लिए बजट में की गई कुल व्यय की व्यवस्था में सामाजिक और आर्थिक सेवाओं के लिए की गई व्यवस्था का अनुमान, जो मुख्यतः केन्द्रीय सरकार के कुल विकास परिव्यय का द्योतक है, 59601 करोड़ रुपए का है अथवा यह कुल व्यय का 48.5 प्रतिशत है ।

17. सामान्य सेवाओं पर 1992-93 में 24459 करोड़ रुपए अर्थात् कुल व्यय के 19.9 प्रतिशत के खर्च का अनुमान है । इस पुस्तिका में अपनाई गई कार्य संबंधी वर्गीकरण की योजना के अंतर्गत "सामान्य सेवाओं" में रक्षा व्यय और असैनिक व्यय के अतिरिक्त ऐसी मदें शामिल है जैसे प्रशासनिक इमारतों पर पूंजी परिव्यय और दैवी विपत्तियों के लिए राज्यों और संघ राज्य क्षेत्रों को दिए जाने वाले आयोजना-भिन्न अनुदान और ऋण ।

18. अनावंटनीय व्यय में ये मदें शामिल हैं, राज्यों को दिए जाने वाले साविधिक सहायक अनुदान, संघ राज्य क्षेत्रों को आयोजना-भिन्न अनुदान, खाद्य और अन्य उपभोक्ता-वस्तु संबंधी आर्थिक सहायता, सरकारी ऋण पर ब्याज, पेंशनें और दूसरे देशों को दी जाने वाली सहायता । इन अनावंटनीय मदों का अनुमान जो 1992-93 के कुल व्यय का 31.6 प्रतिशत है, 38818 करोड़ रुपए लगाया गया है, जिसकी तुलना में 1991-92 के संशोधित अनुमान 34509 करोड़ रुपए के थे ।

Total Expenditure

16. Of the total expenditure budgeted for 1992-93 the provision for social and economic services which covers broadly the total developmental outlays of the Central Government is estimated at Rs.59601 crores or 48.5 per cent of the total expenditure.

17. The expenditure on general services is estimated at Rs. 24459 crores for 1992-93 i.e. 19.9 per cent of the total expenditure. Under the scheme of functional classification adopted in this brochure, "general services" include, besides defence and civil expenditure, such items as capital outlays on administrative buildings and non-plan grants and loans for natural calamities to States and Union Territories.

18. The unallocable items include statutory grants-in-aid to States, non-plan grants to Union Territories, food and other consumer subsidies, interest on public debt, pensions and aid to foreign countries. These unallocable expenditures, accounting for 31.6 per cent of the total expenditure in 1992-93 are estimated at Rs.38818 crores as compared to the revised estimate of Rs.34509 crores for 1991-92.

केन्द्रीय सरकार के बजट के आर्थिक और कार्य सम्बन्धी वर्गीकरण की मदों की परिभाषा और उनकी व्युत्पत्ति पर टिप्पणियां

क. आर्थिक वर्गीकरण

इस पुस्तिका में प्रस्तुत आर्थिक वर्गीकरण का ढांचा 6 विवरणों (खातों) में केन्द्रीय सरकार के लेन-देनों की रूपरेखा पर आधारित है। इन विवरणों में प्रत्येक विवरण की व्युत्पत्ति का संक्षिप्त ब्यौरा नीचे दिया गया है:-

विवरण 1: *वस्तुओं और सेवाओं के लेन-देन और अन्तरण: सरकारी प्रशासन का चालू खाता*

इस विवरण का संबंध व्यय पक्ष में सरकार के खपत संबंधी व्यय और चालू अन्तरण अदायगियों से है। प्राप्ति पक्ष में, इस विवरण में कर-प्राप्तियों, सरकारी सम्पत्ति और उद्यमों से आय और शुल्क तथा विविध प्राप्तियों को दिखाया जाता है। खपत संबंधी व्यय से चालू राजस्व के आधिक्य से उत्पन्न शेष तथा चालू अन्तरण अदायगियां केन्द्रीय सरकार के प्रशासन में बचत की सूचक होती हैं और वाणिज्यिक उपक्रमों की बचतों को मिलाकर यह पूंजी निर्माण के लिए केन्द्रीय सरकार की बचत की द्योतक होती है।

मद 1 : *खपत संबंधी व्यय* : सरकार के खपत संबंधी व्यय में कर्मचारियों को अदा की गई मजदूरी और वेतन तथा वस्तुओं और सेवाओं की खरीद पर हुआ चालू व्यय शामिल है। इससे सरकार के मौजूदा विकास संबंधी तथा विकास-भिन्न प्रयोजनों के लिए इस्तेमाल में लाई गई वस्तुओं और उपयोग किए गए अन्य तत्वों की उपलब्ध मात्रा के मूल्य का पता चलता है।

मद 1.1 : *मजदूरी और वेतन* : मजदूरी और वेतन की राशि सरकार द्वारा अदा की गई मजदूरी और वेतन के रूप में उत्पन्न आय के अनुमानों की द्योतक है। असैनिक विभागों द्वारा अधिकारियों और कर्मचारियों के वेतन, भत्तों (जिनमें महंगाई भत्ते और नगर प्रतिकर भत्ते की अदायगी शामिल है, परन्तु यात्रा भत्ते शामिल नहीं है) और मानदेय के रूप में वास्तविक अदायगियों के अलावा, इस मद में रक्षा कर्मचारियों की मजदूरी और वेतन, जिसमें किट और वस्त्र भत्ता तथा कर्मचारियों के लिए दिया जाने वाला अन्न भी शामिल है, रक्षा पूंजी परिव्यय के मजदूरी और वेतन का अंश और "मरम्मत और अनुरक्षण" तथा प्रशासनिक विभागों द्वारा रखे गए नैमित्तिक मजदूरों को मजदूरी की अदायगियां भी शामिल है, रक्षा संबंधी पूंजी परिव्यय के मजदूरी और वेतन अंश का अनुमान लगाते समय निर्माण-कार्यों के व्यय के एक तिहाई अंश को मजदूरी और वेतन माना जाता है और दो-तिहाई अंश को वस्तुओं और सेवाओं की खरीद पर होने वाला व्यय माना जाता है। "मरम्मत और अनुरक्षण" तथा "एकमुश्त व्यवस्था" के अन्तर्गत व्यय को 50:50 के अनुपात में मजदूरी और वस्तुओं और सेवाओं की खरीद के लिए निर्धारित कर दिया जाता है, क्योंकि आवश्यक आंकड़े अलग-अलग उपलब्ध नहीं है।

मद 1.2 : *वस्तुएं और सेवाएं* : वस्तुओं और सेवाओं की मद में "अन्य व्यय" शीर्षक के अधीन होने वाले व्यय शामिल है। बजट में की गई इकट्ठी व्यवस्था को वस्तुओं और सेवाओं तथा मजदूरी और वेतन में 50:50 के अनुपात में बांट दिया जाता है। संयुक्त राष्ट्र संघ और अन्य अन्तर्राष्ट्रीय संगठनों को इसी प्रकार की जाने वाली अदायगियों को सेवाओं की खरीद के रूप में मान लिया जाता है। राष्ट्रीय आय का अनुमान लगाने की स्वीकृत प्रक्रिया के अनुरूप रक्षा संबंधी पूंजी परिव्यय को चालू व्यय के रूप में मान लिया जाता है। निर्माण-कार्यों, पर हुए व्यय के एक-तिहाई अंश को छोड़कर, जिसे मजदूरी और वेतन माना जाता है, रक्षा पर पूंजी परिव्यय की बाकी राशि यहां दिखाई जाती है।

APPENDIX

Notes on definition and derivation of items in the Economic-cum-Functional Classification of the Central Government Budget

A. Economic Classification

The framework of economic classification presented in the brochure is based on the delineation of Central Government transactions in a set of six accounts. The following is briefly a description of the derivation of items in each of these accounts

Account 1: *Transactions in commodities and services and transfers : Current Account of Government Administration*

This account is concerned, on the expenditure side, with the Government's consumption expenditure and current transfer payments; on receipt side, it indicates tax receipts, income from Government property and enterprises and fees and miscellaneous receipts. The surplus arising out of the excess of current revenue over expenditure on consumption and current transfer payment denotes the saving of the Central Government administration and together with savings of the commercial undertakings constitutes the saving of the Central Government available for capital formation.

Item 1: *Consumption Expenditure:* The Government's consumption expenditure comprises wages and salaries paid to employees and current expenditure incurred on purchases of commodities and services. This indicates the value of the available supplies of goods and factors drawn into the Government's current use, for developmental as well as non-developmental purposes.

Item 1.1: *Wages and Salaries:* Denote the estimates of income generated in the form of wages and salaries paid by the Central Government. Besides actual payments by the civil departments in the form of pay of officers and staff, allowances (including dearness allowance and city compensatory allowance but excluding travelling allowances) and honoraria, this item includes wages and salaries of the defence personnel including kit and clothing allowance and foodgrains provided to defence personnel, wages and salaries component of defence capital outlay and of 'repairs and maintenance' and also wage payments to casual labour employed by administrative departments. In estimating the wages and salaries component of defence capital outlay, one-third of the works expenditure is treated as wages and salaries and two-thirds as purchase of commodities and services. The expenditure under 'repairs and maintenance' as well as under 'lump sum provision' has been allocated in the ratio of 50:50 between wages and salaries and purchase of commodities and services since the required breakup is not available.

Item 1.2: *Commodities and Services:* Include expenditures under the head 'other charges'. 'Lump sum provisions' in the budget have been broken down into expenditure on commodities and services and wages and salaries in the ratio of 50:50. Contributions to the U.N. and similar payments to other international organisations are treated as purchases of services. Also in conformity with the accepted procedure of national income estimation, defence capital outlay has been treated as current expenditure. Except for one-third of the works expenditure which is treated as wages and salaries, the rest of capital outlay on defence appears here.

मद 2 : *अन्तरण अदायगियां* : ये व्यय माल और सेवाओं की प्रत्यक्ष मांग के द्योतक नहीं होते, ये तो अन्य मदों की आय में वृद्धि करने के उद्देश्य से केवल अन्तरणों के रूप में होते हैं । वर्तमान विश्लेषण में चालू अन्तरणों और पूंजीगत अन्तरणों में अन्तर की परिकल्पना इस आधार पर की गई है कि जहां चालू अन्तरणों से प्राप्तिकर्ताओं के आय खातों में रकमों की वृद्धि हो जाती है, वहां पूंजीगत अन्तरणों का उद्देश्य पूंजीगत व्यय में सहायता देना होता है। यहां केवल चालू अन्तरणों को दिखाया गया है । इनमें ब्याज की अदायगियां, राज्यों, संघ राज्य क्षेत्रों, स्थानीय प्राधिकरणों और लाभ न कमाने वाली संस्थाओं को चालू अनुदान, आर्थिक सहायता, पेंशनें और अन्यों को अन्तरण आदायगियां शामिल है।

मद 2.1 : राष्ट्रीय कर्जे पर ब्याज की अदायगी को कई बार सरकार की चालू अन्तरण प्राप्तियों में से घटाकर दिखाया जाता है, परन्तु इन अदायगियों को यहां सकल रूप में दिखाया गया है। ब्याज में राष्ट्रीय कर्जों पर ब्याज भी शामिल है परन्तु विभागीय वाणिज्यिक उपक्रमों पर भारित ब्याज इसमें शामिल नहीं है । विभागीय वाणिज्यिक उपक्रमों पर भारित ब्याज को विवरण 2 में जो इन उपक्रमों का चालू खाता है, दिखाया गया है।

मद 2.2 : अनुदानों में साविधिक अनुदान तथा राज्यों और संघ राज्य क्षेत्रों के सभी अन्य आयोजना-भिन्न और आयोजना अनुदान शामिल हैं, पर इसमें वे अनुदान शामिल नहीं हैं, जिनका उद्देश्य पूंजी निर्माण में सहायता पहुंचाना है (जैसे, ग्रामीण निर्माण कार्य, भूमि-संरक्षण, वन, छोटे सिंचाई कार्य आदि के लिए अनुदान)। विस्थापित व्यक्तियों के पुनर्वास पर किया जाने वाला व्यय भी, जो राज्य सरकारों और संघ राज्य क्षेत्रों के माध्यम से किया गया है यहां दिखाया गया है। चौथी आयोजना के शुरू से राज्यों और राज्य क्षेत्रों को केन्द्रीय सहायता एकमुश्त अनुदानों और एकमुश्त ऋणों के रूप में दी जाती है। इस विश्लेषण मे एकमुश्त अनुदानों को चालू और पूंजीगत अनुदानों के बीच 50:50 के अनुपात में विर्धारित किया गया है। उप-मद "अन्य को अनुदान" में मुख्यतः संस्थाओं को दिए जाने वाले अनुदान शामिल हैं और इन संस्थाओं में वैज्ञानिक और औद्योगिक अनुसंधान परिषद, भारतीय कृषि अनुसंधान परिषद और विश्वविद्यालय अनुदान आयोग जैसी सरकारी क्षेत्र की संस्थाएं भी शामिल है।

मद 2.3 : अन्य चालू अन्तरणों में ये शामिल हैं : आर्थिक सहायता प्राप्त असैनिक और सैनिक पेंशनों और व्यक्तियों को किए गए अन्य चालू अन्तरण जैसे छात्रवृत्तियां, वृत्तिकायें, इनाम, अकाल और अन्य सहायता संबंधी अदायगियां। इस मद में प्रत्यक्ष रूप से विस्थापित व्यक्तियों पर हुआ सहायता व्यय (राज्य सरकारों और संघ राज्य क्षेत्रों के माध्यम से किए गए व्यय से भिन्न) भी शामिल है। इस वर्गीकरण में पेंशन संबंधी अदायगियों को अन्तरण अदायगी के रूप में माना गया है। यद्यपि पेंशन को एक अन्य प्रकार से, अर्थात् आस्थगित वेतन के रूप में माना जा सकता है, परन्तु पेंशनों को अन्तरण के रूप में मानना इस आधार पर सरल और तर्कसंगत है कि पेंशन वाले सेवा-निवृत्त कर्मचारियों से अर्थव्यवस्था के चालू उत्पादन में कोई वृद्धि नहीं होती है ।

मद 6 : सरकार की चालू और पूंजी खाते की अंतरण प्राप्तियों (अर्थात् करों) के बीच का अन्तर चालू और पूंजी खाते की अन्तरण अदायगियों के बीच के अंतर की तरह, इस परिकल्पना पर आधारित है कि सरकार की चालू अन्तरण प्राप्तियां आय से की गई आदायगियां है जबकि पूंजीगत प्रप्तियां पूंजी से की गई अदायगियां होती हैं। इस भिन्नता के आधार पर संपदा-शुल्क और दान-कर पूंजीगत प्राप्तियों के रूप में माने जाते और इन्हें यहां पर नहीं दिखाया जाता था । तथापि राष्ट्रीय आय के आंकड़ों के संग्रह और राष्ट्रीय लेखों के संकलन और विश्लेषण की सलाहकार समिति की सिफारिशों के अनुसार, यह भेद राजकोषीय वर्ष 1983-84 (वास्तविक) से समाप्त कर दिया गया है ।

Item 2: *Transfer Payments:* These expenditures do not involve direct demand on goods and services; they are of the nature of mere transfers intended to add to incomes of others. In the present analysis, a distinction has been drawn between current transfers and capital transfers on the hypothesis that while current transfers supplement the income accounts of recipients, capital transfers are intended to assist capital expenditure. Current transfers alone appear here; these comprise interest payments, current grants to States, Union Territories, local authorities and non-profit making institutions, subsidies, pensions and transfer payments to others.

Item 2.1: Interest Payments on the national debt are sometimes treated as a deduction from the current (transfer) receipts of Government, but these payments have been shown here on a gross basis. Interest comprises interest on the national debt exlcuding interest charged to departmental commercial undertakings. Interest charged to departmental commercial undertakings appear in Account 2, the current account of these undertakings.

Item 2.2: Grants include statutory grants, as well as all other non-plan and plan grants to States and Union Territories excepting those which are intended to assist capital formation (e.g. grants for rural works, soil conservation, forests, minor irrigation etc.). The expenditure on rehabilitation of displaced persons routed through State Governments and Union Territories also appears here. Starting with the Fourth Plan, the Central assistance to States and Union Territories is being given in the form of block grants and block loans; in this analysis, block grants have been allocated between current and capital grants in the ratio of 50:50. The sub-item 'grants to others' comprises grants mainly to institutions and these include grants to public sector institutions, like Council of Scientific and Industrial Research, Indian Council of Agricultural Research, and University Grants Commission.

Item 2.3: Other current transfers include subsidies, pensions-civil and defence and other current transfers to individuals like scholarships, stipends, prizes, famine and other relief payments. This item also includes relief expenditure (i.e. other than that routed through State Governments and Union Territories) incurred directly on displaced persons. Pension payments have been treated in the present classification as a transfer payment. While an alternative treatment of pensions as deferred pay is possible, the treatment of pensions as transfers is simpler and justifiable on the ground that no increase in current output accrues to the economy from retired personnel receiving pensions.

Item 6: The distinction between transfer receipts (i.e. taxes) of Government on current and capital account - like the distinction between transfer payments on current and capital account - rests on the hypothesis that Government's current transfer receipts constitute payments out of income, while capital receipts constitute payments out of capital. Based on this distinction, estate duty and gift tax were treated as capital receipts and did not appear here until 1982-83. However, following the recommendations made by the Advisory Committee on collection of data for National Income and Compilation and Analysis of National Accounts, this distinction has been done away with starting from the fiscal year 1983-84 (Accounts).

करों की प्राप्तियों की राशि, यहां राज्यों के हिस्से और स्थानीय प्राधिकरणों को अन्तरित करों को घटा कर दिखाई गई है ।

आय और सम्पत्ति पर करों की मद में आय-कर, धन-कर, संपदा शुल्क, दान-कर और भू-राजस्व (संघ राज्य क्षेत्रों के संबंध में) और अनुसूचित वाणिज्यिक बैंकों की ब्याज प्राप्तियों पर कर शामिल है। वस्तुओं पर कर में संघ उत्पाद शुल्क, (जिसमें राज्यों का हिस्सा शामिल नहीं है) सीमा शुल्क, देशी कच्चे तेल पर उपकर और विदेश यात्रा पर कर और बिक्री कर, पूंजीकरण फीस, स्टाम्प शुल्क आदि (संघ राज्य क्षेत्रों के संबंध में) शामिल है।

मद 7 : *सम्पत्ति और उद्यमों से आय*: इस मद में, प्रशासन को अन्तरित विभागीय और गैर विभागीय वाणिज्यिक उपक्रमों के लाभ और भारतीय रिजर्व बैंक के लाभ शामिल हैं। इसमें शामिल ब्याज की प्राप्तियां मुख्यतः राज्यों और संघ राज्य क्षेत्रों और गैर विभागीय वाणिज्यिक उपक्रमों से प्राप्त ब्याज की हैं । विभागीय वाणिज्यिक उपक्रमों से प्राप्त ब्याज को इसमें शामिल नहीं किया गया है, क्योंकि उन उपक्रमों पर भारित ब्याज विवरण 2 में दिखाई गई व्यय की मद है, विवरण 1 में नहीं। "अन्यों" में किराये की प्राप्ति और लोक निर्माण कार्यों से प्राप्तियां और तेल तथा प्राकृतिक गैस आयोग के द्वारा देय कच्चे तेल और गैस पर रायल्टी भी शामिल है ।

मद 8 : *फीस और विविध प्राप्तियां*: इसमें वाणिज्यिक आधार पर संगठित न की गई फीस पर दी गई सेवाओं के लिए सरकारी विभागों की प्रशासनिक प्राप्तियां शामिल हैं ।

विवरण 2 : *वस्तुओं और सेवाओं का लेन-देन तथा अन्तरणः विभागीय वाणिज्यिक उपक्रमों का चालू खाता*

विभागीय वाणिज्यिक उपक्रमों के कार्य जो बजट में दिखाये गये हैं, सरकार की उद्यमकारी गतिविधियों के रूप में है। इन उपक्रमों के चालू व्यय उत्पादनशील उद्यमों के कार्यचालन व्यय के समान उस मध्यवर्ती व्यय के द्योतक हैं जो माल तथा सेवाओं के मूल्यों में शामिल किए जाते हैं और जिन्हें अर्थ-व्यवस्था के दूसरे वर्गों को बेचा जाता है । अतः वह प्रशासनिक विभागों के अन्तिम परिव्यय के रूप में भिन्न होते हैं। इसी प्रकार वाणिज्यिक उपक्रमों की बिक्री से प्राप्त आय केवल प्रशासनिक विभागों की प्राप्तियों (अर्थात् करों) से, जो उनकी अपनी आय नहीं होती है और व्यय को पूरा करने के लिए अन्य क्षेत्रों की आयों से ली जाती है, भिन्न होती है। अतः इस विवरण में सामान्तयः विभागीय वाणिज्यिक उपक्रमों का लाभ और हानि का लेखा दिया जाता है और यह विवरण 1 के स्वरूप से भिन्न होता है।

स्वतंत्र कम्पनियों या निगमों के रूप में संचालित सरकारी उद्यमों जैसे हिन्दुस्तान स्टील, उर्वरक निगम आदि के लेन-देनों को इस विवरण में शामिल नहीं किया गया है क्योंकि यहां प्रस्तुत किया गया आर्थिक वर्गीकरण उपक्रमों के संबंध में है जो विभागीय तौर पर चलाये जा रहे है और इनमें ये उपक्रम शामिल है :- रेलवे, डाक और दूरसंचार , अफीम की फैक्टरिया और एलक्लायड के कारखाने, विदेशी संचार सेवाएं, परिवहन योजनाएं, परमाणु बिजलीघर सहित बिजली परियोजनाएं, वन और दिल्ली दुग्ध योजना । किन्तु 1972-73 से वर्गीकरण में एक बड़ा महत्वपूर्ण परिवर्तन किया गया है जिसके अनुसार रेल की कर्मशालाओ और उत्पादन एककों (चितरंजन लोकोमोटिव वर्क्स, डीजल लोकोमोटिव वर्क्स और इंटेग्रल कोच फैक्टरी) के निर्माण संबधी कार्यों को इसके अन्तर्गत ले लिया गया है । 1977-78 से लोक लेखा समिति की सिफारिशों पर रक्षा सेवाएं, कैंटीन भण्डार विभाग के कार्यचालन को भी इसमें शामिल कर लिया गया है क्योंकि इसके द्वारा किए गए लेन-देन सामान्य बजट का एक अंग है । इसमें 1982-83 (वास्तविक) से प्रारम्भ करके परमाणु ऊर्जा औद्योगिक परियोजनाओं के कार्यचालन को भी शामिल किया गया है और 1983-84 (वास्तविक) से नागर विमानन, वाणिज्यिक प्रसारण सेवाओं, दीप स्तंभो और दीप-पोतो, और सिंचाई निर्माण कार्यों को भी वाणिज्यिक उपक्रम माना गया है ।

Tax receipts shown here are net of the States' share and taxes transferred to local authorities.

Taxes on income and wealth include income tax, corporation tax, wealth tax, estate duty, gift tax, land revenue (in respect of Union Territories) and tax on interest receipts of scheduled commercial banks. Taxes on commodities and transactions include Union excise duties (excluding States' share), customs duties, cesses on commodities and tax on foreign travel and also sales tax, registration fees, stamp duties etc. (in respect of Union Territories).

Item 7: *Income from property and enterprises:* This item includes profits of departmental and non-departmental commercial undertakings transferred to administration as well as profits of the Reserve Bank of India. Interest receipts included here are mainly from States and Union Territories and non-departmental commercial undertakings. Interest received from departmental commercial undertakings is omitted since interest charged to these undertakings is an item of expenditure in Account 2 and not Account 1. 'Others' include rental income, receipts from public works and royalty payable by ONGC on crude oil and gas.

Item 8: *Fees and miscellaneous receipts:* These include administrative receipts of Government departments for services rendered for a fee not organised on a commercial basis.

Account 2: *Transactions in commodities and services and transfers : Current Account of Departmental Commercial Undertakings*

The operation of departmental commercial undertakings which figure in the budget, are of the nature of enterpreneurial activities of the Government. Current expenditure of these undertakings like working expenses of productive enterprises constitute intermediate expenditures that enter into the prices of goods and services as they are sold to other sectors of the economy. Therefore, they are different in character from final outlays by administrative departments. Likewise, sale proceeds of commercial undertakings are different from the receipts (e.g. taxes) of purely administrative departments which have no income of their own and draw upon incomes of other sectors to meet their expenditures. This account, therefore, sets out what is generally known as the profit and loss account of departmental commercial undertakings and is different in character from Account I.

The transactions of Government enterprises run as independent companies or corporations such as the Hindustan Steel, Fertiliser Corporation etc. are not included in this Account, as the economic classification presented here pertains to the magnitudes in the Demands for Grants and the Budget. This account is, therefore, concerned only with those commercial undertakings which are run departmentally and include Railways, Posts, Telecommunications, Opium factories and Alkaloid works, Overseas Communications Services, Transport Schemes, Power Projects including Atomic Power Stations, Forests and Delhi Milk Scheme. However, an important major change introduced since 1972-73 Classification has been to bring in the manufacturing activity of the Railway Workshops and production units (Chittaranjan Locomotive Works, Diesel Locomotive Works and Integral Coach Factory). With effect from 1977-78, the working of the Defence Services Canteen Stores Department has been included as its transactions now form part of the general Budget following the recommendations of the Public Accounts Committee. Starting from 1982-83 (Accounts), the working of atomic energy industrial projects and from 1983-84 (Accounts), those of Civil Aviation, commercial broadcasting service, light-houses and lightships and irrigation works are also treated as commercial undertakings.

अतः यहां यह बता देना महत्वपूर्ण होगा कि विभागीय वाणिज्यिक उपक्रमों की उयर्युक्त सूची में, केन्द्रीय सरकार द्वारा हाथ में लिए जाने वाले वाणिज्यिक किस्मों के कार्य-कलापों का पूरा ब्योंरा नहीं दिया गया है । तकनीकी दृष्टि से यह संभव है कि आकाशवाणी, सूचना और प्रसारण मंत्रालय के प्रकाशन विभाग, करेंसी नोट प्रेस और सिक्यूरिटी प्रेस की गतिविधियों जैसे कार्य-कलापों को सरकारी वाणिज्कि कार्य-कलापों के रूप में माना जाए । किन्तु यहां पर ऐसा नहीं किया गया, क्योंकि उनकी सेवाओं की अधिकांश बिक्री या तो वाणिज्यिक आधार पर नहीं की जाती या उनकी बिक्री मुख्यतः सरकारी विभागों को ही की जाती है ।

इस विवरण की मदें स्वतः स्पष्ट हैं । विभागीय वाणिज्यिक उपक्रमों के संचालन खाते के व्यय पक्ष में कर्मचारियों को दिया जाने वाला पारिश्रमिक (अर्थात् मजदूरी और वेतन), पेंशन आदायगिया, कच्चे माल आदि की खरीद आदि (आर्थात् वस्तुओं और सेवाओं का व्यय), मरम्मत और अनुरक्षण संबधी व्यय, इन उपक्रमों द्वारा देय ब्याज और मूल्यह्रास की व्यवस्था दिखाई जाती है । वर्ष 1979-80 से रेलवे के राजस्व में हुई कमी को उनका 'आस्थगित लाभांश दायित्व' माना जाता है और उसे उनके द्वारा सामान्य राजस्व को देय लाभांशों में से घटा दिया जाता है । किन्तु रेलवे की सही वित्तीय स्थिति प्रस्तुत करने के लिए, उनके पूर्ण लाभांश दायित्व को हिसाब में लिया गया है और कमी को काल्पनिक दृष्टि से रेलवे को दिया गया उधार माना गया है । प्राप्ति पक्ष में उपक्रमों की बिक्री से प्राप्त होने वाली कुछ रकमें तथा विभिन्न निधियों को बकाया राशियों पर प्राप्त होने वाली ब्याज की रकम दिखाई जाती है अधिशेष के एक अंश को, उपक्रम के अंशदान के रूप में सरकारी प्रशासन के चालू खाते (विवरण 1) में अन्तरित कर दिया जाता है और शेष राधि को धारित लाभों के रूप में दिथाया जाता है ।

यह धारित लाभों सहित सरकारी प्रशासन की बचत की राशि और विभागीय उपक्रमों के मूल्यह्रास की रकम मिलकर सरकार की कुल बचत की राशि बन जाती है जो सकल पूंजी निर्माण के लिए उपलब्ध होती है ।

विवरण 3: *वस्तुओं और सेवाओं के लेन-देन और अन्तरण : सरकारी प्रशासन और विभागीय वाणिज्यिक उपक्रमों (सम्मिलित) का पूंजी खाता*

इस विवरण का संबध, कुल पूंजी-परिव्यय से है जो प्रशासन और विभागीय वाणिज्यिक उपक्रमों द्वारा निर्माण की जाने वाली भौतिक परिसम्पतियों और पूंजीगत अन्तरणों का द्योतक है । चूंकि पूंजी निर्माण संबधी समस्त व्यय, अन्तिम व्यय होता है और राष्ट्रीय उत्पादन पर भारित होता है तथा सरकार को उसके लिए या तो उपनी बचतों से रकमें निकाल कर साधन जुटाने पड़ते हैं अथवा गैर-सरकारी बचतों से रकम जुटानी पड़ती है, इसलिए पूंजीगत व्यय के संबध में प्रशासन ओर विभागीय वाणिज्यिक उपक्रमों में भेद करना अधिक सार्थक नहीं होगा।

सरकार द्वारा निर्माण की जाने वाली भौतिक परिसम्पत्ति को (विभागीय वाणिज्यिक उपक्रमों के नवीकरण और प्रतिस्थापन व्यय को छोड़कर) सकल और निवल परिसम्पत्ति के निर्माण तथा तालिकांगत सामान में हुई निवल वृद्धि के रूप में दिखाया गया है । पूंजीगत अन्तरणों के एक ब्योरे का भी उल्लेख किया गया है । वस्तुओं और सेवाओं तथा अंतरणों में लेन देन के घाटे को विवरण 3 में सन्तुलनकारी मद के रूप में दिखाया गया है और इससे शेष अर्थव्यवस्था के प्रति सरकार के निवल दायित्व में हुए परिवर्तन की मात्रा का पता चलता है ।

मद 1.1 : भवन और अन्य निर्माण कार्य में सभी कार्यालय, रिहायशी इमारतें ओर अन्य प्रयोजनों की इमारतें, सड़कें रेलवे तथा डाक और तार संबधी निर्माण कार्य, बिजली और अन्य पूंजीगत परियोजनाएं शामिल हैं।

It is important to note here that the list of departmental commercial undertakings as given above does not exhaust the activities of a commercial or semi-commercial nature, undertaken by the Central Government. It is technically possible to treat activities like those of the Publication Division of the Ministry of Information and Broadcasting, Currency Note Press and Security Press as commercial activities of the Government. This has not been done here either because of the bulk of the sale of their services is not on a commercial basis or because the sale is mainly to Government Departments.

The items in this account are self-explanatory. The expenditure side of the operating account of departmental commercial undertakings spells out compensation to employees (i.e. wages and salaries), pension payments, purchases of raw materials etc. (i.e. commodities and services), expenditure on repairs and maintenance, interest charged to these undertakings and provision for depreciation. With effect from 1979-80 the shortfall in the revenues of the Railways are treated as their "deferred dividend liability" and are deducted from the dividends payable by them to general revenues. However, in order to truly reflect the financial position of the Railways, their full dividend liability has been taken into account and the shortfall has been treated notionally as loans to Railways. The receipt side shows their gross sale proceeds and the interest receipts on their outstanding balances in various funds. A part of the surplus emerging out of this is transferred to the current account of Government administration (Account I) as undertakings' contribution and the balance appears as retained profits.

These retaind profits together with the savings of the Government administration and depreciation provision of departmental undertakings constitute total gross Government savings, available for gross capital formation.

Account 3: *Transactions in commodities and services and transfers : Capital account of Government Administration and Departmental Commercial Undertakings (combined)*

This account is concerned with the total capital outlay representing physical asset formation by administration and departmental commercial undertakings and capital transfers. A distinction between administration and departmental commercial undertakings in respect of capital expenditure is not very meaningful for the reason that the entire expenditure on capital formation is a final expenditure which is a charge on the national product and for which Government has to find resources either from its own savings or by drawing on private savings.

The physical asset formation by Government has been shown in terms of gross and net asset formation (excluding the renewal and replacement expenditure of departmental commercial undertakings) and net increase in inventories. A breakdown of capital transfers has also been indicated. The deficit on all transactions in commodities and services and transfers is shown as a balancing item in Account 3 and this measures the change in Government's net indebtedness to the rest of the economy.

Item 1.1: Building and other construction include all buildings for residential, office and other purposes, road construction, works of railways and posts, telecommunications, power and other capital projects.

मद 1.2 : मशीनें और उपकरण मद में, विभिन्न किस्मों की मशीनों और उपकरणों की खरीद के संबंध में किये जाने वाला व्यय शामिल है । इनमें विदेशी सहायता के अंतर्गत प्राप्त मशीनें भी शामिल होती है "नवीकरण और प्रतिस्थापन" शीर्षक के अन्तर्गत दिखाए गए व्यय का संबंध विभागीय वाणिज्यक उपक्रमों की मूल्यह्रास निधियों से वित्तपोषित व्यय से है । इसलिए मशीनों और उपस्करों पर तथा सरकारी प्रशासन द्वारा किए जाने वाले निर्माण संबंधी समस्त व्यय को "नया परिव्यय" शीर्षक के अन्तर्गत दिखाया गया है क्योंकि इन परिसम्पत्तियों के मूल्यह्रास के लिए बजट में कोई व्यवस्था नही की गई है।

मद 2 : निर्माण कार्य संबंधी भंडार में वृद्धि : निर्माण कार्य के लिए आवश्यक धारित सामान और विभागीय वाणिज्यिक उपक्रमों तथा प्रशासनिक विभागों के तालिकागत सामान में होने वाली वृद्धि अथवा कमी को इस मद में दिखाया गया है । 1977-78 (वास्तविक) से शुरू करके आयातित उर्वरकों के स्टाकों के वर्गीकरण में परिवर्तन किया गया है, जिसके अन्तर्गत दिखाई गई बकाया उन प्राप्तियों को घटा कर भण्डारों में होने वाली वृद्धि के रूप में, जिनको विविध पूंजी प्राप्तियों के अंतर्गत वर्गीकृत किया जाता है ।

मद3.1 : पूंजी निर्माण के लिए अनुदान : राज्यों और संघ राज्य क्षेत्रों को दिए जाने वाले पूंजीगत अनुदानों में, आयोजनागत स्कीमों के लिए केन्द्रीय सहायता के रूप में दिए जाने वाले एकमुश्त का आधा शामिल है, जो पूजी निर्माण (अर्थात् ग्रामीण निर्माण कार्य) में सहायता देने के उद्देश्य से दिए जाने हैं । गैर-विभागीय उपक्रमों को दिए जाने वाले अनुदानों में, तेल और प्रकृतिक गैस आयोग जैसे स्वायत्त निगमों को दी जाने वाली पूंजीगत सहायता (ऋणों से भिन्न) शामिल हैं । अन्यों को दिए जाने वाले अनुदानों में वैज्ञानिक और औद्योगिक अनुसंधान परिषद् तथा औद्योगिक संस्थानों जैसे सरकारी क्षेत्र की संस्थाओं को दिए जाने वाले अनुदानों का एक भाग शामिल हैं जो उपस्करों की खरीद और निर्माणों के लिए दिए जाते हैं ।

मद3.3 : इस मद में विदेशों को दिए जाने वाला अनुदान शामिल है । चूंकि इसका संबंध, देश से बाहर के आर्थिक पुनर्निर्माण और विकास के लिए की जाने वाली बचतों के अंतरण न मानकर पूंजीगत अंतरण मानना युक्तिसंगत होगा ।

मद 5 और 6 : पूंजी निर्माण के लिए उपलब्ध प्राप्तियों में विवरण 1 और 2 से आगे लाई गई चालू खाते की सकल बचतें, दान कर और सम्पदा शुल्क तथा विदेशी अनुदानों की प्राप्तियां शामिल हैं । विदेशी अनुदानों में नगद अनुदान और अन्य देशों से प्राप्त वस्तु अनुदान शामिल हैं । अन्य पूंजीगत प्राप्तियों में, निष्क्रांत सम्पत्ति की बिक्री से प्राप्त होने वाली राशि तथा जमीन की बिक्री की रकम को भवन और अन्य निर्माण पूंजी की राशि में से घटा दिया गया है ।

विवरण 4 : *वित्तीय परिसंपत्तियों में परिवर्तन : सरकारी प्रशासन और विभागीय वाणिज्यिक उपक्रमों का पूंजी खाता*

विवरण 4 का संबंध औद्योगिक और वाणिज्यिक उपक्रमों को शेयर पूंजी में निवेश राशि और शेष अर्थ-व्यवस्था को दिए जाने वाले ऋणों और अग्रिमों जैसी वित्तीय परिसंपत्तियों के लेन-देन से है । ऋणों की राशि पूंजी निर्माण तथा अन्य प्रयोजनों के लिए नियत कर दी जाती है । पूंजी निर्माण के लिए शेयरों ओर ऋणों में निवेशित रकमों से जो विवरण 4 में दिखाई गई है, यह पता चलता है कि केन्द्रीय सरकार प्रत्यक्ष रूप से पूंजी निर्माण करने का जो काम हाथ में लेती है उसके अतिरिक्त वह वित्तीय सहायता देकर अर्थ-व्यवस्था में किस सीमा तक पूंजी निर्माण को प्रोत्साहन देती है । विवरण 4 संतुलनकारी मद सहित, जो वित्तीय निवेशों और केन्द्रीय सरकार के ऋणों के निवल परिव्यय की द्योतक है, विवरण 3 के घाटे की राशि से यह पता चलता है कि निवल आन्तरिक और निवल विदेशी ऋणों की रकम से तथा घाटे की वित्त व्यवस्था द्वारा पूरी की जाने वाली कुल वित्तीय आवश्यकता कितनी है ।

Item 1.2: Machinery and equipment include expenditure incurred on the purchase of various types of machinery and equipments including machinery obtained under foreign aid. The expenditure shown against 'renewals and replacement' refers to expenditure financed out of the depreciation funds of the departmental commercial undertakings. The entire expenditure on machinery and equipment as well as on construction by the Government administration therefore appears as 'new outlay', since no provision for depreciation of these assets is made in the budget.

Item 2: *Increase in works stores:* The net increase or decrease in stores needed for construction work and inventories of departmental commercial undertakings and administrative departments is shown under this item. There has been a change introduced in classifying imported fertilizers' transactions beginning 1977-78(Accounts) whereby the net transactions are treated as subsidy instead of increase in stocks after deducting arrear receipts shown under recoveries for past years which are classified under miscellaneous capital receipts.

Item 3.1: Grants for Capital Formation: Capital grants to States and Union Territories include one-half of block grants given as Central assistance for plan schemes, as well as such grants in the revenue budget as are intended to assist capital formation(e.g. rural works). Grants to non-departmental commercial undertakings include capital assistance (other than by way of loans, to autonomous corporations like the Oil and Natural Gas Commission). Grants to others include part of grants to public sector institutions like Council of Scientific and Industrial Research and Institutes of Technology, treated as intended for purchase of equipment and for construction.

Item 3.3: This item includes grants to foreign countries. The rationale of treating these grants as capital rather than current transfer is that they involve transfer of savings for economic reconstruction and development outside the country.

Item 5 and 6: Receipts available for capital formation consist of gross savings on current account brought over from Accounts 1 and 2, and receipts of foreign grants include both cash grants and commodity grants received from other countries. Other capital receipts include sale proceeds of evacuee property and proceeds from sale of land. The sale of other physical assets has been netted against outlay on building and other construction.

Account 4: *Changes in financial assets : Capital Account of Government Administration and Departmental Commercial Undertakings*

Account 4 is concerned with transactions in financial assets, i.e. investment in share capital of industrial and commercial concerns and loans and advances granted to the rest of the economy. Loans have been allocated between those meant for capital formation and those for other purposes. Investments in shares and loans for capital formation as shown in Account 4 indicate the extent to which the Central Government promotes capital formation in the rest of the economy through financial assistance in addition to the capital formation directly undertaken by it. The balancing item of Account 4, representing net outlay on financial investments and loans of the Central Government together with the deficit in Account 3 represents the total requirements of finance to be met out of net domestic and net foreign borrowing and by the deficit financing.

मद 1 : सरकारी प्रतिष्ठानों के शेयरों में किए जाने वाले निवेशों का तात्पर्य-सरकार के ऐसे गैर-विभागीय वाणिज्यिक उपक्रमों की शेयर पूंजी में निवेश, जिनके 50 प्रतिशत से अधिक शेयर केन्द्रीय सरकार के पास हो । बैंकों, सामान्य बीमा आदि का राष्ट्रीयकरण किए जाने के परिणामस्वरूप अधिगृहीत शेयरों आदि को भी निवेश माना जाता है। अन्य सभी प्रतिष्ठानों को, चाहे वे गैर-सरकारी, सहकारी अथवा सरकारी क्षेत्र के प्रतिष्ठान हो, "अन्य प्रतिष्ठान" कहा गया है । सरकारी प्रतिष्ठानों के मामले में, वित्तीय प्रतिष्ठानों और गैर-वित्तीय प्रतिष्ठानों के बीच भेद किया गया है ।

मद 2 : पूंजी निर्माण के लिए देय ऋणों में पूंजी-परिसम्पत्ति का निर्माण करने के लिए दिए जाने वाले ऋण शामिल है जिसमें राज्यों, स्थानीय प्राधिकरणों, गैर-विभागीय वाणिज्यिक उपक्रमों तथा औरों को दिए जाने वाले ऋण शामिल हैं । अल्प बचतों की राशि में से राज्यों को दिए जाने वाले ऋणों को पूजी निर्माण के लिए देय ऋण माना गया है। केवल गैर-विभागीय वाणिज्यिक उपक्रमों के दिए गये आयोजनागत ऋणों को पूंजी निर्माण के लिए देय ऋण माना गया है । पूंजी निर्माण के लिए औरों को दिए जाने वाले ऋणों में गैर-सरकारी औद्योगिक उपक्रमों, सहकारी आवास समितियों को दिए जाने वाले तथा मकान बनाने के लिए सरकारी कर्मचारियों के दिए जाने वाले ऋण शामिल हैं।

मद 3 : राज्य ररकारों और संघ राज्य क्षेत्रों को दिए जाने वाले अन्य ऋण में अर्थोपाय अग्रिम, अल्पावधिक कृषि ऋण, दैवी विपत्तियों के संबंध में देय ऋण तथा आयोजना-भिन्न अन्तर को पूरा करने के लिए दिए जाने वाले विशेष ऋण शामिल है । चूंकि राज्यों को दिए गए सभी अर्थोपाय अग्रिम उसी वित्तीय वर्ष में ले लिए जाते है इसलिए 1975-76 से इस शीर्ष के अन्तर्गत भुगतान और प्रप्तियों को छोड़ देने का निश्चय किया गया था । इसी प्रकार, कृषि निविष्टियों के लिए राज्य सरकारों को अल्पाविधि ऋणों को 1985-86 (वास्तविक) से छोड़ दिया गया है । राज्यों को दिये गये मध्यावधि ऋणों को, जो भारतीय रिजर्व बैंक के पास उसके घाटों/ओवर ड्राफ्टों को पूरा करने के लिए उन्हे दी गई थी, छोड़ दिया गया क्योंकि इनसे भारतीय रिजर्व बैंक की लेखा पुस्तकों में राज्यों की देनदारियों का केन्द्र को अंतरण ही प्रकट होता था । गैर-विभागीय वाणिज्यिक उपक्रमों को अन्य ऋण में उसके घाटा की पूर्ति के लिए तथा पहले की ऋणों की वापसी अदायगियों के लिए दिए गए आयोजना-भिन्न ऋण शामिल है । तथापि 1975-76 (सशोधित अनुमान) से गैर-विभागीय वाणिज्यिक उपक्रमों के पिछले ऋणों के नवीनीकरण का ब्यौरा उपलब्ध हो गया है और इस कारण इनको "व्यय" "आय" में शामिल नहीं किया गया है । विदेशी सरकारों को दिए जाने वाले ऋणों में वे तकनीकी ऋण शामिल है जो उन देशों को दिए जाते है जिनके साथ रुपयों में अदायगी करने के लिए करार किए गए हैं । चूंकि अधिकाश तकनीकी ऋणों की वसूली उसी वित्तीय वर्ष में की जाती है इसलिए उन्हें अब 1981-92 (वास्तविक) से निवल आधार पर दिखाया गया है । अन्यों को दिए जाने वाले ऋणों में सरकारी कर्मचारियों के देय वाहन अग्रिम तथा राहत ऋण (जैसे तूफान सहायता) शामिल हैं ।

मद 4 : इसमें अन्तर्राष्ट्रीय मुद्रा कोष, अन्तर्राष्ट्रीय पुनर्निर्माण और विकास बैंक, अन्तर्राष्ट्रीय विकास संघ तथा एशियाई विकास बैंक को दिए जाने वाले अभिदान शामिल हैं ।

मद 5 : यह मद स्वर्ण की किसी भी बिक्री की राशि के समायोजन के बाद स्वर्ण की वास्तविक खरीद की द्योतक है जैसे कि 1980-81 में 4 करोड़ रूपए के राष्ट्रीय रक्षा स्वर्ण बांडों के रुप में वापसी अदायगी किया जाना ।

मद 7 : अन्यों द्वारा "ऋणों की वापसी" अदायगी में सरकारी उपक्रमों द्वारा वापस अदा किए गए ऋण शामिल है । यहां पर यह उल्लेख किया जा सकता है कि चूंकि राज्यों को दिए जाने वाले अर्थोपाय अग्रिमों और अल्पावधि कृषि ऋण को उसी वर्ष में वापस अदा करना पड़ता है जिसमें वे दिए जाते है लेकिन उन्हें प्राप्ति और व्यय दोनों मदों में दिखाया जाता है ।

Item 1: Investments in shares of Government concerns denote investments in the share capital of such non-departmental commercial undertakings of the Government, in which the Central Government ownership is more than 50 per cent. Acquisition of shares as a result of nationalisation of banks, general insurance etc., is also treated as investment. All other concerns whether in the private, cooperative or public sector have been treated as 'others'. In the case of Government concerns, a distinction has been drawn between financial concerns and non-financial concerns.

Item 2: Loans for capital formation include loans given for the creation of capital assets and comprise loans to States, local authorities, non-departmental commercial undertakings and others. Loans to States out of small savings have been treated as loans for capital formation. Only plan loans given to non-departmental commercial undertakings have been taken as loans for capital formation. Loans for capital formation to others include loans to private industrial undertakings, cooperative housing societies and house-building loans to Government employees.

Item 3: 'Other loans' to State Governments and Union Territories include ways and means advances, short-term agricultural loans, loans for natural calamities and special loans for meeting non-plan gaps. Since the entire ways and means advances to States are recovered within the same financial year, it was decided to ignore both the disbursements and the receipts under this head with effect from 1975-76. Similarly, short-term loans to State Governments for agricultural inputs have been ignored with effect from 1985-86 (Accounts). Medium-term loans to States to clear their deficits/ overdrafts with the Reserve Bank of India are also ignored, as these represent only transfer of liability from the States to the Centre in the books of the Reserve Bank. 'Other loans' to non-departmental commercial undertakings include non-plan loans given for meeting their losses and also for the repayment of past loans. However, from 1975-76(RE) onwards, the details of renewals of past loans in respect of non-departmental commercial undertakings became available and therefore, these have been excluded both from the outgoings and the incomings. Loans to foreign Governments also include technical credits to countries having rupee payment agreements. Since a large part of technical credits are recovered within the same financial year, these are now shown on a net basis with effect from 1981-82(Accounts). Loans to 'others' include conveyance as well as relief (e.g. cyclone) loans to Government employees.

Item 4: This include subscription to IMF, IBRD, IDA and ADB.

Item 5: This represents net purchase of gold after adjusting for any sale of gold, as for instance repayment in gold of National Defence Gold Bonds in 1980-81 valued at Rs.4 crores.

Item 7: Repayments by others include loan repayments by public undertakings. It may be noted that short-term agricultural loans in respect of States are supposed to be repaid in the course of the same year but appear as items of receipts as well as of expenditure.

विवरण 5 : *वित्तीय देनदारियों में परिवर्तन : सरकारी प्रशासन और विभागीय वाणिज्यिक उपक्रमों का पूंजी खाता*

यह विवरण केन्द्रीय सरकार के ऋण संबंधी लेखे का द्योतक है और इसका संबंध विवरण 3 और 4 से होने वाली कमियों को पूरा करने के लिए की जाने वाली वित्तीय व्यवस्था से है । प्राप्तियों से सकल बाजार ऋण की रकमें, सकल विदेशी ऋण और अल्प बचतों से निवल प्राप्तियां, भविष्य निधियां, गैर-सरकारी भविष्य निधियों की जमाराशियां, अनिवार्य जमाराशियों विविध पूंजीगत प्राप्तियों (निवल) के विरुद्ध भारतीय रिजर्व बैंक से विशेष उधार, 'राजकोषीय हुंडियों' (मद 13) की बिक्री से रिजर्व बैंक से लिए जाने वाले अन्य उधारः राजकोषीय हुण्डियों की निवल बिक्रियां निधि परिचालनों के समायोजन करने के बाद दर्शायी जाती है । विशेष प्रतिभूतियों की निवल बिक्री (मद 12) अन्तर्राष्ट्रीय मुद्रा कोष, अन्तर्राष्ट्रीय पुनर्निर्माण और विकास बैंक, अन्तर्राष्ट्रीय विकास संघ और एशियाई विकास बैंक को अभिदान देने के लिए जारी की जाने वाली हस्तान्तरणीय गैर-ब्याज प्रतिभूतियों की द्योतक है ।

इस संबंध में खर्च होने वाली रकमों में बाजार ऋणों (मद 1) और विदेशी ऋणों (मद 2) के संबंध में वापिस अदायगी की जाने वाली शामिल है । इस विवरण के अन्तर्गत शेष राशि को समायोजित रकम के साथ मिलाने पर वह वि व रण 3 और वि वरण 4 की संतुलनकारी मदों के योग के बारवर हो जाती है ।

विवरण 6 : *सरकारी प्रशासन और विभागीय वाणिज्यिक उपक्रमों का रोकड़ और पूंजी समाधान खाता*

यह एक ऐसा समाधान खाता है जो सार रूप से विवरण 3, 4 और 5 की निवल स्थिति का द्योतक है और केन्द्रीय सरकार के सभी लेन-देनों के, उसकी नकदी राशि पर पड़ने व ाले प्रभाव को दिखाता है । विव रण 5 में राजकोषीय हुंडियों की बिक्री की निवल राशियों और नकद शेष राशि में होने वाले अन्तर को मिलाकर देखना केन्द्रीय सरकार के बजट संबंधी घाटे को मापने की एक परम्परागत व्यवस्था है । किन्तु आर्थिक दृष्टि से घाटे की वित्तव्यवस्था को ठीक-ठीक समझने के लिए और बातों का समायोजन आवश्यक होता है जैसे कि भारतीय रिजर्व बैंक को छोड़कर अन्य पार्टियों के हाथ बेचे जाने वाली राजकोषीय हुंडियों की रकमों को अलग करना पड़ता है और इस घाटे का हिसाब लगाने के लिए बाजार ऋणों के संबंध में रिजर्व बैंक द्वारा दिए जाने वाले समर्थनों को इसमें शामिल करना पड़ता है।

ख. कार्य संबंधी वर्गीकरण

कार्य संबंधी वर्गीकरण का उद्देश्य मुख्य अभीष्ट प्रयोजनों के अनुसार सरकारी खर्च की मुख्य मदों अर्थात् रक्षा, प्रशासन, स्वास्थ्य, शिक्षा और आर्थिक सेवाओं आदि मदों को भिन्न-भिन्न वर्गों में संकलित करना है । किन्तु इस पुस्तिका में वर्गीकरण का उद्देश्य सरकारी व्ययों के कार्य संबंधी वर्गीकरण में कुछ संशोधन करना नहीं है जो कि वर्तमान बजट पत्रों में है, बल्कि यह आर्थिक वर्गीकरण के साथ कार्यों के अनुसार पुनः वर्गीकरण करने का एक प्रयास है जिसके आर्थिक वर्गीकरण से उत्पन्न आयामों का महत्व बढ़ाया जा सके ।

यह बात भी उल्लेखनीय है कि कार्य संबंधी वर्गीकरण की स्कीम, वस्तुतः व्यय से संबंधित है और यह प्राप्तियों पर लागू नहीं होती । केन्द्रीय सरकार का कुल परिव्यय जिस पर यह लागू होता है, आर्थिक वर्गीकरण विवरण 1 में चालू व्यय, विवरण 3 में पूंजी परिव्यय और विवरण 4 में वित्तीय निवेशों और श्रेणियों तथा अग्रिमों से बनता है । ये तीन विवरण उन व्ययों को प्रदर्शित करते है जिनका संबंध सरकारी नीतियों द्वारा पूरे किए जाने वाले विशिष्ट प्रयोजनों के साथ जोड़ा जा सकता है यही बात

Account 5: *Changes in financial liabilities : Capital Accounts of Government Administration and Departmental Commercial Undertakings*

This represents the borrowing account of the Central Government, and is concerned with the provision of finance for meeting the deficits emerging from Account 3 and 4. Incomings detail gross market borrowing, gross borrowing from abroad, net accretions to small savings, provident funds, deposits of non-government provident funds, special borrowings from the R.B.I. against compulsory deposits and miscellaneous capital receipts (net) other borrowing from the Reserve Bank in the sale of 'treasury bills' (item 13): net sales of treasury bills are shown after adjusting for funding operations. The net sale of special securities (item 12) denotes mainly the result of transactions in the issue of non-negotiable non-interest bearing securities from subscriptions to IMF, IBRD, IDA and ADB and their encashment.

The outgoings on this account include repayments on account of market borrowings (item 1) and foreign loans (item 2). The balance emerging from this Account represents the net increase in financial liabilities and together with adjustment in cash balances is equivalent to the sum of balancing items in Account 3 and 4.

Account 6: *Cash and Capital Reconciliation Account of Government Administration and Departmental Commercial Undertakings*

This is the reconciliation account summing up the net position in respect of Accounts 3, 4 and 5 and showing the effect of all transactions of the Central Government on its cash position. The net variation in the cash balance read with net sales of treasury bills in Account 5 provide a conventional measure of the Central Government's budgetary deficit. The derivation of deficit financing in an economically more meaningful sense, however, calls for further adjustments; sales of treasury bills to parties other than the Reserve Bank of India have to be excluded and the Reserve Bank's support to market borrowings included in the computation of this deficit.

B. Functional Classification

A functional classification is designed to group the main items of Government expenditures in terms of broad purposes to be served, i.e. defence, administration, health, education, economic services etc. The objective of the classification adopted in this brochure, however, is not to introduce some refinements in the functional grouping of Government expenditures as may be already existing in the budget documents, but rather it is to attempt a reclassification by functions in conjunction with an economic classification in order to increase the significance of the magnitudes emerging from the latter.

It is also noteworthy that the scheme of functional classification relates essentially to expenditures and does not apply to receipts. The total outlay of the Central Government to which it applies is made up of the current expenditure in Account 1, capital expenditure in Account 3 and financial investments and loans and advances in Account 4 of the Economic Classification. These three accounts show expenditures which can be related to specific purposes to be served by Government policies. The same cannot be said of the

विभागीय वाणिज्यिक उपक्रमों के चालू व्यय के लिए नहीं कहीं जा सकती। (जैसा आर्थिक वर्गीकरण के विवरण 2 में दिखाया गया है) हालाकि इन उपक्रमों द्वारा किया गया पूंजी निर्माण कार्य संबंधी वर्गीकरण में सामिल किया जाता है ।

केन्द्रीय सरकार के व्यय का वर्गीकरण चार मुख्य श्रेणियों में किया गया है :—

1. सामान्य सेवाएं
2. सामाजिक सेवाएं
3. आर्थिक सेवाएं
4. अनावंटनीय

श्रेणी 1 : इसका संबंध सामान्य सेवाओं से है और इसमें असैनिक (सिविल) तथा रक्षा संबंधी दोनों व्यय आते हैं । ये व्यय राष्ट्र के बुनियादी प्रशासनिक ढचे की व्यवस्था के लिए किए जाते है अतः सामान्य प्रशासन, कर संग्रह, पुलिस, करेंसी तथा टकसाल, विदेशों से संबंध, रक्षा तथा दैवी विपत्तियों से बचाव के लिए किया जाने वाला आयोजना-भिन्न व्यय इस श्रेणी के अन्तर्गत दिखाया जाता है यह भी ध्यान दिया जाए कि विभिन्न सामाजिक और आर्थिक कार्यकलापों के निदेशन तथा अधीक्षण से संबंधित प्रशासनिक व्यय को संबद्ध कार्य के संबंधी शीर्षकों के अन्तर्गत दिखाया गया है जहाँ एक से अधिक कार्यकलाप शामिल हों (उदाहरणार्थ लोक निर्माण कार्य), वहां ऊपरी प्रशासनिक खर्च को यथा सम्भव सीमा तक, विभिन्न कार्यकलापों में बांटने का प्रयास किया गया है।

श्रेणी 2 : इसका संबंध सामाजिक सेवाओं से है और यह समाज की बुनियादी सामाजिक सुविधाओं के लिए की गई व्यवस्था से संबंधित है इसमें शिक्षा, चिकित्सा और लोक स्वास्थ्य तथा अन्य सामाजिक सेवाओं का व्यय शामिल है। शिक्षा के अन्तर्गत सामान्य और और मूल अनुसंधान शामिल हैं । यद्यपि अन्तर सेवा प्रशिक्षण और प्रयोगात्मक अनुसंधान को संबद्ध कार्यकलाप में आवंटित किया गया है । उदाहरण के लिए परमाणु तथा औद्योगिक अनुसंधान दोनों उद्योग के अन्तर्गत दिखाए गए हैं । उपसमूह "चिकित्सा और लोक स्वास्थ्य" में परिवार कल्याण के कार्यक्रम भी आते हैं उपसमूह अन्य सामाजिक सेवाओं में आवास, श्रमिक कल्याण तथा अन्य समाज कल्याण योजनाएं, संग्रहालय, पुरातत्व, सार्वजनिक पुस्तकालय तथा प्रसारण और प्रचार के अन्य साधनों से संबंधित व्यय भी शामिल हैं । विभिन्न रोजगार कार्यक्रम के व्यय के लिए बजट में जो व्यवस्था की गई है वह इसमें शामिल है । इसी उपसमूह में प्राथमिक शिक्षा, गन्दी बस्ती के सुधार, ग्रामीण जल पूर्ति और ग्रामीण आवास स्थलो के लिए बजट में एक मुख्य रकम के रूप में की गई व्यय व्यवस्था भी शामिल हैं । बच्चों के लिए पोषाहार कार्यक्रम का व्यय भी यहां पर दिखाया गया है । विस्थापितों के लिए राहत कार्य पर किया जाने वाला व्यय इसमें शामिल है।

श्रेणी 3 : इसमें आर्थिक सेवाओं के लिए की गई व्यवस्था आती है और इसमें सभी व्यय शामिल हैं जो अर्थ-व्यवस्था के उत्पादक कार्यों को प्रत्यक्ष अथवा अप्रत्यक्ष रूप से बढ़ावा देते है । इसलिए उत्पादक आर्थिक सहायता जैसे कि उर्वरकों, कोयला और रेलवे के लिए दी जाने वाली सहायता के साथ-साथ निर्यात संवर्धन और सहायता बाजार विकास के लिए यहा शामिल की जाती है । कृषि, उद्योग, परिवहन तथा संचार और 'अन्य आर्थिक सेवाएं' में और आगे अन्तर-विभाजित आर्थिक कार्यकलाप की किस्म के अनुसार किया जाता है । कृषि में सिंचाई, पशु-पालन, मीन उद्योग, वन पालन, सहकारिता तथा सामुदायिक विकास शामिल है । उद्योग में मोटे तौर पर बड़े और छोटे उद्योग, ग्रामोद्योग, विद्युत विकास, खनिज साधनों का उपयोग तथा व्यापार और निर्यात संवर्धन आते हैं । परिवहन और संचार में रेल, डाक, दूर-संचार, सड़क, पत्तन, नौवहन,

current expenditure of departmental commercial undertakings (as shown in Account 2 of the Economic Classification) although capital formation by these undertakings is included in the functional classification.

The expenditure of the Central Government has been grouped into four main categories:

1. General Services
2. Social Services
3. Economic Services
4. Unallocable

Category 1 : Category 1 relates to General Services and covers both civil and defence. These expenditures are incurred for the provision of the basic administrative structure of the nation; thus expenses on general administration, tax collection, police, currency and the mint, conduct of external relations, defence and the non-plan provision against natural calamities are shown under this category. It may be noted that the administrative expenditures concerned with the direction and superintendence of the various social and economic activities appear under the relevant functional heads. Where more than one activity is involved (e.g. public works), an attempt has been made to apportion, to the extent possible, the administrative overheads to the various activities.

Category 2 : Category 2 relates to Social Services and is concerned with the provision of basic social amenities to the community. Expenditures on education, medical and public health and other social services are included here. Education covers both general and technical education (e.g. engineering and medical colleges) and also basic research. However, in-service training and applied research have been allocated to the activities concerned. For instance, both atomic and industrial research appear under Industry. The sub-group 'medical and public health' also covers family welfare programmes. The sub-group 'other social services, includes housing, labour welfare and other social welfare schemes, museums, archaeology, public libraries and also expenditures connected with broadcasting and other publicity media. Expenditures provided in the budget for various programmes of employment are also included here. This sub-group also covers such expenditures as the lump-sum provision made in the budget for primary education, slum improvement, rural water supply and rural home sites. The expenditure on nutrition programme for children is also shown here. The relief expenditure for displaced persons are included here.

Category 3 : Category 3 comprises provision for Economic Services and includes all such expenditures as to promote, directly or indirectly, productive activity within the economy. Producer's subsidies such as for fertilisers, coal and railways, as also the assistance for export promotion and market development are, therefore, included here. Further sub-division into agriculture, industry, transport and communications and 'other economic services' is done according to the type of economic activity. Agriculture includes irrigation, animal husbandry, fisheries, forestry, cooperation and community development. Industry broadly covers both large, small scale and village industries, power development, exploitation of mineral resources and trade and export promotion. Transport

नागर विमानन आदि शामिल है । 'अन्य आर्थिक सेवाएं' एक अवशिष्ट श्रेणी है जिसमें बहुप्रयोजनी परियोजनाओं पर व्यय और अल्प बचतों में राज्यों के हिस्से जैसी मदें शामिल है, राज्यों को आयोजनागत सहायता के लिए केन्द्र द्वारा मंजूर किए गए एकमुश्त अनुदान और ऋण भी इसी श्रेणी में आते है, हालांकि इन्हें अलग दिखाया गया है । ये सभी व्यय ऐसे हैं जिनका संबंध आर्थिक कार्यकलापों की एक से अधिक किस्मों से है।

and communications include Railways, Posts, Telecummunications, ports, shipping, civil aviation, roads etc. 'Other economic services' is a residual category which includes items like outlays on multipurpose projects, and States' share in small savings. The block grants and loans granted by the Centre to the States for plan assistance, although shown separately, also belong to the same category. All these expenditures are as such concerned with more than one type of economic activity.

अन्त में, कुछ ऐसी किस्म के व्यय है जिनका संबंध विशिष्ट प्रयोजनों के साथ नहीं जोड़ा जा सकता और उनका वर्गीकरण अनावंटनीय श्रेणी के अन्तर्गत किया गया है इसमें शामिल व्यय की मुख्य किस्में है-ब्याज अदायगी, पेंशन, खाद्य, खाद्य तेल तथा नियंत्रित कपड़े पर दी जाने वाली उपभोक्ता आर्थिक सहायता तथा राज्य सरकारों को साविधिक सहायता, अनुदान अर्थोपाय अग्रिम और विशेष ऋण । यद्यपि खपत संबंधी आर्थिक सहायता की रकमें अनावंटनीय मानी गई है किन्तु अन्य आर्थिक सहायता की रकमें संगत कार्य श्रेणियों में आवंटित की गई है । अनावंटनीय श्रेणी में विदिशों को रकमों का अन्तरण जैसे नेपाल और भूटान को अनुदान तथा विदेशो को प्रक्रियात्मक ऋण तथा अन्य ऋण आते है । जहां तक अन्तर्राष्ट्रीय संगठनों को दिए जाने वाले अभिदानों का संबंध है, यह बात स्पष्ट है कि संयुक्त राष्ट्रसंघ के विश्व-स्वास्थ्य संगठन तथा खाद्य और कृषि संगठन को दिए जाने वाले अंशदान उनके अपने-अपने कार्य संबंधी शीर्षकों (जैसे स्वास्थ्य तथा कृषि) के अन्तर्गत आते है किन्तु संयुक्त राष्ट्र संघ को अंशदान तथा अन्तर्राष्ट्रीय मुद्रा निधि, अन्तर्राष्ट्रीय पुनर्निर्माण और विकास बैंक आदि को दिए जाने वाले सामान्य सेवाएं के अन्तर्गत दिखाए गए है ।

Finally, there are certain types of expenditure which cannot be related to specific purposes and have been grouped under the category "unallocable". The main types of expenditures included here are interest payment, pensions, consumer subsidies (such as on food, edible oils and controlled cloth) and such transfers to the State Governments as statutory grants-in-aid, and special loans. While consumption subsidies have been treated as unallocable, other subsidies such as subsidies for fertilisers, cotton and exports have been allocated to the relevant functional categories. The unallocable category also includes transfer to foreign countries e.g. grants to Nepal and Bhutan, technical credits and other loans to foreign countries. As regards contributions to international organisations, it may be noted that while contributions to such organisations as World Health Organisation and Food and Agricultural Organisation of the United Nations, appear under the respective functional heads (viz. health and agriculture) contribution to the United Nations and also subscription to IMF, IBRD etc., are shown under General Services.

आर्थिक श्रेणियो तथा कार्यों के द्वारा केन्द्रीय सरकार के व्ययो के सम्मिलित वर्गीकरण मे, जैसा इस पुस्तिका में बताया गया है, स्तम्भ (कालम) कार्य संबंधी वर्गों के अनुरूप है और पंक्तियां उनके आर्थिक स्वरूप को सूचित करती है जिसका आधार आर्थिक वर्गीकरण है । स्तम्भों के अनुसार पढ़ते हुए आर्थिक शीर्षकों के अन्तर्गत प्रत्येक कार्य संबंधी श्रेणी का ब्योरा देखा जा सकता है, उदाहरण के लिए इससे यह पता चलता है कि प्रत्यक्ष चालू व्यय के रूप में शिक्षा पर कुल कितना व्यय हुआ, अनुदानों और ऋणों के रूप में कितना व्यय हुआ और पूंजी निर्माण अर्थात् स्कूली इमारतों आदि के रूप में कितना खर्च हुआ । इसी प्रकार पंक्तियों के साथ-साथ पढ़ते हुए यह पता चलता है कि खपत पूंजी पर होने वाले व्यय में से प्रशासनिक सेवाओं के लिए और सामाजिक तथा आर्थिक शक्ति तैयार करने पर कितना खर्च किया गया। इस प्रकार सम्मिलित वर्गीकरण केन्द्रीय सरकार के कुल व्यय का द्योतक है जिसे, खपत, सकल पूंजी निर्माण, चालू और पूंजीगत वित्तीय निवेशों तथा ऋणों और अग्रिमों की मदों में उसके मुख्य प्रशासनिक, सामाजिक तथा आर्थिक प्रयोजनों के हिसाब से बांट कर दिखाया गया है।

In the cross-classification of the Central Government expenditure by economic categories and by functions, as presented in this brochure, columns correspond to the functional categories and rows indicate their economic character, as derived from the Economic Classification. Thus reading along columns one may find out the breakdown of each functional category under economic heads; for instance, it would show as to how much of the total expenidutre on education is in the form of direct current expenditure, how much in the form of grants and loans and how much in the form of capital formation i.e. construction of school buildings, etc. Similarly, reading along rows, one may find out as to how much of the expenditure on consumption or capital formation is for administrative services and how much for building up social and economic potential. The cross-classification thus shows the total expenditure of the Central Government as broken down into consumption, gross capital formation, current and capital transfers and financial investments and loans and advances and as related to their broad administrative, social and economic purposes.

वर्ष 1992-93 के बजट-पत्रो का संक्षिप्त परिचय

वार्षिक वित्तीय विवरण

संविधान के अनुच्छेद 112 के अनुसार प्रत्येक वित्तीय वर्ष के सम्बन्ध मे, जो 1 अप्रैल से 31 मार्च तक होता है, भारत सरकार की अनुमानित प्राप्तियो और व्यय का विवरण संसद मे प्रस्तुत किया जाता है । "वार्षिक वित्तीय विवरण" नामक यह विवरण मुख्य बजट-दस्तावेज होता है । वार्षिक वित्तीय विवरण मे सरकार की प्राप्तियो और अदायगियो को तीन भागों मे, जिनके अनुसार सरकारी लेखे रखे जाते हैं, दिखाया जाता है । ये भाग इस प्रकार है :- (i) समेकित निधि (ii) आकस्मिकता निधि और (iii) लोक खाता ।

2. सरकार को प्राप्त होने वाले सभी राजस्वो से, सरकार द्वारा लिए जाने वाले उधारो से और उसके द्वारा दिए गए ऋणों की वसूलियो से जो धनराशिया प्राप्त होती है वे सब "समेकित निधि" मे दिखाई जाती हैं । सरकार का सभी खर्च समेकित निधि से किया जाता है और जब तक संसद की स्वीकृति नही मिल जाती तब तक इस निधि में से कोई भी रकम खर्च नही की जा सकती।

3. कभी-कभी ऐसे अवसर भी आ सकते हैं जब सरकार को संसद की स्वीकृति मिलने के पहले ही कुछ ऐसा बहुत जरुरी खर्च करना पड़ता है जिसका पहले से अन्दाजा नही रहता । इस तरह का खर्च आकस्मिकता निधि से किया जाता है । यह निधि अग्रदाय के रूप मे राष्ट्रपति के पास रहती है । इस प्रकार आकस्मिकता निधि से जो रकम खर्च की जाती है उसके बारे मे, बाद मे संसद का अनुमोदन ले लिया जाता है और संसद की स्वीकृति से समेकित निधि मे से उतनी ही रकम निकाल कर वापस आकस्मिकता निधि मे डाल दी जाती है । इस समय, इस निधि के लिए संसद द्वारा निर्धारित कुल राशि 50 करोड़ रूपए है ।

4. सरकार की सामान्य प्राप्तियो और व्यय के अतिरिक्त, जिनका सम्बन्ध समेकित निधि से होता है, सरकारी खातो में कुछ अन्य लेन-देनों जैसे भविष्य निधियों के सम्बन्ध मे लेन-देन, अल्प बचत संग्रह, अन्य जमा आदि का हिसाब भी रखा जाता है । सरकार इन लेन-देनों के सम्बन्ध मे लगभग बैंकर के रूप मे कार्य करती है । इस तरह जो रकमे प्राप्त होती है उन्हें लोक खाते मे दिखाया जाता है और सम्बन्धित संवितरण इसी मे से रकम निकाल कर किया जाता है । आम तौर से लोक खाते में दिखाई जाने वाली रकम सरकार की निधिया नही होती, क्योकि इस धनराशि को किसी न किसी समय उन व्यक्तियो या प्राधिकारियों को, जो इसे जमा कराते हैं, वापस देना होता है। इसलिए लोक खाते से अदायगी करने के लिए संसद की स्वीकृति लेना आवश्यक नहीं होता । सरकार की आय का कुछ भाग, कुछ मामलो मे, खास-खास कार्यों के लिए, जैसे चीनी विकास के लिए या वाणिज्यिक उपक्रमों मे जो मशीनरी आदि पुरानी पड़ गई हो उसके स्थान पर नई मशीनरी लाने आदि के लिए अलग-अलग निधियो मे अलग निकाल कर रख लिया जाता है । यह रकम संसद की स्वीकृति लेकर समेकित निधि से निकाली जाती है और विशेष कार्यों पर खर्च किए जाने के लिए लोक खाते मे जमा रखी जाती है । फिर भी, कार्य-विशेष पर जो खर्च किया जाता है उसे संसद के सम्मुख उसकी स्वीकृति के लिए फिर प्रस्तुत किया जाता है, हालाकि यह रकम निधियो को अन्तरित किए जाने के लिए पहले ही संसद द्वारा निर्धारित की हुई होती है।

5. संविधान के अनुसार, बजट मे राजस्व खाते के व्यय को अन्य व्यय से अलग दिखाना होता है । इसलिए सरकार का बजट (i) राजस्व बजट और (ii) पूजी बजट, दो भागो मे बंटा होता है।

6. राजस्व बजट मे सरकार को राजस्व (कर-राजस्व और अन्य राजस्व) से होने वाली आय तथा इन राजस्वो से किया जाने वाला व्यय शामिल होता है । कर-राजस्व में संघ द्वारा लगाए गए करो और अन्य शुल्को से प्राप्त होने वाली प्राप्तिया शामिल होती है । वार्षिक वित्तीय विवरण मे दर्शाए गए राजस्व प्राप्तियों के अनुमान में वित्त विधेयक में किए गए कराधान संबधी प्रस्तावों का प्रभाव शामिल होता है । सरकार की अन्य प्राप्तियो मे मुख्यतः उसके द्वारा निवेशित पूजी पर ब्याज और लाभाश, फीस तथा सरकार द्वारा प्रदान की गई सेवाओ के लिए अन्य प्राप्तिया शामिल होती है। राजस्व व्यय सरकारी विभागो और विभिन्न सेवाओ के सामान्य संचालन, सरकार द्वारा लिए गए ऋण के ब्याज प्रभारो आदि पर होता है । मोटे तौर पर ऐसे सभी व्यय जिनसे किसी परिसम्पत्ति का निर्माण नही होता, राजस्व व्यय माना जाता है । राज्य सरकारो और अन्य पार्टियो को दिए जाने वाले सभी अनुदान भी राजस्व व्यय माने जाते है यद्यपि, ऐसे कुछ अनुदान परिसम्पत्तियों के सृजन के लिए हो सकते है ।

7. पूजी बजट में पूजीगत प्राप्तिया और भुगतान शामिल है । पूजीगत प्राप्तियो की मुख्य मदे ये है :- सरकार द्वारा जनता से लिए गए उधार जिन्हे बाजार उधार कहा जाता है, राजकोषीय हुडियो की बिक्री के जरिए सरकार द्वारा रिजर्व बैंक और अन्य पक्षो से लिए जाने वाले उधार, विदेशी सरकारो और संस्थाओ से प्राप्त उधार और राज्यो तथा संघ राज्य क्षेत्रो की सरकारो और अन्य पक्षो को केन्द्रीय सरकार द्वारा दिए गए उधार की वसूली से होने वाली वसूलिया । पूजीगत भुगतान मे ये मदे शामिल होती है :- जमीन, इमारतो, मशीनो, उपकरणो जैसी परिसम्पत्तियो की प्राप्ति पर किया जाने वाला पूजी व्यय और शेयरो आदि मे लगाई जाने वाली पूजी और राज्यो और संघ राज्य क्षेत्रो की सरकारो, सरकारी कंपनियो, निगमो और अन्य पार्टियो आदि को केन्द्रीय सरकार द्वारा दिए जाने वाले उधार और अग्रिम । पूजी बजट मे लोक खाते के लेन-देन भी शामिल होते हैं ।

लेखाओ का वर्गीकरण

8. वार्षिक वित्तीय विवरण मे प्राप्तियो और भुगतानो के अनुमान तथा अनुदानो की मांगो मे व्यय के अनुमान लेखाओ के वर्गीकरण की उसी प्रणाली के अनुसार दिखाए जाते है जो संविधान के अनुच्छेद 150 के अन्तर्गत विहित है। इस वर्गीकरण का उद्देश्य संसद और जनता को यह समझने मे सहायता देना है कि प्रत्येक कार्यक्रम के लिए कितना धन निर्धारित किया गया है और इस तरह खर्च करने मे सरकार के उद्देश्य क्या है ।

9. संविधान के अनुसार, खर्च की कुछ मदे, जैसे राष्ट्रपति की परिलब्धिया, राज्य सभा के सभापति और उप-सभापति तथा लोक सभा के अध्यक्ष और उपाध्यक्ष के वेतन और भत्ते, उच्चतम न्यायालय के न्यायाधीशों और भारत के नियंत्रक एवं महालेखा परीक्षक के वेतन, भत्ते और पेंशने, सरकार द्वारा लिए गए उधारो के ब्याज और उनकी वापसी-अदायगियो और अदालती डिक्रियो के सम्बन्ध मे की गई अदायगिया, समेकित निधि पर भारित होती है और इन्हे लोकसभा द्वारा स्वीकृति देने की आवश्यकता नही है । वार्षिक वित्तीय विवरण मे समेकित निधि पर भारित खर्च को अलग से दिखाया जाता है ।

अनुदानों की मांगें

10. वार्षिक वित्तीय विवरण में समेकित निधि से किए जाने वाले व्यय के अनुमान दिए गए हैं। ये अनुमान संविधान के अनुच्छेद 113 के अनुसरण में अनुदानों की मांगों के रूप में प्रस्तुत किए जाते हैं और इनकी स्वीकृति लोक सभा से लेनी होती है । सामान्यतः, प्रत्येक मंत्रालय अथवा विभाग के सम्बन्ध में एक मांग प्रस्तुत की जाती है । लेकिन बड़े मंत्रालयों या विभागों के सम्बन्ध में एक से अधिक मांगें प्रस्तुत की जाती हैं । प्रायः प्रत्येक मांग में एक सेवा के लिए कुल आवश्यक व्यवस्था दी गई होती है अर्थात् इसमें राजस्व से किया जाने वाला व्यय, पूंजी व्यय, राज्यों और संघ राज्य क्षेत्रों की सरकारों को दिए जाने वाले अनुदान और उस सेवा के सम्बन्ध में उधारों और अग्रिमों के लिए की गई व्यवस्था शामिल होती है । विधानमंडल रहित संघ राज्य क्षेत्रों के संबंध में ऐसे प्रत्येक संघ राज्य क्षेत्र के लिए एक अलग मांग पेश की जाती है । जिन मामलों में किसी सेवा से संबद्ध व्यवस्था पूर्ण रूप से समेकित निधि पर भारित व्यय के लिए होती है, जैसे ब्याज की अदायगियां, तो उस व्यय के लिए, मांग से बिल्कुल भिन्न , एक अलग विनियोग प्रस्तुत किया जाता है और उसके लिए संसद से स्वीकृति लेने की आवश्यकता नहीं होती । किन्तु किसी ऐसे सेवा व्यय के मामले में, जिसमें स्वीकृत एवं भारित दोनों मदें शामिल हों, तो उस सेवा के लिए प्रस्तुत की जाने वाली मांग में भारित व्यय भी शामिल कर लिया जाता है लेकिन स्वीकृत और भारित व्यवस्थाएं उस मांग में अलग-अलग दिखाई जाती हैं ।

11. अनुदानों की मांगें वार्षिक वित्तीय विवरण के साथ लोक सभा में प्रस्तुत की जाती हैं। प्रत्येक मांग में ऊपर की ओर पहले "स्वीकृत" और "भारित" व्यय तथा साथ ही मांग में सम्मिलित "राजस्व" और "पूंजी " व्यय के अलग-अलग जोड़ दिखाए जाते हैं । इसके अलावा जिस खर्च के लिए मांग प्रस्तुत की जाती है उसका कुल जोड़ भी इसमें दिखाया जाता है । इसके बाद विभिन्न मुख्य लेखा शीर्षों के अन्तर्गत व्यय के अनुमान दिए जाते हैं । प्रत्येक मुख्य शीर्ष के अन्तर्गत व्यय का आयोजना और आयोजना-भिन्न विभाजन भी दिखाया जाता है । खातों में व्यय में से घटाई गई वसूलियां भी दिखाई जाती हैं । पुस्तक के प्रारम्भ में अनुदानों की मांगों का सारांश दिया जाता है तथा इसके अंत में "नई सेवा" अथवा "नई सेवा के साधनों" जैसे कि नई कम्पनी, उपक्रम का निर्माण, अथवा नई योजना का शुरू किया जाना आदि का विवरण भी दिया जाता है ।

वित्त विधेयक

12. संसद द्वारा अनुमोदित अवधि के आगे नए कर लगाने, विद्यमान कर ढांचे के संशोधन अथवा विद्यमान कर ढांचे को जारी रखने से संबंधित सरकार के प्रस्तावों को वित्त विधेयक के जरिए संसद में प्रस्तुत किया जाता है ।

13. संविधान की शर्तों के अनुसार प्रस्तुत किए जाने वाले बजट दस्तावेजों को कुछ विशेष कानूनी और प्रक्रियात्मक आवश्यकताएं पूरी करनी होती हैं और इसलिए स्वयं उनके द्वारा बजट की प्रमुख विशेषताओं का स्पष्ट संकेत नहीं दिया जा सकता । बजट के सरल बोध को सुविधाजनक बनाने के लिए बजट के साथ कुछ विशेष व्याख्यात्मक दस्तावेज प्रस्तुत किए जाते हैं।

बजट का सार

14. बजट का सार नामक पुस्तक में, मोटे तौर पर कर-राजस्व और अन्य प्राप्तियों के ब्यौरे के साथ-साथ, संक्षिप्त रूप में प्राप्तियों और भुगतानों का विवरण दिया गया है । इस पुस्तक में मोटे तौर पर आयोजना और आयोजना-भिन्न व्यय, आयोजना परिव्यय के क्षेत्रवार आवंटन और केन्द्रीय सरकार द्वारा राज्य सरकारों और संघ राज्य क्षेत्रों की सरकारों को अन्तरित किए गए साधनों का

ब्योरा भी दिया गया है । इस पुस्तक में राजस्व घाटा, समग्र घाटा और केन्द्रीय सरकार का राजकोषीय घाटा भी दिखाया जाता है । सरकार की राजस्व प्राप्तियों की तुलना में अधिक राजस्व व्यय सरकार का राजस्व घाटा होता है । पूंजी व्यय और पूंजी प्राप्तियों को मिलाकर भी किसी एक वर्ष की प्राप्तियों और व्यय में अन्तर होता है । यह अन्तर, जो 91 दिन की राजकोषीय हुण्डिया (जोकि अधिकांशतः रिजर्व बैंक द्वारा धारित होती है) जारी करके पूरा किया जाता है, समग्र बजटीय घाटा होता है । राजकोषीय हुण्डियों के जरिए इस उधार के अलावा सरकार बहुत-सी स्कीमों के तहत निधियां उधार लेती है, जो पूंजी प्राप्तियों का भाग होती है । एक ओर, राजस्व, पूंजी और वापसी अदायगियों को घटाकर ऋणों के द्वारा सरकार के कुल व्यय और दूसरी ओर, सरकार की राजस्व प्राप्तियां और पूंजी प्राप्तियां, जिनका स्वरूप उधार का नहीं होता परन्तु जो अन्तिम रूप से सरकार को प्राप्त होती है, के बीच का अन्तर राजकोषीय घाटा होता है ।

व्यय बजट, खंड-I

15. व्यय बजट, खंड I में विभिन्न मंत्रालयों/विभागों के राजस्व तथा पूंजी संवितरणों का ब्योरा तथा इनमें से प्रत्येक के सम्बन्ध में "आयोजना" और "आयोजना-भिन्न" के अन्तर्गत अनुमानों की जानकारी दी गई है । इसमें विभिन्न प्रकार के व्यय का विश्लेषण भी किया जाता है और अनुमानों में हुई घट-बढ़ के स्थूल कारण बताए जाते है ।

16. लेखा तथा बजट संबंधी वर्तमान प्रणाली के अन्तर्गत कुछ एक प्रकार की प्राप्तियों को जैसे एक विभाग द्वारा दूसरे विभाग को की गई अदायगी और पूंजी परियोजनाओं या योजनाओं से होने वाली आय के उस विभाग के खर्च में से जिसे यह रकम मिलेगी, घटा दिया जाता है । अनुदानों की मांगों में व्यय के जो अनुमान दिए गए है वे सकल व्यय के अनुमान हैं जबकि वार्षिक वित्तीय विवरण में दिए गए अनुमान, जैसाकि लेखाओं से पता चलता है, निवल व्यय के अनुमान होते है, अर्थात् इसमें से वसूलियों को घटा दिया जाता है । व्यय बजट पुस्तक में कतिपय अन्य शोधन भी किए गए है जैसे संबंधित प्राप्तियों का व्यय घटाना ताकि प्राप्तियों और व्यय के आंकड़े बढ़ने से बचा जा सके और विभिन्न व्यय की मात्रा का बेहतर मूल्यांकन हो सके । अलग-अलग अनुबन्धों में, सरकार द्वारा दी गई गारंटियों, जो मार्च, 1991 के अन्त तक बकाया थी, तथा अन्तर्राष्ट्रीय निकायों को किए गए अंशदान दिखाए गए है । इस पुस्तक में विभिन्न सरकारी विभागों की स्थापना की अनुमानित संख्या और उनके लिए की गई व्यवस्था दर्शाने वाले एक विवरण भी शामिल किया गया है ।

व्यय बजट, खण्ड-II

17. अनुदानों की मांगों में शामिल प्रस्तावित व्यय के उद्देश्यों को समझने के लिए, मांगों में शामिल प्रमुख कार्यक्रमों के व्यय की विभिन्न मदों और चालू वर्ष के मूल बजट अनुमानों और संशोधित बजट अनुमानों के बीच के अन्तर के कारण और बजट वर्ष की आवश्यकताएं इस पुस्तक में दी गई हैं।

प्राप्ति बजट

18. "वार्षिक वित्तीय विवरण" में शामिल प्राप्तियों के अनुमानों का और आगे विश्लेषण "प्राप्ति बजट" नामक पुस्तक में किया गया है । इस पुस्तक में राजस्व प्राप्तियों और पूंजी प्राप्तियों का ब्योरा दिया जाता है और अनुमानों को स्पष्ट किया जाता है । प्राप्तियों की पिछले वर्षों की प्रवृत्तियों और प्राप्त हुई विदेशी सहायता का ब्योरा भी इसमें दिया जाता है।

19. वित्त विधेयक में दिए गए कराधान संबंधी प्रस्तावों को समझने में सुविधा देने के लिए विधेयक की व्यवस्थाओं की वित्त विधेयक में व्यवस्था का व्याख्यात्मक ज्ञापन शीर्षक वाली पुस्तक में व्याख्या की जाती है ।

अनुदानों की ब्यौरे-वार मांगे

20. बजट प्रस्तुत करने के कुछ समय के बाद अनुदानो की मांगो के पश्चात् अनुदानों की ब्यौरे-वार मांगे लोक सभा के पटल पर रखी जाती है लेकिन ये अनुदानो की मांगो पर चर्चा से पूर्व रखी जाती है । इन अनुदानों की ब्यौरे-बार मांगों में अनुदानों की मांगो में शामिल व्यवस्था के और ब्यौरे के साथ-साथ पूर्ववर्ती वर्ष के दौरान वास्तविक व्यय दिया जाता है । प्रत्येक कार्यक्रम/संगठन, जहां कहीं भी अन्तर्ग्रस्त राशि 10 लाख रूपए से कम नहीं है, से संबधित अनुमानो का विभाजन बहुत से ब्यौरे-वार शीर्षों के अन्तर्गत दिया जाता है जो उस कार्यक्रम, जैसे वेतन, मजदूरी, यात्रा व्यय, सामग्री तथा उपस्कर, सहायता अनुदान आदि, पर किए गए व्यय के स्वरूप और श्रेणियों को विर्दिष्ट करता है । इन ब्यौरे-बार मांगो के अन्त में खातों मे व्यय को घटाकर दी गई वसूलियों का ब्यौरा दिखाया जाता है । मुख्य कार्यक्रमो और स्कीमों के वस्तुपूरक और वित्तीय पहलूओ को कार्य-निष्पादन बजटो में शीमिल किया जाता है, जो मंत्रालय/विनभागो द्वारा संसद मे अलग से प्रस्तुत किए जाते हैं ।

राज्यों को अन्तरित साधन

21. राज्य सरकारों को विभिन्न आयोजना और आयोजना-भिन्न योजनाओ के लिए अनुदान और उधार दिए जाते हैं । इसके अलावा, केन्द्रीय सरकार द्वारा आय-कर, संघ उत्पाद-शुल्कों और संपदा-शुल्क के रूप मे संग्रहीत कर-राजस्व की काफी बड़ी राशि भी राज्य सरकारों को दी जाती है। कुछ राज्यो को वित्त आयोग की सिफारिशों के अनुसार उनके राजस्व साधनों की कमी को पूरा करने के लिए अनुदान भी दिए जाते है । राज्यो और संघ राज्य क्षेत्रो को अन्तरित कुल साधनों की जानकारी "बजट का सार" नामक पुस्तक में एक विवरण में दी गई है । करों, सहायता अनुदानों और उधारों के रूप मे राज्यों और संघ राज्य क्षेत्रो को दी जाने वाली राशियो का और अधिक ब्यौरा व्यय बजट, खंड-I मे दिया गया है । संघ उत्पाद-शुल्कों का हिस्सा और अधिकांश अनुदान तथा उधार वित्त मंत्रालय द्वारा दिए जाते है और यह इस मंत्रालय द्वारा प्रस्तुत की जाने वाली "राज्य सरकारो को अन्तरण" नामक मांग में शामिल किए जाते हैं । जो अनुदान और उधार अन्य मंत्रालयों द्वारा दिए जाते हैं, उन्हें उन मंत्रालयो की मांगो में दिखाया जाता है ।

आयोजना परिव्यय

22. केन्द्रीय सरकार के कुल व्यय मे आयोजना व्यय का अनुपात काफी अधिक होता है । विभिन्न मंत्रालयो की अनुदानो की मांगो में, प्रत्येक शीर्ष के अन्तर्गत आयोजना व्यय को आयोजना-भिन्न व्यय से अलग दिखाया जाता है । व्यय बजट, खण्ड-I मे प्रत्येक मंत्रालय के कुल आयोजना खर्च को विभिन्न विकास शीर्षों के अन्तर्गत दिखाया गया है और आयोजना के अधिक महत्वपूर्ण कार्यक्रमो और योजनाओं के लिए बजट में की गई खर्च की व्यवस्था को स्पष्ट करके दिखाया गया है ।

निष्पादन बजट

23. विकासात्मक कार्यकलापो से संबधित सभी मंत्रालयों/विभागो द्वारा निष्पादन बजट तैयार किए जाते हैं और संसद सदस्यों को प्रचलित किया जाता है । निष्पादन बजट कार्यों, कार्यक्रमों और कार्यकलापों के संबंध मे मंत्रालय/विभाग का बजट प्रस्तुत करता है और यह केन्द्रीय क्षेत्र की प्रमुख परियोजनाओं/कार्यक्रमों, जिनकी लागत 100 करोड़ रुपये और इससे अधिक अनुमानित है, के संबंध में अलग से मूल्यांकन रिपोर्ट देता है । इसमें मंत्रालय/विभाग के अधीन विभिन्न सरकारी क्षेत्र के उपक्रमों के कार्यक्रमो और निष्पादन पर एक विवरण भी शामिल होता है, जिसमे अन्य बातो

के साथ-साथ स्थापित और उपयोग की गई क्षमता, वस्तुपरख लक्ष्यों और उपलब्धियों, प्रचालन परिव्यय, पूंजी पर आय आदि का संकेत किया जाता है । यह निष्पादन बजट विकास कार्यक्रमों को कार्यन्वयन में प्रशासनिक और वित्तीय नियंत्रण के हथियार के रूप में प्रबन्ध की सेवा करता है।

सरकारी क्षेत्र के उद्यम

24. केन्द्रीय सरकार द्वारा किए जाने वाले आयोजना- व्यय का अधिकाश सरकारी क्षेत्र के उद्यमों पर खर्च होता है । सरकार द्वारा इन उद्यमों के परिव्यय की वित्त-व्यवस्था के लिए उनकी शेयर पूंजी में धन लगाकर या उन्हे उधार देकर बजटीय सहायता दी जाती है । व्यय बजट, खंड I में सरकारी क्षेत्र के उद्यमों के 1991-92 और 1992-93 मे आयोजना और आयोजना-भिन्न प्रयोजनों के लिए दी गई पूंजी और दिए गए उधारों के अनुमानों और इन उद्यमों को अपनी आयोजनाओं के वित्तपोषण के लिए उपलब्ध बजट-बाह्य साधनों का ब्यौरा दिया गया है । सरकारी क्षेत्र के उद्यमों के कार्यचालन पर एक ब्यौरेवार रिपोर्ट 'सरकारी क्षेत्र के उद्यमों की समीक्षा' शीर्षक प्रलेख में दी गई है, जो उद्योग मंत्रालय द्वारा अलग से प्रकाशित की गई । विभिन्न प्रशासनिक मंत्रालयों के नियंत्रण के अधीन उद्यमों को कार्यचालन की रिपोर्ट विभिन्न मंत्रालयों की वार्षिक रिपोर्टों में भी दी गई है, जो संसद सदस्यों को अलग से प्रचालित की गई थी । प्रत्येक सरकारी कम्पनी की वार्षिक रिपोर्ट और लेखापरीक्षित खाते अलग से संसद के सभा पटल पर रखे जाते हैं । इसके अलावा, विभिन्न सरकारी क्षेत्र के उद्यमों के कार्यचालन पर भारत के नियंत्रक और महालेखा परीक्षक की रिपोर्ट भी संसद के सभापटल पर रखी जाती हैं।

वाणिज्यिक विभाग

25. रेलवे और दूर-संचार सेवाए सरकार द्वारा विभागीय रूप से चलाए जाने वाले प्रमुख वाणिज्यिक उपक्रम हैं । रेलवे का बजट और रेल व्यय से संबंधित अनुदानों की मांगें संसद मे अलग से प्रस्तुत की जाती है । रेलवे की कुल प्राप्तियों और व्यय को भारत सरकार के वार्षिक वित्तीय विवरण मे शामिल किया जाता है । लेकिन, इन विभागों के वास्तविक कार्यकरण को प्रदर्शित करने और न कि प्राप्तियों अथवा व्यय को बढ़ाने के लिए, प्राप्ति बजट और व्यय बजट खण्ड-I और खण्ड-II मे दिखाया गया व्यय, प्राप्तियों को घटाकर लिया गया है । दूर-संचार विभाग की अनुदानों की मांगें केन्द्रीय सरकार की अन्य अनुदानों की मांगो के साथ प्रस्तुत की जाती हैं।

26. वार्षिक वित्तीय विवरण में दर्शाई गई रक्षा विभाग की प्राप्तियों और व्यय को रक्षा सेवाओं के अनुमानों के प्रलेख मे अधिक विस्तृत रूप से बताया जाता है, जो रक्षा मंत्रालय की ब्यौरेवार अनुदानों की मांगो से साथ प्रस्तुत किए जाते है ।

27. राज्यों और संघ राज्य क्षेत्रों की सरकारों के अलावा निकायों को दिए गए अनुदानों के ब्यौरे गैर-सरकारी निकायों को अदा किए गए सहायता अनुदानों के विवरणों मे दिए गए हैं, जो विभिन्न मंत्रालयों के ब्यौरेवार अनुदानों की मांगो के साथ सलग्न होते हैं । व्यय बजट, खंड I के अनुबन्ध 6 मे 5 लाख रुपए (आवर्ती) अथवा 10 लाख (अनावर्ती) से अधिक के उन सहायता-अनुदानों का विवरण दिया गया है जो गैर-सरकारी संस्थाओं, संगठनों और व्यक्तियों को 1990-91 में मंजूर किए गए थे ।

वार्षिक रिपोर्ट

28. वर्ष 1991-92 के दौरान प्रत्येक मत्रालय/विभाग के कार्यकलापो का विस्तृत हिसाब वार्षिक रिपोर्ट प्रलेख मे दिया जाता है, जो प्रत्येक मत्रालय/विभाग द्वारा अलग से तैयार किया जाता है और ससद सदस्यो को अनुदानो की मागो पर विचार-विमर्श के समय प्रचालित किया जाता है।

आर्थिक समीक्षा

29. केन्द्रीय सरकार का बजट मात्र प्राप्तियों और व्यय का विवरण नही है । स्वतन्त्रता प्राप्ति के पश्चात पंचवर्षीय योजना शुरू किए जनो से यह भी सरकारी नीति का एक महत्वपूर्ण विवरण बन गया है । बजट देश के आर्थिक-जीवन को प्रतिबिम्बित और उसे स्वरूप प्रदान करता है। वर्ष 1991-92 के दौरान देश में आर्थिक प्रवृत्तियो की पृष्ठभूमि बजट मे प्रतिबिम्बित ससाधनो के जुटाने और उनके आवटन में अधिक सहायक होगी । ससद सदस्यो को पहले परिचालित 1991-92 की आर्थिक समीक्षा प्रलेख इस पृष्ठभूमि को बताता है ।आर्थिक समीक्षा कृषि और औद्योगिक उत्पादन, मुद्रा आपूर्ति, कीमतो, आयातो और निर्यातो और ऐसे अन्य संगत आर्थिक कारको से संबंधित प्रवृत्तियो का विश्लेषण करता है, जिनका बजट पर प्रभाव पड़ता है।

30. सरकार को बजट का अर्थ-व्यवस्था पर समग्र रूप से प्रभाव पड़ता है । सरकारी प्राप्तियों में बढ़ोतरी और व्यय का अर्थव्यवस्था के अन्य क्षेत्रो पर प्रभाव के लिए यह जरूरी है कि उन्हें आर्थिक आकार के रूप मे समूहबद्ध किया जाए, उदाहरणार्थ पूजी-निर्माण के लिए अलग से कितना रखा गया है, सरकार द्वारा प्रत्यक्ष रूप से कितना खर्च किया है, सरकार द्वारा अर्थव्यवस्था में अन्य क्षेत्रों को अनुदानो, ऋणो आदि के रूप मे कितना अतरित किया गया है, यह विशलेषण केन्द्रीय सरकार के बजट के आर्थिक और कार्यचालन वर्गीकरण में किया गया है, जो कि वित्त मंत्रालय द्वारा अलग से तैयार किया जाता है ।

विनियोग विधेयक

31. लोक सभा द्वारा अनुदानो की मांगो को पारित होने के बाद, इस प्रकार पारित राशियो और समेकित निधि पर भारित व्यय को पूरा करने के लिए अपेक्षित राशि को समेकित निधि मे निकालने की ससद की स्वीकृति विनियोग विधेयक के माध्यम से मांगी गई है । सविधान के अनुच्छेद 114(3) के अन्तर्गत संसद द्वारा कानून बनाए बिना कोई भी राशि समेकित निधि से नही निकाली जा सकती ।

32. अनुदानो की मांगो के विस्तृत विचार की पद्धति नए वित्तीय वर्ष के शुरू होने से पहले पूरी नही होती है । सरकार को पहली अप्रैल से विनियोग विधेयक को अधिनियम बनाए जाने की अवधि तक अपने सामान्य कार्यकलापों को जारी रखे जाने के लिए विनियोग विधेयक (लेखानुदान) के माध्यम से संसद से एक लेखानुदान मांगा जाता है ।

KEY TO THE

BUDGET DOCUMENTS 1992-93

Annual Financial Statement

Under article 112 of the Constitution, a statement of estimated receipts and expenditure of the Government of India has to be laid before Parliament in respect of every financial year which runs from 1st April to 31st March. This statement titled "*Annual Financial Statement*" is the main Budget document. The Annual Financial Statement shows the receipts and payments of Government under the three parts in which Government accounts are kept: (i) Consolidated Fund, (ii) Contingency Fund and (iii) Public Account.

2. All revenues received by Government, loans raised by it, and also its receipts from recoveries of loans granted by it, form the *Consolidated Fund*. All expenditure of Government is incurred from the Consolidated Fund and no amount can be withdrawn from the Fund without authorisation from Parliament.

3. Occasions may arise when Government may have to meet urgent unforeseen expenditure pending authorisation from Parliament. The *Contingency Fund* is an imprest placed at the disposal of the President to incur such expenditure. Parliamentary approval for such expenditure and for withdrawal of an equivalent amount from the Consolidated Fund is subsequently obtained and the amount spent from Contingency Fund is recouped to the Fund. The corpus of the Fund authorised by the Parliament, at present, is Rs.50 crores.

4. Besides the normal receipts and expenditure of Government which relate to the Consolidated Fund, certain other transactions enter Government accounts, in respect of which, Government acts more as a banker, for example, transactions relating to provident funds, small savings collections, other deposits etc. The moneys thus received are kept in the *Public Account* and the connected disbursements are also made therefrom. Generally speaking, Public Account funds do not belong to Government and have to be paid back some time or the other to the persons and authorities who deposited them. Parliamentary authorisation for payments from the *Public Account* is, therefore, not required. In a few cases, a part of the revenue of Government is set apart in separate funds for expenditure on specific objects like sugar development, replacement of depreciated assets of commercial undertakings etc. These amounts are withdrawn from the *Consolidated Fund* with the approval of Parliament and kept in the *Public Account* for expenditure on the specific objects. The actual expenditure on the specific objects is, however, again submitted for

vote of Parliament even though the moneys have already been earmarked by Parliament for transfer to the funds.

5. Under the Constitution, Budget has to distinguish expenditure on revenue account from other expenditure. Government Budget, therefore, comprises (i) Revenue Budget and (ii) Capital Budget.

6. *Revenue Budget* consists of the revenue receipts of Government (tax revenues and other revenues) and the expenditure met from these revenues. Tax revenues comprise proceeds of taxes and other duties levied by the Union. The estimates of revenue receipts shown in the Annual Financial Statement take into account the effect of the taxation proposals made in the Finance Bill. Other receipts of Government mainly consist of interest and dividend on investments made by Government, fees, and other receipts for services rendered by Government. Revenue expenditure is for the normal running of Government departments and various services, interest charges on debt incurred by Government etc. Broadly speaking, expenditure which does not result in creation of assets is treated as revenue expenditure. All grants given to State Governments and other parties are also treated as revenue expenditure even though some of the grants may be for creation of assets.

7. *Capital Budget* consists of capital receipts and payments. The main items of capital receipts are loans raised by Government from public which are called Market Loans, borrowings by Government from Reserve Bank and other parties through sale of Treasury Bills, loans received from foreign Governments and bodies and recoveries of loans granted by Central Government to State and Union territory Governments and other parties. Capital payments consist of capital expenditure on acquisition of assets like land, buildings, machinery, equipment, as also investments in shares etc. and loans and advances granted by Central Government to State and Union territory Governments, Government companies, Corporations and other parties. Capital Budget also incorporates transactions in the Public Account.

Accounting classification

8. The estimates of receipts and disbursements in the Annual Financial Statement and of expenditure in the Demands for Grants are shown according to the accounting classification prescribed under article 150 of the Constitution. This classification is intended to allow Parliament and the public to make a meaningful appreciation of allocation of resources and purposes of Government expenditure.

9. Under the Constitution, certain items of expenditure like emoluments of the President, salaries and allowances of the Chairman and the Deputy Chairman of the Rajya Sabha and the Speaker and the Deputy Speaker of the Lok Sabha, salaries, allowances and pensions of Judges of the Supreme Court and the Comptroller and Auditor General of India, interest on and repayment of loans raised by Government and payments made to satisfy decrees of courts etc. are charged on the *Consolidated Fund* and are not required

to be voted by the Lok Sabha. The Annual Financial Statement shows the expenditure *charged* on the *Consolidated Fund* separately.

Demands for Grants

10. The estimates of expenditure from the *Consolidated Fund* included in the Annual Financial Statement and required to be voted by the Lok Sabha are submitted in the form of *Demands for Grants* in pursuance of article 113 of the Constitution. Generally, one Demand for Grant is presented in respect of each Ministry or Department. However, in respect of large Ministries or Departments more than one Demand is presented. Each Demand normally includes the total provisions required for a service, that is, provisions on account of revenue expenditure, capital expenditure, grants to State and Union territory Governments and also loans and advances relating to the service. In regard to Union territories without Legislature, a separate Demand is presented for each of the Union territories. Where the provision for a service is entirely for expenditure *charged* on the Consolidated Fund, for example, interest payments, a separate *Appropriation*, as distinct from a Demand, is presented for that expenditure and it is not required to be voted by Parliament. Where, however, expenditure on a service includes both *'voted' and 'charged'* items of expenditure, the latter are also included in the Demand presented for that service but the *'voted'* and *'charged'* provisions are shown separately in that Demand.

11. The Demands for Grants are presented to the Lok Sabha along with the Annual Financial Statement. Each Demand first gives the totals of *'voted' and 'charged'* expenditure as also the 'revenue' and 'capital' expenditure included in the Demand separately and also the grand total of the amount of expenditure for which Demand is presented. This is followed by the estimates of expenditure under different major heads of account. The break up of the expenditure under each major head between 'Plan' and 'non-Plan' is also given. The amounts of recoveries taken in reduction of expenditure in the accounts are also shown. A summary of Demands for Grants is given at the beginning of this Document, while details of 'New Service' or ' New Instrument of Service' such as formation of a new company, undertaking a new scheme etc. if any, are indicated at the end of the document.

Finance Bill

12. The proposals of Government for levy of new taxes, modification of the existing tax structure or continuance of the existing tax structure beyond the period approved by Parliament are submitted to Parliament through the *Finance Bill.*

13. The Budget documents presented in terms of the Constitution have to fulfil certain legal and procedural requirements and hence may not by themselves give a clear indication of the major features of the Budget. To facilitate an easy comprehension of the Budget, certain explanatory documents are presented along with the Budget.

Budget at a Glance

14. The document Budget at a Glance shows in brief receipts and disbursements along with broad details of tax revenues and other receipts. This document also exhibits

broad break-up of expenditure - Plan and non-Plan, allocation of Plan Outlays by Sectors as well as by Ministries/Departments and details of resources transferred by the Central Government to State and Union territory Governments. This document also shows the revenue deficit, the overall deficit and the fiscal deficit of Central Government. The excess of Government's revenue expenditure over revenue receipts constitutes revenue deficit of Government. Taking into account the capital expenditure and capital receipts also there is a gap between receipts and expenditure of a year. This gap, which is covered by issue of 91 days Treasury Bills (mostly held by Reserve Bank), constitutes overall budgetary deficit. Apart from this borrowing through Treasury Bills, Government also borrows funds under many schemes which form part of capital receipts. The difference between the total expenditure of Government by way of revenue, capital and loans net of repayments on the one hand and revenue receipts of Government and Capital receipts which are not in the nature of borrowing but which finally accrue to Government on the other, constitute fiscal deficit.

Expenditure Budget Vol. I

15. *Expenditure Budget Vol. I* deals with revenue and capital disbursements of various Ministries/Departments and gives the estimates in respect of each under 'Plan' and 'Non Plan'. This also gives analysis of various types of expenditure and broad reasons for the variations in estimates.

16. Under the present accounting and budgetary procedures, certain classes of receipts, like payments made by one department to another and receipts of capital projects or schemes are taken in reduction of the expenditure of the receiving department. The estimates of expenditure included in the Demands for Grants are for the gross amounts while the estimates of expenditure included in the Annual Financial Statement are for the net expenditure as will be reflected in the accounts, that is, after taking into account the recoveries. The document Expenditure Budget makes certain other refinements like netting expenditure of related receipts so that inflation of receipts and expenditure figures are avoided and there can be a better appreciation of the magnitudes of various expenditure. In separate annexures guarantees given by Central Government and outstanding as at the end of March 1991 and contributions to International bodies are shown. A statement showing the estimated strength of establishment of various Government Departments and provision made therefor is also included in the document.

Expenditure Budget Vol. II

17. To understand the objectives underlying the expenditure proposed in the *Demands for Grants* a brief description of the various items of expenditure on major programmes included in the Demands together with the reasons for variation between the original budget and revised budget for the current year, and the requirements for the budget year are given in this volume.

Receipts Budget

18. Estimates of receipts included in the *"Annual Financial Statement"* are further analysed in the Document *"Receipts Budget"*. The document gives details of revenue

receipts and capital receipts and explains the estimates. Trend of receipts over the years and details of External Assistance received are also included.

19. To facilitate understanding of the taxation proposals made in the Finance Bill, the provisions of the Bill are explained in the document titled Memorandum explaining the provisions in the *Finance Bill*.

Detailed Demands for Grants

20. The Demands for Grants are followed by the *Detailed Demands for Grants* laid on the table of the Lok Sabha some time after the presentation of the Budget, but before the discussion on Demands for Grants commences. These Detailed Demands for Grants show further details of the provisions included in the Demands for Grants as also of actual expenditure during the previous year. A break up of the estimates relating to each programme/organisation, wherever the amount involved is not less than Rs.10 lakhs, is given under a number of detailed heads which indicate the categories and nature of expenditure incurred on that programme, like salaries, wages, travel expenses, material and equipment, grants-in-aid, etc. At the end of these Detailed Demands are shown the details of recoveries taken in reduction of expenditure in the accounts. Physical and financial aspects of major programmes and schemes are included in the *Performance Budgets* presented to Parliament separately by the Ministries/ Departments.

Resources transferred to States

21. The State Governments are paid grants and loans for various Plan and non-Plan schemes. Besides, sizeable amounts of tax revenues collected by the Central Government in the form of income-tax, union excise duties and estate duty are also transferred to the State Governments. Some of the States also get grants to cover the gap in their revenue resources, as recommended by the Finance Commission. The total resources transferred to State and Union Territory Governments are indicated in a statement incorporated in the document *Budget at a Glance*. Further details of these transfers by way of share of taxes, grants-in-aid and loans are given in *Expenditure Budget Vol.1*. The share of Union excise duties and bulk of the grants and loans are paid by the Ministry of Finance and are included in the Demand "Transfers to State Governments" presented on its behalf. The grants and loans paid by other Ministries are provided for in the Demands of respective Ministries.

Plan Outlay

22. Plan expenditure forms a sizeable proportion of the total expenditure of the Central Government. The *Demands for Grants* of the various Ministries show the Plan expenditure under each head separately from the non-Plan expenditure. The Expenditure Budget Vol. 1 also gives the total Plan provisions for each of the Ministries arranged under the various heads of development and highlights the budget provisions for the more important Plan programmes and schemes. A description of important schemes included in the Plan along with the objectives, targets and achievements is given in the *Performance Budget* of the respective Ministry. Variations in the estimates of Plan expenditure are also explained in this document.

Performance Budget

23. *Performance Budgets* are prepared and circulated to Members of Parliament by

all Ministries/Departments dealing with developmental activities. The Performance Budget presents the budget of the Ministry/Department in terms of functions, programmes and activities and gives appraisal reports separately in respect of major central sector projects/programmes estimated to cost Rs. 100 crores or more. It also includes a statement on the programmes and performance of the various public sector undertakings under the Ministry/Department indicating, among other things, the capacity installed and utilised, physical targets and achievements, results of operation, return on capital etc. Performance Budget serves the management as a tool of administrative and financial control in the implementation of development programmes.

Public Sector Enterprises

24. A large part of the Plan expenditure incurred by the Central Government is through public sector enterprises. Budgetary support for financing outlays of these enterprises is provided by Government either through investment in share capital or through loans. *Expenditure Budget Vol. I* shows the estimates of capital and loans disbursements to public sector enterprises in 1991-92 and 1992-93 for Plan and Non-Plan purposes and also the extra budgetary resources available for financing their Plans. A detailed report on the working of public sector enterprises is given in the document titled *'Public Enterprises Survey'* brought out separately by the Ministry of Industry. A report on the working of the enterprises under the control of the various administrative Ministries is also given in the Annual Reports of the various Ministries circulated to Members of Parliament separately. The annual reports along with the audited accounts of each of the Government companies are also separately laid before Parliament. Besides, the reports of the Comptroller and Auditor-General of India on the working of various public sec enterprises are also laid before Parliament.

Commercial Departments

25. The Railways and Telecommunication services are the principal departmentally-run commercial undertakings of Government. The Budget of the Railways and the Demands for Grants relating to Railway expenditure are presented to Parliament separately. The total receipts and expenditure of the Railways are incorporated in the Annual Financial Statement of the Government of India. However, to portray the actual working of these departments and not inflate either receipts or expenditure, the expenditure as reflected in the Receipts Budget & Expenditure Budget Vol. I and II has been taken net of receipts. The Demands for Grants of the Department of Telecommunications are presented along with other Demands of the Central Government.

26. The receipts and expenditure of the Defence Department shown in the Annual Financial Statement are explained in greater detail in the document Defence Services Estimates presented along with the Detailed Demands for Grants of the Ministry of Defence.

27. The details of grants given to bodies other than State and Union territory Governments are given in the statements of Grants-in-aid paid to non-Government bodies appended to Detailed Demands for Grants of the various Ministries. Annexure 6 to Expenditure Budget Vol. I shows details of grants-in-aid exceeding Rs.5 lakhs (recurring) or Rs.10 lakhs (non-recurring) to private institutions, organisations and individuals sanctioned during the year 1990-91.

Annual Report

28. A descriptive account of the activities of each Ministry/Department during the year 1991-92 is given in the document *Annual Report* which is brought out separately by each Ministry/Department and circulated to Members of Parliament at the time of discussion on the Demands for Grants.

Economic Survey

29. The Budget of the Central Government is not merely a statement of receipts and expenditure. Since Independence, with the launching of Five Year Plans, it has also become a significant statement of governmental policy. The Budget reflects and shapes, and is, in turn, shaped by the country's economic life. A background of the economic trends in the country during 1991-92 will enable a better appreciation of the mobilisation of resources and their allocation reflected in the Budget. The document Economic Survey 1991-92 circulated to Members of Parliament earlier provides this background. The *Economic Survey* analyses the trends in agricultural and industrial production, money supply, prices, imports and exports and other relevant economic factors having a bearing on the Budget.

30. The Budget of the Government has an impact on the economy as a whole. For a better appreciation of the impact of governmental receipts and expenditure on the other sectors of the economy, it is necessary to group them in terms of economic magnitudes, for example, how much is set aside for capital formation, how much is spent directly by the Government and how much is transferred by Government to other sectors of the economy by way of grants, loans etc. This analysis is contained in the document *Economic and Functional Classification* of the Central Government Budget which is brought out by the Ministry of Finance separately.

Appropriation Bills

31. After the Demands for Grants are voted by the Lok Sabha, Parliament's approval to the withdrawal from the *Consolidated Fund* of the amounts so voted and of the amount required to meet the expenditure *charged* on the *Consolidated Fund* is sought through the *Appropriation Bill*. Under article 114(3) of the Constitution, no amount can be withdrawn from the Consolidated Fund without the enactment of such a law by Parliament.

32. The process of detailed consideration of the Demands for Grants is not completed before the commencement of the new financial year. To enable Government to carry on its normal activities from 1st April till such time as the *Appropriation Bill* is enacted, a Vote on Account is obtained from Parliament through an Appropriation *(Vote on Account)* Bill.

Speech of the Railway Minister introducting the Railway Budget for 1992-93

SPEECH OF SHRI C. K. JAFFER SHARIEF INTRODUCING THE RAILWAY BUDGET, 1992-93 ON 25TH FEBRUARY, 1992

MR. SPEAKER,

Sir, I rise to present the Revised Estimates for the year 1991-92 and Budget Estimates for the year 1992-93 for the Indian Railways.

Introduction

2. Sir, we are living in momentous times and the winds of change are blowing all over the world. In the changed circumstances, people are in search of a new identity. There is a genuine craving for peace and prosperity despite a few jarring notes of discordance, and terrorism. In our own country, attempts at communal disharmony have posed a great challenge and people are once again, as ever before, displaying patience and democratic spirit to tackle the problems. The role of Indian Railways in the socio-economic and political life of the nation as a unifying force is no mean achievement. Railwaymen have always risen to the occasion and kept the wheels moving and would do so in the years to come. They are conscious of their duties and responsibilities to the nation. I am confident they would respond whole-heartedly to the President's Address to the nation and maintain industrial peace in these tumultuous days.

Freight Performance, 1990-91

3. Sir, I shall briefly review the performance for the year 1990-91. There was no prospect of achieving the revenue earning freight target of 325 million tonnes and a shortfall of 9 million tonnes was projected in the Revised Estimates. However, in the last quarter of the year, the Railways did make up to some extent by loading more than a million tonnes a day, as a

result of which the loading for the year aggregated to 318 million tonnes, which was two million tonnes more than what was projected in the Revised Estimates.

Passenger Traffic, 1990-91

4. The growth in passenger traffic was impressive. The number of passengers originating and the passenger kilometres in 1990-91 increased by more than 5% over 1989-90.

Financial Performance, 1990-91

5. The working expenses were under very heavy strain because of the increase in prices of petroleum products subsequent to the presentation of the Budget in February, 1990, Gulf Surcharge in October, 1990 and a general increase in the cost of Railway inputs. However, the improvement in Gross Traffic Receipts and containment of expenditure by stringent financial control enabled the Railways not only to absorb the post-budgetary increases but also achieve a surplus of Rs. 187.6 cr., as against Rs. 155 cr. projected in the Revised Estimates. Besides, it has been possible to augment the Pension Fund by Rs. 70 cr. and reduce the deferred dividend liability by Rs. 12 cr. For the sixth year in succession, Indian Railways showed a surplus after payment of dividend in full of Rs. 926.1 cr.

Freight Prospects, 1991-92

6. In the Budget for 1991-92, the originating revenue earning freight traffic has been estimated at 335 million tonnes. I am happy to inform the House that the performance during the first ten months of the current year has exceeded the proportionate target. The revised estimate for the originating revenue earning freight traffic in the current financial year is now placed at 337 million tonnes, which is 19 million tonnes more than the previous year's actuals of 318 million tonnes.

Passenger Traffic, 1991-92

7. The growth in passenger traffic during the current year is estimated at about 5%.

8.1 Sir, in my last Budget Speech, I had mentioned about a detailed Action Plan being prepared to achieve reduction in working expenses by cost control, cost reduction and economy measures and marketing strategies

to augment earnings. This Action Plan has been launched and is being implemented in all earnestness by the Zonal Railways.

Financial Prospects, 1991-92

The House will be happy to know that the Budget target of Rs. 9,222 cr. of Goods earnings is likely to be exceeded by Rs. 96 cr. Passenger earnings are also expected to go up from Rs. 3,493 cr. to Rs. 3,647 cr., an increase of Rs. 154 cr. The revised estimates of Gross Traffic Receipts would be higher by Rs. 267 cr., compared to the budgeted figure of Rs. 13,319 cr.

8.2 The Ordinary Working Expenses for the current financial year 1991-92 are now estimated at Rs. 9,205 cr. Numerous post-budgetary factors, such as, higher dearness allowance rates, impact of devaluation, increase in electricity tariff, increase in cost of coal etc. have had a substantial impact on the Working Expenses. The Indian Railways will, however, be able to absorb most of the post-budgetary impact through judicious management. Accordingly, only a meagre amount of Rs. 25 cr. over the Budget Estimates has been provided for in the Revised Estimates of 1991-92.

8.3 The outgo from the Pension Fund is expected to be larger than what was estimated at the time of framing the budget. I, therefore, propose to enhance the contribution to Pension Fund during 1991-92 from Rs. 1,050 cr. to Rs. 1,090 cr.

8.4 The Revised Estimates for the year 1991-92 provide for a surplus of Rs. 435 cr., Rs. 200 cr. more than the budgeted figure of Rs. 235 cr., after meeting in full the dividend liability of Rs. 1,039 cr. to the General Revenues and after providing an additional amount of Rs. 40 cr. to the Pension Fund. The House would be happy to note that this is an excellent and enviable performance. This is our humble contribution towards reduction of fiscal deficit of the Government.

9.1 Sir, the Indian Railways continue to receive demands for introducing additional passenger trains. It has not been possible to meet in full the

Passenger Services

growing demand for passenger services. The House, however, would be happy to note that by rationalising

the use of available resources, it is proposed to introduce the following new services from 1-7-1992:

1. Sealdah-Haldibari/New Cooch Behar Express (triweekly)
2. Vadodara-Valsad Inter-city Express
3. Varanasi-Gorakhpur Inter-city Express
4. Guwahati-New Bongaigaon Passenger
5. Bombay-Bangalore Superfast Express
6. Virar-Dahanu-Road Passenger
7. Secunderabad-Vijayawada Inter-city Express
8. Madras-Bangalore Superfast Express
9. Vijayawada-Madras Inter-city Express
10. A new train between Hyderabad and Bidar and Link Express between Bidar and Bangalore to be combined with Hampi Express at Guntakal.
11. Mysore-Tirupati Express
12. Nizamuddin-Kota-Indore Express
13. Thiruvananthapuram-Gandhidham Express (weekly)
14. Sikar-Loharu-Delhi Express
15. Bhadrachalam-Secunderabad Passenger

9.2 The run of the following trains will be extended:

1. A direct train service between Kumarghat and Guwahati by extending Lumding-Dharmanagar Passenger train up to Kumarghat and linking it to Barak Valley Express at Lumding.
2. Samdari-Palanpur Passenger up to Mahesana.

9.3 The frequency of Howrah-Jamalpur Express is being increased from three days a week to daily service.

9.4 In the last Budget session of the Parliament, I had mentioned about the feasibility of introducing a North-South Rajdhani Express. I am glad to inform the House that a weekly Rajdhani Express from New Delhi to Secunderabad and Bangalore is proposed to be introduced in the year 1992-93. Based on the patronage of this train introduction of similar trains to Madras and Thiruvananthapuram and also increasing the frequency of these trains will be considered, depending upon the availability of special type of coaches and other inputs.

Passenger Amenities

10.1 Indian Railways are making a determined effort for improving the passenger services. The allocation for passenger amenities has been stepped up from Rs. 31 cr. in the current year to Rs. 50 cr. in 1992-93, an increase of 61 per cent.

Service Improvement Groups

10.2 Indian Railways have a system of monitoring the passenger amenities through the institution of Service Improvement Groups set up at the station, area, division and zonal levels. These groups also look into complaints regarding telephone enquiries, food, cleanliness and reservation. These groups have been activated to effectively handle local problems relating to quality of service. To strengthen the machinery looking after the passenger amenities, senior officers have been nominated to monitor proper upkeep of the passenger amenities at selected stations and on trains.

Computerisation of Passenger Reservation

10.3 Computerised passenger reservation system was first introduced in 1985-86 and since then, the facility has been extended to a number of important stations. It is proposed to cover 12 new locations, *viz*., Mangalore, Tatanagar, Gwalior, Indore, Ludhiana, Tirupati, Bilaspur, Vijayawada, Ranchi, Jabalpur, Shimla and Chandigarh in 1992-93. With the completion of these, nearly 77 per cent of the train reservation on Indian Railways would be on the computer. It is also proposed to extend computer reservation facilities for onward and return journeys between Secunderabad and Delhi and Secunderabad and Calcutta. When completed, such a facility will become available between any two of the five computer centres located at Delhi, Bombay, Calcutta, Madras and Secunderabad.

10.4 Catering is a highly personalised and professional service. To improve the quality, we have taken a decision to privatise the catering services in phases. Zonal Railways have been instructed to entrust the catering services to only reputed and professional caterers so that wholesome food is served to the passengers. This, it is hoped, will provide greater customer satisfaction.

Catering

11.1 Sir, safety is an area where there can be no compromise. Any train accident that occurs is a matter of great concern and anguish to us. The safety performance of Indian Railways, judged in terms of train accidents, has been registering improvement. The number of train accidents came down from 717 in 1985-86 to 532 in 1990-91. The incidence of train accidents per million train kilometres also improved from 1.3 in 1985-86 to 0.86 in 1990-91.

Safety

11.2 The trend of improvement has been sustained during the first nine months of the current financial year. The number of train accidents during April-December 1991 were 410 as against 416 in the corresponding period of 1990-91. I, however, assure the House that Indian Railways would continue to accord the highest priority to safety.

11.3 Sir, there have been a few unfortunate accidents involving passenger trains resulting in deaths. Due to unprecedented rains, falling of boulders on the track and poor visibility, an accident took place on Bangalore-Dharmavaram section and 29 persons lost their lives.

11.4 Passengers travelling by Ludhiana-Ferozepur Passenger train were attacked by militants on 26th December, 1991 resulting in a loss of 52 lives. On 6th October, 1991, there was a bomb blast in a Patrol Special train, resulting in the death of 8 police personnel. On the 8th of this month, a bomb blast took place in Ferozepur-Bombay Janata Express on Jakhal-Jind section in which 5 passengers were killed.

11.5 Sir, we on the Railways pay our homage to the departed souls and convey our heartfelt condolences to the bereaved families.

12. Sir, Indian Railways have demonstrated time and again their capability to manage technological changes, be it in the change-over of traction, computerisation of freight accounting and passenger reservations, inventory management, introduction of new types of rolling stock, adoption of operational strategies and so on. We are conscious of the challenges that we are facing and would be trying to introduce technological innovations as we go on.

Management of Technology and emerging trends

13. The operational strategies should aim at better asset utilisation and be responsive to market impulses. Accordingly, greater emphasis needs to be laid on marketing strategies to correct the imbalance of over-dependence on low-rated commodities which are price-sensitive but cost-inelastic. Greater emphasis on inter-modal traffic and containerisation would be attempted to capture high-rated traffic by running point-to-point trains with guaranteed delivery. "Own Your Wagon/Own Your Container" schemes would soon be launched so that captains of industry, trade and commerce can transport their goods more economically by availing themselves of attractive freight concessions. This would also supplement the wagon fleet of the Railways which are facing financial constraints.

Operational and Marketing Strategies

14.1 In keeping with the new economic philosophy and policy of the Government, it is necessary to make the organisation and administration of the railways more responsive to changes. This may need organisational and structural changes which can be brought about on the basis of a detailed study. I intend setting up a committee of experts to make recommendations to bring about the change in management ethos so that rail transport becomes a way of business.

Management of Change

14.2 The Zonal Railways would be treated as profit-centres to generate surplus. Loss-making Railways would first aim at break-even. Accountability for financial results by bottom-line management would be emphasised. Towards this goal, I have directed the Railway Board to formulate not only the Action Plan for 1992-93 but also the financial planning for the entire Plan period.

14.3 Sir, any reform has to start at the top. The House would be happy to note that top level, below-top level, middle and lower levels of management posts are being identified for surrender. Similar exercises to locate redundancies at lower levels due to change of technology are on and these would be pursued with vigour.

Eighth Plan Perspectives and Prospects

15.1 The achievements of Indian Railways in the Seventh Plan are noteworthy. The incremental originating revenue-earning traffic of 74 million tonnes is equivalent to the incremental traffic of 19 years previous. Freight transport output and passenger transportation rose by 30% and 22% over the Sixth Plan through mainly improvement in asset utilisation and productivity. The Railways generated a surplus of Rs. 560 cr. during the plan period after meeting the dividend in full and thus maintained financial viability in each of the years. A solid foundation has thus been laid for the Eighth Plan.

15.2 The Eighth Plan objectives are 83 million tonnes incremental originating revenue-earning traffic over the original target of 335 million tonnes in 1991-92 and an annual growth of 5% in passenger traffic. The investment in the plan period would aim at gauge conversion, electrification, rolling stock, technological upgradation, human resource development, inter-modal transport and development of terminal capacity.

15.3 Sir, the question of uni-gauge system has been agitating parliamentarians, economists, entrepreneurs and even the public at large. Metre gauge route kilometres of 23,419, representing 38% of the total route kilometres, are considered a drag on the system. Some of the areas served by the metre gauge system have skilled manpower, besides generally enjoying conducive atmosphere for industrial development. However these regions are hamstrung because of lack of a good rail transport infrastructure. It is generally recognised by economists that rail transport system is at least six times more energy efficient than road. From the macro-economic point of view, it stands to reason that gauge conversion should be speeded up especially when the emphasis is now on energy conservation, and some of the ills of the metre gauge system need to be

remedied urgently. Gauge conversion on the basis of prioritisation is aimed at as an alternative to the existing congested routes. Minimising of transport bottlenecks and transhipment hazards would thus not only enhance Railways' capaeity and capability but also inspire confidence in investors in opening up new growth centres and boost economic activity for removal of regional disparities.

15.4 Sir, it is time to rectify at least partially the error of permitting dual gauge. My Ministry has identified about 10,000 km for conversion. It shall be my endeavour to convert at least 6,000 km during the Eighth Plan period. Incidentally, this would lead to generation of considerable local employment.

15.5 I have been greatly enthused in formulation of this new approach to gauge conversion by the encouragement given by the Prime Minister and the ready response of Deputy Chairman, Planning Commission. I have no doubt, Sir, that this task when accomplished would totally transform the system.

16. The Planning Commission in the light of the dwindling budgetary support had suggested initially a plan size of Rs. 5,450 cr. Hon'ble Members may kindly recall that the size of the plan is Rs. 5,325 cr. in 1991-92. The House would appreciate that infrastructure development is a must and capacity cannot be built up overnight. There is also an added need to take care of the thrust areas such as gauge conversion, electrification, rolling stock and terminal capacity so that rail transport capacity, if not ahead of demand, at least does not lag behind. I have fixed the plan size at Rs. 5,700 cr. with the approval of Planning Commission by resorting to resource mobilisation. Even this is insufficient. However, there is a silver lining in that the Planning Commission has promised to review the situation during the year.

Annual Plan 1992-93

17. An area for generation of resources is exploitation of air space in metropolitan cities and effective land management. This new potential area is yet to be tapped and I am proceeding with caution. I am in dialogue

with the State Governments and would be seeking their cooperation to enable the Railways to find resources for infrastructural development in metropolitan cities and elsewhere for betterment of the community. I have appointed an Expert Committee to study the various aspects of the problem including the kind of organisation required for better land use. Maharashtra Government has evinced keen interest and with their active cooperation, we propose to identify areas in Bombay city so that this can be a trend-setter for the rest of the country.

8. Talcher-Angul and Sambalpur-Maneswar of Talcher-Sambalpur project

The new lines programmed for opening in 1992-93 total to 367 km. With the opening of these sections, three projects, Satna-Rewa, Chitradurg-Rayadurg and Koraput-Rayagada would be completed.

18.3 Two new lines Dudhnoi-Depa and Migrendisa-Ditokchera, both in the northeast frontier region, are proposed to be taken up in 1992-93.

18.4 Broad Gauge lines from Hubli to Ankola, Narkher to Amravati, Pedapalli to Nizamabad via Karimnagar and Raichur to Gadwal are proposed to bring about speedy development of backward areas. The proposals are being sent to the Planning Commission.

18.5 Gauge conversions of Manmad-Aurangabad and Salempur-Barhaj Bazar sections have been completed during the current year. 16 new projects of gauge conversions, totalling 3,352 km are proposed to be taken up in the year 1992-93.

18.6 Doubling of about 240 km of track will be commissioned during 1991-92. Another 350 km are proposed to be completed in 1992-93.

18.7 Doubling of Khana-Sainthia section on Eastern Railway, Maksi-Bairagarh on Western Railway and Kuppam-Whitefield on Southern

Railway are proposed to be taken up during 1992-93. In respect of the Khana-Sainthia doubling, the work of land acquisition and doubling between Khana-Jhapter Dhal with a fly-over at Khana will be taken up in 1992-93. The survey for doubling of Andal-Sainthia section is also proposed to be taken up in 1992-93.

Track Renewals

19. Sir, the House is aware of the stress being placed by the Railways to wipe out the arrears in track renewals, which, at the beginning of the Seventh Plan, stood at a staggering figure of 19,500 km. As a result of the accelerated pace of track renewals initiated from the year 1985-86, the arrears are expected to come down to 9,600 km at the end of the current financial year. The target for track renewals set for the year 1992-93 is 2,950 km, including 2,300 km of track which falls due for renewal every year. While a part of the overdue renewals will extend into the Ninth Plan, all efforts are being made to ensure that track renewals are current by the end of the Eighth Plan on the high-density routes.

Railway Electrification

20.1 We have assigned a high priority to Railway Electrification to meet the national objectives of energy conservation and reducing our dependence on scarce petroleum-based energy. In my Budget Speech for the year 1991-92, I had indicated that the Railways proposed to electrify about 3,000 route kilometres during the Eighth Plan. We now propose to step up the pace of electrification and have set a target of 3,500 route kilometres for the Eighth Plan.

20.2 I am happy to inform the House that, with the completion of electrification of Itarsi-Nagpur, Durg-Nagpur, and Itarsi-Bhusawal sections, three more important trunk routes linking Delhi and Madras, Howrah and Bombay, and Delhi and Bombay via Central Railway have been completed. The sections Jolarpettai-Bangalore, Jolarpettai-Salem-Erode, Nagda-Bhopal, Diva-Panvel and substantial portion of Kazipet-Secunderabad section are also getting completed. Our target for the current year is to complete electrification of 675 route kilometres.

20.3 The following new electrification schemes, totalling 1,553 route kilometres, have been included in the Budget:

1. Ambala-Moradabad
2. Renigunta-Guntakal-Hospet including Tornagallu-Ranjitpura
3. Erode-Ernakulam-Cochin Harbour Terminus
4. Vijayawada-Visakhapatnam including Samalkot-Kakinada
5. Chandil-Muri-Barkakana
6. Jamadoba-Mohuda

20.4 Indian Railways will also commence electrification of Jhajha-Patna-Mughalsarai section which, though sanctioned, was held in abeyance so far.

Metropolitan Transport Project

21.1 As the House is aware, the two sections, Esplanade to Tollyganj and Dum Dum to Belgachia, totalling 10 km have already been commissioned. Unfortunately, the work on the remaining 6.5 km stretch between Esplanade and Belgachia could not progress as per the schedule, mainly because of labour problems. These problems have since been resolved with the assistance of the State Government of West Bengal and the work is now progressing satisfactorily. It is hoped that the remaining stretch will be commissioned in 1995.

21.2 In Bombay, the extension of railway line from Mankhurd to Belapur including the 2 km long bridge across Thane Creek is progressing satisfactorily and the line is expected to be opened to traffic in 1992.

21.3 The Rapid Transit system from Madras Beach to Luz is progressing. One sub-section of this stretch, from Madras Beach to Park Town has since been opened to traffic. The next sub-section from Park Town to Chepauk is likely to be completed in 1993.

22.1 The performance of production units has been satisfactory in the year 1990-91. Diesel Locomotive Works, Varanasi, achieved an out-turn of 147 diesel locomotives, exceeding the original target of 140 locomotives. Chittaranjan Locomotive Works produced 110 electric locomotives against the target of 100. It also produced 44 diesel locomotives. Integral Coach Factory, Perambur exceeded its capacity of 1,000 coaches by manufacturing 1,013 coaches. Rail Coach Factory, Kapurthala, produced 600 coaches against the target of 500. Wheel & Axle Plant, Bangalore manufactured more than 23,000 wheelsets. In the current year also, the production units will not only achieve the targets but some may do even better.

Production Units

22.2 Sir, it will be our endeavour to modernise the manufacturing technology, improve designs, maximise indigenisation, strengthen value engineering and improve overall productivity.

23. Indian Railways attach great importance to energy conservation. Energy bill of the Railways constitutes about 20% of the working expenses. Bulk of the energy is consumed on traction. Of the three modes of traction—steam, diesel and electric—steam is the least efficient. 315 steam locomotives are likely to be withdrawn from service in the current year, leaving a balance of around 2,500 steam locos. Of these 2,000 steam locos will be condemned during the Eighth Plan. Our target is that by the year 2000 AD, no steam loco will be left in the system. Besides, Indian Railways have been making vigorous and concerted efforts towards conservation of energy. A number of energy conservation measures and programmes involving technological changes have been identified and are being pursued.

Energy Conservation

24. Sir, I am glad to inform the House that a Railway Fare and Freight Committee headed by Dr. D.M. Nanjundappa, an eminent transport economist, has been set up. The Committee will examine closely not only the modalities of pricing of various services but also costing of services and main components of costs and make suitable suggestions. All sectors of the economy have to be cost-effective and the various factors of production should be deployed

Railway Fare and Freight Committee

to the best advantage of the community and the nation. The key issues are greater productivity and quality of work for enrichment of the country.

25.1 An amount of Rs. 1,500 cr. has been raised by Indian Railway Finance Corporation in the current year. The funds raised by the Corporation form part of Railways' Plan and do not constitute an additionality. Sir, I am glad to inform the House that in 1990-91, the Corporation has made a profit of Rs. 114 cr., compared to Rs. 16.5 cr. in 1989-90, and declared a dividend of 10% amounting to Rs. 23.2 cr.

Indian Railway Finance Corporation

25.2 Rail India Technical and Economic Services registered a turnover of Rs. 54 cr. in 1990-91 with net foreign exchange earnings of Rs. 8.6 cr. The Company earned profit before tax of Rs. 3.1 cr. and declared a dividend of 25% amounting to Rs. 25 lakhs.

Rail India Technical and Economic Services

25.3 Indian Railway Construction Company recorded a turnover of Rs. 246 cr. and earned profit before tax of Rs. 11.7 cr. in 1990-91 and declared a dividend of 10% amounting to Rs. 49 lakhs. The Company has been selected by the Government for disinvestment of shares.

Indian Railway Construction Company

25.4 Container Corporation of India recorded a turnover of Rs. 33.5 cr. in 1990-91, registering a 40% growth over the previous year. During 1990-91, CONCOR commissioned three Inland Container Depots at Ahmedabad, Pune and Hyderabad, and two Container Freight Stations at Moradabad and Panipat.

Container Corporation of India

26. Konkan Railway Project is very dear to all of us. At the outset, I must place on record my grateful thanks to the State Governments of Maharashtra, Karnataka, Kerala and Goa for their whole-hearted cooperation in the progressing of this project. Additional resources, keeping in view the anticipated increase in the cost from Rs. 1,043 cr. to Rs. 1,604 cr., would be required. Market borrowing on a larger scale has to be resorted to in order to fill the gap. However, notwithstanding the difficult resource

Konkan Railway Project

position, I have allocated Rs. 50 cr. more for the Konkan Railway Project for this year as equity.

27. Industrial relations on the Railways during 1991-92 have remained cordial and harmonious. Sir, I would like to acknowledge the yeoman service by the railwaymen to the victims of earthquake at Uttarkashi and the flood and cyclone victims in the State of Karnataka.

Industrial Relations

28. The performance of Railways in the field of sports is a shining example. I am glad to inform the House that the Railways achieved an all-time record of winning 26 national championships in 1990-91. In the current year, the Railways have already won 17 national titles. Three railway sportspersons were recipients of the coveted Arjuna Award.

Sports

29. Hon'ble Members would be happy to note that I intend to extend the facility of free pass to former eligible Members of Parliament, in keeping with Prime Minister's desire so that they can continue to play their active part in public life.

30.1 I shall now deal with the Budget Estimates for 1992-93. In 1992-93, the Railways are expected to carry 17 million tonnes more of revenue earning traffic over the level of 337 million tonnes likely to be reached in the current year. As regards passenger traffic, a growth rate of 5% has been estimated.

Budget Estimates 1992-93

30.2 Based on these projections, the Gross Traffic Receipts at current fares and freight rates are estimated at Rs. 14,518 cr., an increase of Rs. 932 cr. over the Revised Estimates for the current year.

30.3 The Ordinary Working Expenses for the year are estimated at Rs. 10,460 cr., an increase of Rs. 1,255 cr. over the Revised Estimates for the current year. This increase is primarily to cover the cost of inputs for the incremental traffic, additional lease rental payable to the Indian Railway Finance Corporation, increase in prices of fuel and other inputs and additional payment of Dearness Allowance.

30.4 It is proposed to step up the contribution to Depreciation Reserve Fund from Rs. 2,000 cr. in the current year to Rs. 2,300 cr. in 1992-93.

30.5 The contribution to Pension Fund is proposed to be increased from Rs. 1,090 cr. in the Revised Estimates for 1991-92 to Rs. 1,200 cr. in the next year.

30.6 A Memorandum on the rate of dividend payable to the General Revenues on the Capital-at-charge has been submitted to the Railway Convention Committee constituted recently. Meanwhile, provision for dividend for the year 1992-93 has been made at the same rate as for the current year. On this basis, the dividend liability for 1992-93 works out to Rs. 1,150 cr.

30.7 The Total Working Expenses, comprising Ordinary Working Expenses and the appropriations to Depreciation Reserve Fund and Pension Fund, are thus expected to be Rs. 13,960 cr. After taking into account the Net Miscellaneous Receipts of Rs. 206 cr., the Net Revenue will amount to Rs. 764 cr. This would not be sufficient to meet even the

dividend liability of Rs. 1,150 cr. Besides, the Railways need additional resources to sustain an adequate Plan size.

Tariff Proposals

31.1 Sir, the House is aware that the Railways have a long tradition of absorbing costs and even rendering service below cost as a matter of public policy. This becomes counterproductive beyond a point and would be detrimental to nation building. The social costs have risen from Rs. 421 cr. in 1980-81 to Rs. 2,202 cr. in 1990-91, and to an estimated amount of Rs. 2,227 cr. in 1991-92. Further, the input costs are going up and hence a certain adjustment in fares and freight rates has become inevitable.

31.2 Sir, I am deeply concerned and shall still strive to render service to the rail users at affordable prices by absorbing costs by internal economies to some extent. Accordingly, I have decided to protect the interests of the common man, weaker sections of our society residing in urban and rural areas and the farmers by not only continuing the existing low tariff but also exempting altogether the following essential commodities from either any increase in freight rates or stepping up of classification:

(i) Foodgrains and Pulses
(ii) Salt for human consumption
(iii) Sugar
(iv) Gur, Shakkar and Jaggery
(v) Tea
(vi) Fruits and Vegetables
(vii) Edible Oils
(viii) Kerosene
(ix) Diesel
(x) Chemical manures
(xi) Organic manure
(xii) Oil cake
(xiii) Oil seeds
(xiv) Livestock and
(xv) Fodder

31.3 There will be no increase in platform ticket. There will be no increase in the Second Class ordinary fares upto 10 kilometres. There will be no increase in sleeper surcharge up to 500 kilometres.

31.4 The Hon'ble Members, Sir, would appreciate that rail transport is the mainstay of the economy and infrastructure development cannot be neglected. Investment is necessary to generate future income and that can be achieved only by generating resources internally now.

31.5 I, therefore, propose some changes in tariff and rationalisation in freight structure to be made effective from 1-4-1992.

31.6 It is proposed to increase freight rates of all commodities, other than the essential commodities mentioned earlier, by 7.5%, except coal where the increase will be only 4%. The tariff increase on coal is being kept low in order to contain the inflationary pressures in the economy.

31.7 I also propose to rationalise the classification structure of different commodities, other than the essential commodities mentioned earlier, by raising the trainload, wagonload and smalls classification by one step.

31.8 Some rationalisation of parcel classification and charge is also proposed to be effected. The minimum charge in respect of parcels and luggage is proposed to be revised from Rs. 17 to Rs. 30, except for fresh fruits and vegetables where the revised minimum charge will be Rs. 20.

31.9 My proposals in regard to passenger fares are as under:—

(i) The fares for upper classes, namely, Air-conditioned First Class, Air-Conditioned Sleeper, First Class, and Air-Conditioned Chair Car are proposed to be increased by 20% for all distances. The fares for the Rajdhani Express, New Delhi-Bombay AC Express and the Shatabadi Express trains are also proposed to be suitably increased.

(ii) The fares for Second Class Ordinary are proposed to be increased by 50 paise per ticket in the lowest slab, progressively rising to Rs. 5 per ticket for distances beyond 250 km. I do not, however, propose to increase the fares for passengers travelling up to 10 km.

(iii) The Second Class Mail/Express fares are proposed to be increased by Re 1 at the lowest distance slab, rising progressively

to Rs. 25 per ticket for distances beyond 1,300 km. The fare a passenger has to pay between Jammu Tawi and Kanyakumari —a distance of 3,726 km—will thus go up by only Rs. 25.

(iv) For Second Class Monthly Season Ticket fares, the existing number of equivalent single journeys is proposed to be increased by one in all distance slabs. A Second Class Monthly Season Ticket holder will now have to pay fare equivalent to 9 to 24 single journeys at various distance slabs against the existing range of 8 to 23 single journeys. The First Class Monthly Season Ticket fares will be correspondingly adjusted.

(v) The Second Class Sleeper surcharge for the distance slab 501 km to 1,000 km will be revised to Rs. 25 from the present Rs. 20.

31.10 The above proposals are expected to yield an additional revenue of Rs. 1,366 cr. in the year 1992-93.

32. Sir, change is inherent in the nature of things. The old organisations like Railways respond to changes slowly. In a dynamic world, there is a need for a change in management awareness, attitude and aptitude to respond to public impulses. The organised sectors should realise that they cannot clamour for and appropriate to themselves the entire fruits of development with their collective bargaining power instead of sharing the benefits with the people and the nation. Public need better service and faster trains and, I am sure, they are willing to pay for it. Sacrifice, therefore, is needed on the part of all today so that we can plan for a better and brighter tomorrow. Resources have to be raised for investment in technology, human resource development and operational strategies by adopting cost-effective methods and economic pricing of services. Towards this goal, Sir, we shall proceed with the fullest confidence in our people, our institutions and our democratic traditions. Sir, I am indeed privileged to head the railway family of dedicated workers who are ready to meet challenges and I am sure that the nation can count on their ability and capability to usher in changes. I am confident, Sir, the Hon'ble Members of the House will unanimously support my proposals for a vibrant, vigorous and viable railway system.

33. With these words, Sir, I now commend the Railway Budget for 1992-93 to the House.

1389.41 करोड़ रुपये के व्यय (सकल) में वृद्धि के मुख्य कारण इस प्रकार हैं :—

(क) कर्मचारी लागत में वृद्धि (653.99 करोड़ रुपये) जिसका विश्लेषण इस प्रकार है :—

(1) महंगाई भत्ते का भुगतान (411.69 करोड़ रुपये),

(2) वार्षिक वेतन वृद्धियों, किलोमीटर भत्ता, गतिविधियों में वृद्धि आदि के कारण अन्य कर्मचारी लागत में वृद्धि (97.51 करोड़ रुपये) और सेवा-निवृत्त रेल कर्मचारियों को पेंशन संबंधी भुगतान के लिए अधिक व्यवस्था (144.79 करोड़ रुपये);

(ख) मूल्यों में वृद्धि, परिसम्पत्तियों का अतिरिक्त अनुरक्षण, चल स्टाक की मरम्मत और अनुरक्षण, बिजली, सिगनल और दूर संचार सेवाएं, संविदागत भुगतान, यातायात में वृद्धि के कारण सामग्री और अन्य लागतों में वृद्धि (279.38 करोड़ रुपये);

(ग) यातायात में वृद्धि और कोयला, डीजल की कीमतों और बिजली की दरों में वृद्धि के कारण ईंधन पर अधिक खर्च (249.10 करोड़ रुपये);

(घ) भारतीय रेल वित्त निगम को लीज/किराया प्रभार (229.00 करोड़ रुपये)।

यह वृद्धि (1) अन्य विविध कारकों (0.69 करोड़ रुपये), (2) यात्रा व्यय (19.62 करोड़ रुपये), (3) अदालती डिगरियों के संबंध में प्रत्याशा से कम भुगतान (174.60 लाख रुपये) के कारण प्रभृत विनियोग के अन्तर्गत कम व्यवस्था से अंशतः संतुलित हो गयी।

रेलों के निर्माण, मशीन और चल-स्टाक के कार्यक्रम पर खर्च

1990-91 में वास्तविक खर्च

मांग संख्या 16 के अन्तर्गत 1990-91 के लिए निर्माण, मशीन और चल स्टाक पर खर्च का संशोधित अनुमान 3746.00 करोड़ रुपये (शुद्ध) था जो 7944.32 करोड़ रुपये (सकल) में से जमा खाते 4198.32 करोड़ रुपये, जिन्हें अनुदान की परिधि से बाहर रखा जाता है लेकिन लेखे में खर्च में कमी के रूप में दिखाया जाता है, घटाने के बाद रहा। इन कामों पर खर्च को पूंजी, मूल्यह्रास आरक्षित निधि, विकास निधि, दुर्घटना क्षतिपूर्ति, संरक्षा और यात्री सुविधा निधि तथा चालू लाइन निर्माण (राजस्व) के खाते में डाला जाता है। वर्ष के अन्त में वास्तविक व्यय 8101.73 करोड़ रुपये (सकल) में से जमा खाते के 4378.75 करोड़ रुपये घटाकर 3722.78 करोड़ रुपये (शुद्ध) रहा। शुद्ध खर्च में बचत मुख्यतः नई लाइनों, दोहरी लाइन बिछाने, यातायात सुविधाओं, रेलपथ नवीकरण, कारखानों आदि पर कम व्यय के जो कारण हुई चल स्टाक भंडार उचंत और विविध अग्रिम के अंतर्गत अधिक व्यय द्वारा संतुलित हो गई।

संशोधित अनुमान, 1991-92

2. मांग संख्या 16 के अन्तर्गत बजट और संशोधित अनुमान 1991-92 के लिए परिसम्पत्तियां-अधिग्रहण, निर्माण एवं बदलाव और बजट अनुदान की तुलना में संशोधित अनुमान में अन्तर का विश्लेषण नीचे दिया गया है :

वर्ष 1991-92 के बजट में 8511.69 करोड़ रुपये (स्वीकृत 8508.99 करोड़ रुपये और प्रभृत 2.70 करोड़ रुपये) के सकल व्यय और महानगर परिवहन परियोजनाओं सहित चल स्टाक, मशीन एवं संयंत्र और निर्माण कार्य आदि के लिए 3825.00 करोड़ रुपये के शुद्ध खर्च की व्यवस्था है। बजट अनुदान की तुलना में 8653.91 करोड़ रुपये (सकल) का संशोधित अनुमान (स्वीकृत 8648.96 करोड़ रुपये और प्रभृत 4.95 करोड़ रुपये) निर्धारित किया गया है। स्वीकृत के अन्तर्गत 139.97 करोड़ रुपये की वृद्धि मुख्यतः योजना शीर्ष आमान परिवर्तन, चल-स्टाक कर्मचारी सुविधाओं और कोंकण रेलवे निगम में पूंजी निवेश के अन्तर्गत है और प्रभृत के अन्तर्गत 2.25 करोड़ रुपये की वृद्धि नवीनतम आवश्यकताओं के अनुसार है। बहरहाल, शुद्ध रूप में कोई वृद्धि नहीं हुई है।

The Revised Estimate of expenditure under Demand No. 16 on Works, Machinery and Rolling Stock for 1990-91 allocable to Capital, Depreciation Reserve Fund, Development Fund, Accident Compensation, Safety and Passenger Amenities Fund and Open Line Works (Revenue) was Rs. 3746.00 crores (Net) made up of Rs. 7944.32 crores (Gross) less credits of Rs. 4198.32 crores which are outside the scope of the Grant but constitute reduction of expenditure in the accounts. The actual expenditure at the end of the year came to Rs. 3722.78 crores (Net) made up of Rs. 8101.73 crores (Gross) less credits of Rs. 4378.95 crores. The saving in net expenditure is mainly due to less expenditure under New lines, Doublings, Traffic facilities, Track Renewals, wrokshops etc. offset by more expenditure under Rolling Stock, Stores Suspense and Misc. Advances.

Revised Estimates, 1991-92

2. Budget and Revised Estimates under Demand No. 16—Assets—Acquisition, Construction and Replacement for 1991-92 and analysis of variation in the Revised Estimates compared to the Budget Grant is as under :

रेलवे विकास कार्यक्रम

RAILWAY DEVELOPMENT PROGRAMME

आठवीं पंचवर्षीय योजना को योजना आयोग द्वारा अंतिम रूप दिया जा रहा है और इसकी समयावधि बदल कर 1990—95 की बजाय 1992—97 कर दी गयी है। आठवीं पंचवर्षीय योजना के मुख्य उद्देश्य होंगे—माल और यात्री यातायात के प्रत्याशित स्तरों के लिए पर्याप्त क्षमता का विकास करना, गतायु परिसम्पत्तियों का पुन: स्थापन और नवीकरण, विद्युतीकरण, आधुनिकीकरण और परि-चालनिक लागत को कम करने के लिए प्रौद्योगिकीय उन्नयन, चुनिंदा आधार पर नेटवर्क का विस्तार करना और मीटर लाइन का बड़ी लाइन में आमान परिवर्तन करना आदि।

The Eighth Five Year Plan is under finalisation by the Planning Commission, and its time frame has been changed from 1990—95 to 1992—97. The major objectives in the Eighth Five Year Plan would be development of adequate capacity for anticipated levels of freight and passenger traffic, rehabiltation and renewal of overaged assets, electrification, modernisation and technological upgradation to bring down operational costs, selective expansion of network and conversion of Metre Gauge into Broad Gauge.

वर्ष 1990-91 के दौरान, वार्षिक योजना पर 4,815 करोड़ रुपये खर्च किये गये थे। इस राशि में से 1,632 करोड़ रुपये की व्यवस्था सामान्य राजकोष से बजटीय समर्थन के रूप में की गई थी, 1,092 करोड़ रुपये की रकम भारतीय रेल वित्त निगम के माध्यम से बाजार से ऋण लेकर जुटायी गयी थी और 2,091 करोड़ रुपये आंतरिक संसाधनों के जरिये जुटाये गए थे। वास्तविक कार्यक्रम के महत्वपूर्ण पहलुओं में 301 रेल इंजनों, 23,672 माल डिब्बों, 19,99 सवारी डिब्बों और 174 ई०एम०यू० को अधिप्राप्त किया जाना शामिल था, हालांकि बेड़े में की गई वृद्धि के साथ-साथ गतायु स्टाक को नाकारा घोषित किये जाने के कारण, बेड़े में शुद्ध वृद्धि बहुत ही कम रही। इसके अलावा, 831 मार्ग कि०मी० का विद्युतीकरण किया गया, 3611 कि०मी० में रेलपथ के नवीकरण का कार्य पूरा किया गया, 221 कि०मी० में आमान परिवर्तन का कार्य पूरा किया गया और 211 कि०मी० का दोहरीकरण किया गया। इसके अतिरिक्त, प्रणाली में 107 कि०मी० लम्बी नई लाइनें जोड़ी गई।

During 1990-91, expenditure of Rs. 4,815 crores was incurred on the Annual Plan for the year. For financing this investment, an amount of Rs. 1,632 crores was provided as budgetary support by the General Exchequer, Rs. 1,092 crores was raised by market borrowings through Indian Railway Finace Corporation and Rs. 2,091 crores was raised through internal generation of resources. Important features of the physical programme included acquisition of 301 locomotives, 23,672 wagons, 1999 coaches and 174 EMUs, though the net addition to the fleet was much less because of concurrent condemnation of overages stock. In addition, 831 route kms. were electrified, track renewal was completed on 3,611 kms. gauge conversion was completed on 221 kms. and doubling on 211 kms. Further, 107 kms. of new lines were added to the system.

बजट अनुमान, 1992-93

5. 1992-93 में निर्माण-कार्यों के खर्च के लिए बजट अनुमान 4500 करोड़ रुपये रखा गया है। यह 1991-92 के संशोधित अनुमान से 675 करोड़ रुपये अधिक है।

Budget Estimates 1992-93

5. The Budget Estimate for Works Expenditure for 1992-93 has been placed at Rs. 4500 crores. This is Rs. 675 crores more than the revised estimates for 1991-92.

टिप्पणी

1—पूर्व, उत्तर, पूर्वोत्तर और पूर्वोत्तर-सीमा रेलों के आंकड़ों में भूतपूर्व असम रेलवे, भूतपूर्व ईस्टर्न पंजाब रेलवे और भूतपूर्व बंगाल-असम रेलवे के भागों की ब्याजदेय पूंजी की अनुमानित रकम भी शामिल है।

2—1949-50 में भारत की सरकारी रेलों में मिलायी गयी भूतपूर्व रियासती रेलों और 1-4-1950 से केन्द्रीय सरकार के नियंत्रण में आने वाली चालित लाइनों की ब्याजदेय पूंजी, जो लगभग 63.76 करोड़ रुपये है, संबंधित रेलों की, जिनका अब वे हिस्सा है, पूंजी में जोड़ दी गयी है, लेकिन यह अभी अनन्तिम है।

NOTE

1. The figures against the Eastern, Northern, North-Eastern and Northeast Frontier Railways include the estimated Capital-at-Charge of the portions of ex-Assam Railway, ex-Eastern Punjab Railway and ex-Bengal Assam Reilway.

2. The Capital-at-Charge of ex-States lines amalgamated with Government Railways during 1949-50 and of worked lines which vested in the Centre from 1-4-1950, amounting to about 63.76 crores, which has been added to the capital of the respective Railways of which they now form part, is still provisional.

पूंजी, मूल्यह्रास आरक्षित निधि, विकास निधि या दुर्घटना क्षतिपूर्ति संरक्षा व यात्री सुविधा निधि से वित्त पोषित विभिन्न कोटियों की रेल परिसम्पत्तियों का 31 मार्च, 1991 को कुल मूल्य ।

भारत की सरकारी रेलों की ब्याजदेय पूंजी, जैसी कि लेखों में दिखायी गई है, रेलों में निवेश के लिए सामान्य राजस्व द्वारा दी गयी रकम है, इसमें मूल्यह्रास आरक्षित निधि या विकास निधि या दुर्घटना क्षतिपूर्ति, संरक्षा व यात्री सुविधा निधि या राजस्व से खरीदी गयी परिसम्पत्तियों की लागत शामिल नहीं है । इसके विपरीत, ब्लाक लेखे में, जो भारतीय रेलों के वार्षिक विनियोग लेखों का अनुबन्ध होता है, विकास निधि, दुर्घटना क्षतिपूर्ति, संरक्षा व यात्री सुविधा निधि और राजस्व से अर्जित परिसम्पत्तियों का कुल मूल्य तथा मूल्यह्रास आरक्षित निधि से परिसम्पत्तियों में सुधार की लागत को दिखाया जाता है । नीचे की तालिका में, ब्लाक लेखे से निकाली गयी मुख्य कोटियों के अन्तर्गत 31 मार्च, 1991 को रेलवे की परिसम्पत्तियों का कुल मूल्य दिखाया गया है (लेकिन इसमें उन परिसम्पत्तियों का मूल्य शामिल नहीं है जो राजस्व से सृजित की गयी हैं क्योंकि उनके बदलाव का खर्च भी साथ-साथ राजस्व से ही किया जायेगा) ।

APPENDIX VII

Total value of Railways assets, under various categories, whether financed from Capital, Depreciation Reserve Fund, Development Fund or Accident Compensation, Safety and Passenger Amenities Fund as on 31st March, 1991.

The Capital-at-charge of the Indian Government Railways as set out in the accounts is the sum made available by the General Revenues for investment in the railways; it does not include the cost of assets created out of the Depreciation Reserve Fund, Development Fund or Accident Compensation, Safety and Passenger Amenities Fund or Revenue. On the other hand, the Block Account—forming an annexure to the annual Appropriation Accounts for the Indian Railways—indicates the total including the value of assets financed from the Development Fund, Accident Compensation, Safety and Passenger Amenities Fund and Revenue as also the "improvement element' of the cost of assets financed from the Depreciation Reserve Fund. The following table shows the total value of railway assets as on 31st March 1991 under broad categories from the Block Account (excluding only the value of assets created from Revenue as their replacement will be financed currently from Revenue).

The Railways are spending Rs. 176.88 crores on Railway Protection/ Special Force, about Rs. 43.45 crores as contribution to State Governments for Orders Police etc. Rs. 197.36 crores on Health, Medical and Welfare Services, Rs. 31.79 crores on Educational assistance to Railway Employees and Rs. 135.10 crores by way of subsidised housing of employee.

टिप्पणी :—प्रादेशिक आधार पर शाखा लाइनों के वित्तीय परिणामों से पता चलता है कि उनमें से कुछ पर हानि उठानी पड़ी। इन अलाभकर शाखा लाइनों पर कुल हानि लगभग 104 करोड़ रुपये हुई, जिसे उपर्युक्त विवरण की मद सं. 1 और आंशिक रूप से मद सं. 2 में शामिल किया गया है।

NOTE :- Assessment on territorial basis of the financial results of the branch lines indicates that some of them suffered a loss. The aggregate loss on these unremunerative branch lines amount to Rs. 104.00 crores which is included in item 1 and partially in item 2 of the above statement.

अलाभप्रद शाखा लाइनों के कारण भारतीय रेलों पर वित्तीय भार से संबंधित विवरण

अलाभप्रद शाखा लाइन समिति, 1969 की सिफारिशों के अनुसार सभी छोटी लाइनें और बड़े आमान की ऐसी अन्य लाइनें जो मुख्य लाइन प्रणाली के केवल एक-सिरे से जुड़ी हैं, "शाखा लाइनें" मानी जाती हैं । 1990-91 में 120 शाखा लाइनों (बड़ी लाइन की 26, मीटर लाइन की 62 और छोटी लाइन की 32) को अलाभप्रद पाया गया । इन लाइनों से, लाभांश को छोड़कर, लगभग 104 करोड़ रुपये की हानि हुई ।

2. इनमें से अधिकांश शाखा लाइनों पर यातायात का घनत्व कम है विशेष रूप से छोटी लाइनों को, आमान-परिवर्तन स्थल पर यानान्तरण, कम वहन दूरी और सड़क-यातायात से कड़ी स्पर्धा जैसी प्रतिकूल स्थिति का सामना करना पड़ता है । रेलपथ के नवीकरण और उसे मजबूत बनाने तथा पुराने चल-स्टाक के बदलाव पर बहुत खर्च करना होता है । संचालन-व्यय को यथा-सम्भव कम से कम रखने के प्रयास किये गये हैं । माल और सवारी गाड़ियां अलग-अलग चलाने की अपेक्षा कई खण्डों पर मिली-जुली गाड़ियां चलायी गयी हैं । कई स्टेशनों को ठेकेदारों द्वारा परिचालित हाल्टों में बदला गया है । जहां कहीं सम्भव है, "केवल एक इंजन" प्रणाली आरम्भ की गई है । आमदनी बढ़ाने के उद्देश्य से, लदान के लिए खाली डिब्बों की समय पर सप्लाई का प्रबन्ध किया जाता है तथा माल-डिब्बों के लदान और उन्हें खाली करने के काम पर निगाह रखी जाती है । पारवहन समय को कम से कम करने के प्रयास किये गये हैं । बिना टिकट यात्रा के विरुद्ध जांच-कार्य में तेजी लायी गयी है । व्यापारी वर्ग के साथ भी निकट सम्पर्क रखा जा रहा है ।

3. अलाभप्रद शाखा लाइनों को परिचालित करने के संबंध में विभिन्न उच्च स्तरीय समितियों ने सिफारिश की है कि वे सभी अलाभकर शाखा लाइनें बन्द कर दी जानी चाहिए जहां परिवहन के वैकल्पिक साधन उपलब्ध हैं या विकसित किए जा सकते हैं। लेकिन, संबंधित राज्य सरकारें इन लाइनों को बन्द करने के पक्ष में नहीं हैं। रेल सुधार समिति ने अपनी रिपोर्ट (अक्टूबर 83) के भाग XI में, जो "मितव्ययिता" से संबंधित है, 40 अलाभप्रद शाखा लाइनों को बन्द किये जाने की सिफारिश की थी जहां पर पर्याप्त वैकल्पिक सड़क परिवहन सुविधाएं पहले से उपलब्ध हैं। समिति ने आगे यह भी सुझाव दिया है कि यदि राज्य सरकारें अपने किन्हीं कारणों से ऐसी लाइनों को बन्द करने के लिए सहमत नहीं होती हैं तो उन्हें 50:50 के आधार पर घाटा वहन करना चाहिए। सर्वप्रथम (उक्त 40 लाइनों में से) उन 7 लाइनों को बन्द करने और उखाड़ने का विनिश्चय किया गया था जहां कुछ वर्ष पहले गाड़ी सेवाएं समाप्त कर दी गयी थीं। 7 लाइनों में से अब तक 5 को

APPENDIX XIX

Statement of Financial Burden on Indian Railways on account of Uneconomic Branch Lines

All narrow gauge lines and BG and MG lines joining the main system at one end only are treated as Branch Lines in accordance with the recommendations of the Uneconomic Branch Lines Committee, 1969. During1990-91, 120 (26 BG, 62 MG and 32 NG) branch lines were found uneconomical. The loss suffered by these lines was about Rs. 104 crores excluding dividend.

2. Most of these Branch lines have low density of traffic, the NG lines particularly have the disadvantage of break of gauge transhipment, short lead and severe competition from road traffic. The renewal and strengthening of track as also replacement of old rolling stock require substantial expenditure. Efforts have been made to reduce working expenses to the extent feasible. Instead of running separate goods and passenger trains, mixed trains have been introduced on many sections. Many of the stations have been converted into Contractor-operated halts. The system of "One Engine only" has been introduced wherever possible. With a view to increasing earnings, timely supply of empties for loading is arranged and loading and release of wagons is watched. Efforts have been made to minimise transit time. Checks against ticketless travel have been intensified. Close liaison is being maintained with the trade.

3. In respect of the operation of unremunerative branch lines, various high level Committees have recommended that all uneconomic branch lines, where alternative mode of transport exist or can be developed should be closed down. However, the State Governments concerned are averse to the closure of these lines. The Railway Reforms Committee (RRC) in Part XI of their report on 'Economies' (Oct. 83) recommended closing down of 40 such lines where adequate alternative road transport facilities are already available. They further suggested that in case the State Government did not agree to closure of such lines for their own reasons they should share the losses on 50 : 50 basis. In the first instance, it was decided to close down and dismantle 7 lines (out of the said 40 lines) where train services had been withdrawn some years ago Five out of these 7 lines have since been dismantled. As regards the

उखाड़ा जा चुका है। जहां तक बन्द की जाने वाली शेष लाइनों का संबंध है, संबंधित राज्य सरकारों के पास उच्चतम स्तर पर मामले को ले जाने के बावजूद अभी तक इस मामले में कोई प्रगति नहीं हुई है। रेल अभिसमय समिति, 1985 ने सिफारिश की है कि राज्य सरकारों के साथ आगे बातचीत जारी रखी जानी चाहिए और रेलों को उन लाइनों को बन्द किए जाने की वांछनीयता के बारे में उन्हें राजी करने की कोशिश करनी चाहिए जिन्हें बन्द करने की रेल सुधार समिति ने सिफारिश की है। तदनुसार, क्षेत्रीय रेलों के महाप्रबन्धकों से कहा गया है कि वे राज्य सरकारों के साथ पुनः बातचीत शुरू करें।

remaining lines to be closed down, despite taking up the matter with the State Governments at the highest level, there has been no progress so far. Railway Convention Committee—1985 recommended that the dialogue with the State Govts. should be continued further and that the Railways should try to convince of the desirability of agreeing for closure of lines recommended by RRC. Accordingly, the General Managers of the Zonal Railways have been asked to reopen the dialogue with the State Govts.

नई लाइनें (निर्माण)

1. पनवेल-करजत—नई बड़ी रेल लाइन के लिए भूमि का अधिग्रहण—मध्य रेलवे—पनवेल से करजत तक की प्रस्तावित नई लाइन बन जाने से, बम्बई से करजत और पुणे की दूरी लगभग 31 कि० मी० कम हो जायेगी और ई० एम० यू० गाड़ियों के लिए करजत से एक वैकल्पिक मार्ग उपलब्ध हो जायेगा, जिससे बम्बई से करजत तक मुख्य लाइन पर दबाव कम हो जायेगा । नये कुर्ला यात्री टर्मिनल से पुणे/शोलापुर/बेंगलूरू को जाने वाली गाड़ियों को भी इस मार्ग से चलाया जा सकता है, जिससे यात्रा समय में कम से कम आधे घंटे की बचत होगी । पनवेल-करजत लाइन तेजी से विकसित हो रहे बम्बई महानगर विकास क्षेत्र में पड़ती है। पश्चिम-तटीय लाइन का निर्माण शुरू हो जाने से, पनवेल का महत्व और भी बढ़ गया है । अतः इस लाइन के लिए भूमि का अधिग्रहण करना आवश्यक है । भूमि के अधिग्रहण पर 5.50 करोड़ रुपये की लागत आने का अनुमान है जिसके लिए 80 लाख रुपये के परिव्यय की व्यवस्था की गई है ।

1. दुधनोई-डीपा—नयी बड़ी लाइन 17.50 कि० मी० पूर्वोत्तर सीमा रेलवे:—जोगीघोपा-गुवाहाटी बरास्ता दुधनोई, नयी बड़ी लाइन जिसके निर्माण का कार्य प्रगति पर है, के खुल जाने से भी मेघालय राज्य में कोई रेल शीर्ष नहीं होगा, दुधनोई-डीपा नयी रेलवे लाइन का प्रस्ताव मुख्य रूप से मेघालय राज्य में विस्तृत खनिज सम्पदा विशेष रूप से कोयले और चूने के पत्थर का खनन करने तथा गारो पहाड़ियों में गहन वन संसाधनों का सदुपयोग करना है। इस कार्य पर 21.27 करोड़ रु० खर्च होने का अनुमान है जिसके लिए 80.00 लाख रुपये के परिव्यय का प्रस्ताव किया गया है।

2. अन्तिम स्थान निर्धारण सर्वेक्षण सहित लमडिंग-बदरपुर हिल खण्ड में मिग्रेंडिसा से डिटोकचेड़ा (हारगांजाव) तक नयी लाइन—पूर्वोत्तर सीमा रेलवे—असम के नार्थ कच्छार जिले, मिजोरम, त्रिपुरा तथा मणिपुर के कुछ भागों में अनिवार्य वस्तुओं के यातायात के लिए लमडिंग–बदरपुर खण्ड ही एक मात्र उपयोगी रेल सम्पर्क है। किन्तु तीव्र ढलान के कारण अधिकतम अनुमेय गति 18 कि०मी० प्रति घण्टा तक सीमित है और इससे लाइन क्षमता काफ़ी कम हो जाती है । मिग्रेंडिसा–हारगांजाव खण्ड पर लाइन क्षमता की तंगी को ध्यान में रखते हुए, इस खण्ड पर एक नयी लाइन के निर्माण का प्रस्ताव है । इस कार्य पर 132.50 करोड़ खर्च आने का अनुमान है जिसके लिए 80.00 लाख रुपए के परिव्यय का प्रावधान किया गया है।

Brief notes of justification for new works proposed in the budget for 1992-93 at a cost of more than Rs. 50 lakhs each are given below with their estimated cost and the outlay proposed in 1992-93.

NEW LINES (CONSTRUCTION)

1. *Panvel—Karjat—Land acquisition for new BG line—Central Railway.*—The proposed new line from Panvel to Karjat will reduce the distance of Karjat and Pune from Bombay by about 31 km, and provide an alternate for EMU services from Karjat thereby relieving pressure on the main line from Bombay to Karjat. Trains running to Pune/Sholapur/Bangalore from new Kurla Passenger Terminus could also be diverted on this route which would save atleast *half-an-hour* journey time. Panvel-Karjat falls under the fast developing Bombay Metropolitan Region Development Area. With the start of construction of West-Coast line, Panvel has assumed greater importance. It is, therefore, necessary to acquire land for this line. The estimated cost for land acquisition is Rs. 5.50 crores and an outlay of Rs. 80 lakhs has been provided.

2. *Dudhnoi-Depa—New Broad Gauge line 17.50 km North-east Frontier Railway.*—Even with the opening of Jogighopa-Guwahati BG railway line via Dudhnoi, the construction of which is in progress, the State of Meghalaya will still not have a rail head. Dudhnoi-Depa new railway line is proposed primarily to exploit the vast mineral potential, especially coal and limestone and extensive forest resources in Garo Hills of Meghalaya. The work is estimated to cost Rs. 21.27 crores and an outlay of Rs. 80 lakhs has been proposed.

3. *New line from Migrendisa to Dittokcherra (Harangajao) in Lumding—Badarpur Hill Section including Final Location Survey—Northeast Frontier Railway.*—Lumding—Badarpur section is the only viable rail link for transportation of essential commodities to North Cachar district of Assam, Mizoram, Tripura and parts of Manipur. But due to steep gradients the maximum permissible speed is limited to 18 km/hr and the line capacity gets drastically reduced. Taking into account the capacity constraint on the Migrendisa-Harangajao section, it is proposed to construct a new line on this section. The estimated cost of the work is Rs. 132.50 crores with an outlay of Rs. 80 lakhs.

आमान परिवर्तन

देश की परिवहन अवसंरचना का तीव्र विकास करने की आवश्यकता के साथ-साथ पिछड़े क्षेत्रों के विकास में तीव्रता लाने की आवश्यकता को ध्यान में रखते हुए रेलों ने आठवीं पंचवर्षीय योजना में लगभग 6000 कि०मी० चुने गए मीटर लाइन मार्गों का बड़ी लाइन में बदलाव करने के लिए एक कार्य योजना प्रारम्भ की है। इस कार्य योजना में बदलाव के लिए रेलों पर निम्नलिखित खंडों की पहचान की गयी है और इन्हें 1992-93 के बजट में शामिल कर लिया गया है।

GAUGE CONVERSION

Keeping in view the need to bring about a speedy development of the transportation infrastructure of the country as well as the need to speed up the development of backward areas, the Railways have embarked upon an Action Plan for conversion of about 6000 Kms. of selected Metre Gauge routes to Broad Gauge in the 8th Five Year Plan. The following sections on the Railways, identified in this Action Plan for conversion, have been included in the Budget for 1992-93.

दोहरी लाइन बिछाना

1. **खाना—सैंथिया खण्ड पर दोहरी लाइन बिछाना—चरण-1 (क) खाना और सैंथिया के बीच भूमि का अधिग्रहण (ख) खाना और झापटेर ढाल के बीच दोहरी लाइन बिछाना तथा खाना में एक फ्लाई-ओवर का निर्माण—पूर्व रेलवे।**—फरक्का और मालदा टाउन के रास्ते पूर्व रेलवे से पूर्वोत्तर सीमा रेलवे तक खाना-सैंथिया इकहरी लाइन वाला बी.जी. खंड (71 कि.मी.) है। यह खंड आसनसोल-वर्द्धमान चौहरी लाइन वाले विद्युतीकृत खण्ड से खाना में अलग होता है और सैंथिया में सैंथिया-बड़हवा दोहरी लाइन वाले खंड में मिल जाता है। फरक्का बराज पर रेल लाइन का निर्माण हो जाने के बाद से, खाना-सैंथिया खंड पर यातायात का दबाव बराबर बढ़ रहा है। अतः खाना-झापटेर ढाल खंड पर दोहरी लाइन बिछाने, खाना में एक फ्लाई-ओवर का निर्माण करने और सैंथिया तक दोहरी लाइन बिछाने के लिए भूमि के अधिग्रहण का प्रस्ताव है। इस परियोजना की अनुमानित लागत 9.00 करोड़ रुपये है और इसके लिए 20 लाख रुपये के परिव्यय का प्रस्ताव है।

DOUBLING

1. *Doubling of Khana—Sainthia Section—Phase-I (a) Land acquisition between Khana & Sainthia (b) Doubling between Khana and Jhapaterdhal with a flyover at Khana—Eastern Railway.*—Khana-Sainthia is a single line B.G. section (71 kms.) from Eastern Railway to N.F. Railway via New Farakka and Malda Town. This section takes off from Asansol—Barddhaman electrified quadruple section at Khana and merges with Sainthia—Barharwa double line section at Sainthia. Since the construction of Railway line over the Farakka Barrage, the traffic pressure over Khana-Sainthia section has been continuously increasing. It has, therefore, been proposed to double the Khana—Jhapaterdhal section with a flyover at Khana and acquire land for doubling upto Sainthia. The estimated cost of the project is Rs. 9.00 crores and an outlay of Rs. 20 lakhs has been proposed.

2. कुप्पम और व्हाइट फील्ड के बोच दोहरी लाइन बिछाना (81.21 कि० मी०)—दक्षिण रेलवे—मद्रास और बेंगलूरु को जोड़ने वाले बी० जी० ट्रंक मार्ग पर मद्रास-जोलारपेट्टै-कुप्पम खंड और व्हाइट फील्ड-बेंगलूरु सिटी खंड पर दोहरी लाइन विद्यमान है। कुप्पम और व्हाइट फील्ड के बीच की इकहरी लाइन के दोहरीकरण का प्रस्ताव है। इसकी प्रत्याशित लागत 108.11 करोड़ रुपये है और इसके लिए 300 लाख रुपये के परिव्यय का प्रस्ताव है।

3. मक्सी–बैरागढ़ खंड—6 ब्लाक खंडों का दोहरीकरण (38.81 कि० मी०)—पश्चिम रेलवे—नागदा—भोपाल खंड (239.44 कि०मी०) में 3 उप-खंड हैं अर्थात् (i) नागदा-उज्जैन (55.98 कि०मी०), (ii) उज्जैन–मकसी (40.88 कि०मी०) और (iii) मकसी–भोपाल (142.58 कि०मी०)। असलंदा और नाईखेड़ी के बीच गम्भीरि पुल पर लगभग 122 मी० के छोटे से टुकड़े को छोड़कर, नागदा–मकसी उप-खंड पर दोहरी लाइन है। मकसी और बैरागढ़ के बीच 17 ब्लाक खंडों में से, वर्ष 1988 से 1991 तक की अवधि के दौरान 11 ब्लाक खंडों (93.67 कि०मी०) के लिए दोहरीकरण का कार्य पहले ही स्वीकृत कर दिया गया है। इस खंड पर बढ़े हुए यातायात की पूर्ति के लिए, मकसी–परिडमसेद (7.52 कि०मी०), बेछड़ा-बोलाई (18.12 कि०मी०) और अकोदिया–शुजालपुर (13.15 कि०मी०) के बीच शेष 6 ब्लाक खंडों में दोहरी लाइन बिछाने का प्रस्ताव है। इस कार्य पर 56.88 करोड़ रुपये की लागत आने का अनुमान है जिसके लिए 50 लाख रुपये के परिव्यय का प्रस्ताव है।

यातायात सुविधाएं—यार्ड के ढांचे में परिवर्तन और अन्य कार्य

1. वरोरा—माजरी (12.25 कि०मी०) और नागरी—चिकनी रोड (12.11 कि०मी०)—दोनों दिशाओं में आई०बी०एस० की व्यवस्था—मध्य रेलवे—वर्धा—बल्हारशाह खंड मद्रास—दिल्ली जी०टी० मार्ग का एक भाग है। कोयला और सीमेंट के अतिरिक्त माल यातायात की निकासी के लिए वरोरा और माजरी तथा नागरी और चिकनी रोड के बीच दोनों दिशाओं में 1.10 करोड़ रुपये की लागत से आई०बी०एस० की व्यवस्था करने का प्रस्ताव है जिसके लिए 60 लाख रुपये के परिव्यय की व्यवस्था की गयी है

2. गोरखपुर—गोंडा खंड (ब.ला.) पर 8 छोटे अन्त-पाशित (पेनल) स्टेशनों पर सैंड हम्प—पूर्वोत्तर रेलवे—भारी यातायात घनत्व वाले इकहरी लाइन खंडों और संतृप्त खंडों के ब्लाक स्टेशनों पर, जहां एक साथ आदान अपेक्षित है, सैंड हम्प की व्यवस्था की जानी है ताकि प्लेटफार्म लूपों के दोनों छोरों पर अलगाव की व्यवस्था की जा सके। तदनुसार पूर्वोत्तर रेलवे के मसकनवा, बस्ती, खलीलाबाद,

2. *Doubling between Kuppam and White Field* (81.21 *Km*) *Southern Railway.*—BG trunk route connecting Madras and Bangalore is having double line on Madras—Jolarpettai—Kuppam section and White Field—Bangalore City section. Doubling between Kuppam and White Field single line sandwitched in between has been proposed at an anticipated cost of Rs. 108.11 crores with an outlay of Rs. 300 lakhs.

3. *Maksi—Bairagarh Section—Doubling of 6 Block* (38.81 *Kms*)—*Western Railway.*—Nagda—Bhopal Section (239.44 Kms) consists of 3 Sub-sections viz., (i) Nagda—Ujjain (55.98 kms.), (ii) Ujjain—Maksi (40.88 Kms.) and (iii) Maksi—Bhopal (142.58 Kms.) The Nagda-Maksi sub-section is double line except for a small stretch of about 122 m. over Gambhiri bridge between Aslanda and Naikheri. Of the 17 Block Sections between Maksi and Bhairagarh, doubling has already been sanctioned for 11 block sections (93.67 Kms.) during the years 1988 to 1991. To meet increased traffic on the section, doubling of the remaining 6 block sections between Maksi—Pirumroad (7.52 kms), Berchha—Bolai (18.12 Kms.) and Akodia—Shujalpur (13.15 Kms.) is proposed. The work is estimated to cost Rs. 56.88 crores with an outlay of Rs. 50 lakhs.

TRAFFIC FACILITIES—YARD REMODELLING AND OTHERS

1. *Warora-Majri* (12.25 *Km*) & *Nagri-Chikni Road* (12.11 *Km*)—*IBS in both directions—Central Rail way.*—Wardha-Balharshah section is a part of Madras—Delhi G.T. Route. In order to cope with additional freight traffic of coal and cement, it is proposed to provide IBS in both directions between Warora and Majri and Nagri and Chikni Road at an estimated cost of Rs. 1.10 crores with an outlay of Rs. 60 lakhs.

2. *Sand Humps at* 8 *way-side stations (Panel Inter-locked) on Gorakhpur-Gonda* (*BG*) *Section—North Eastern Railway.*—Block stations on single line sections with heavy traffic density and saturated sections, where simultaneous reception is required, are to be provided with 'Sand Humps' as means of isolation at both ends of platform loops. Accordingly two addi-

बरुआचक, गोविन्दनगर, मानकपुर, टिनिच और जगतबेला स्टेशनों पर एक साथ सम्पूर्ण आदान सुविधाओं की व्यवस्था करने के लिए 0.72 करोड़ रुपये की अनुमानित लागत पर प्रति स्टेशन दो अतिरिक्त सैंड हम्पों की व्यवस्था करने का प्रस्ताव है जिसके लिए 30 लाख रुपये के परिव्यय की व्यवस्था की गयी है।

3. ई०एम०यू० गाड़ियां चलाने के लिए विल्लिवाक्कम अन्नानगर विद्युतीकृत नयी बड़ी लाइन—दक्षिण रेलवे—मद्रास के निकट अन्नानगर एक बड़ा रिहाइशी काम्पलेक्स है। इस रिहायशी काम्पलेक्स से शहर के केन्द्रीय व्यापार जिला तक की मुख्य सड़क पर भीड़-भाड़ कम करने और शहर का सन्तुलित विकास करने के लिए, 5.89 करोड़ रुपये की अनुमानित लागत पर विल्लिवाक्कम–अन्नानगर के बीच बड़ी लाइन के विद्युतीकरण करने का प्रस्ताव है जिसके लिए 0.01 लाख रुपये के परिव्यय की व्यवस्था की गई है।

4. विशाखापत्तनम इस्पात संयंत्र परिधीय यार्ड में रेल सुविधाएं—(चरण II) स्तर-III—दक्षिण पूर्व रेलवे—उपर्युक्त कार्य के चरण I में उल्लिखित सुविधाएं पूरी हो चुकी हैं और चरण II के लिए कार्य का निष्पादन प्रगति पर है। विशाखापटनम इस्पात संयंत्र की दूसरी धमन भट्टी शीघ्र ही काम करना शुरु कर देगी। इस कार्य को निर्धारित अनुसूची के अनुसार 1995-96 तक पूरा करने के लिए, विशाखापटनम इस्पात संयंत्र परिधीय यार्ड में (3.4 मी ट०) (चरण II)—शेष रेल सुविधाओं का निष्पादन करना आवश्यक है। इस कार्य की अनुमानित लागत 11.40 करोड़ रुपये है और इसके लिए 140 लाख रुपये के परिव्यय का प्रस्ताव है।

5. कोट्टवलासा-किरंदुल लाइन पर लाइन क्षमता सम्बन्धी कार्यों को अनुकूलतमा बनाना—चरण II—दक्षिण पूर्व रेलवे—के-के लाइन प्रारम्भ में विशाखापत्तनम पत्तन से होकर लौह अयस्क के निर्यात के लिए खोली गयी थी। प्रतिवर्ष 6 मी ट० निर्यात का मौजूदा स्तर 18.8 मी ट० तक बढ़ जाने की सम्भावना है। किरंदुल—कोरापुट खंड पर संचलन के लिए मौजूदा और प्रत्याशित क्षमता की उपयोगिता को ध्यान में रखते हुए, इस खंड पर लाइन क्षमता सम्बन्धी कार्यों को अनुकूलतम बनाने की आवश्यकता है। इस कार्य की अनुमानित लागत 17.67 करोड़ रुपये है और इसके लिए 16 लाख रुपये के परिव्यय का प्रस्ताव है।

6. भद्रक—कपिलास रोड में लाइन क्षमता बढ़ाना—दक्षिण पूर्व रेलवे—1989-90 के दौरान, भद्रक—कपिलास रोड खंड पर क्षमता की उपयोगिता 95 प्रतिशत थी और पारादीप पत्तन से/तक सम्हाले जाने वाले यातायात में वृद्धि

tional sand humps per station, for enabling universal simultaneous reception facilities at Maskwana, Basti Khalilabad, Baruachak, Govindnagar, Manakpur, Tinich and Jagatbela stations of North Eastern Railway are proposed at an estimated cost of Rs. 0.72 crore with an outlay of Rs. 30 lakhs.

3. *Villivakkam—Annanagar—Electrified new BG line for running EMU services—Southern Railway.*—Annanagar is a major residential complex near Madras. To relieve congestion on the arterial road from this residential complex to the Central Business District of the city and to facilitate balanced development of the city, [electrified BG line between Villivakkam-Annanagar has been proposed at an estimated cost of Rs. 5.89 crores with an outlay of Rs. 0.01 lakh.]

4. *Rail facilities in Visakhapatnam Steel Plant peripheral yard—(Phase–II) Stage–III—South Eastern Railway.*—The facilities enumerated in Phase-I of above work have been completed and execution of works for Phase–II are in progress. The second blast furnace of the Visakhapatnam Steel Plant will become operative shortly. To complete the work by 1995-96 as scheduled, the execution of balance rail facilities in Visakhapatnam Steel Plant peripheral yard—(3.4MT) (Phase–II) Stage–III is imperative. The work is estimated to cost Rs. 11.40 crores and an outlay of Rs. 140 lakhs is proposed.

5. *Optimisation of line capacity works on Kottavalasa-Kirandul line Phase-II—South Eastern Railway.*—The K–K line was initially opened for exporting iron ore through Visakhapatnam Port. The present export level of 6 MT per annum is expected to go upto 18.8 MT. Keeping in view the present and anticipated capacity utilisation for movement on Kirandul-Koraput, optimisation of line capacity works on this section is imperative. The work is estimated to cost Rs. 17.67 crores with an outlay of Rs. 16 lakhs.

6. *Augmentation of line capacity in Bhadrak—Kapilas Road—South Eastern Railway.*—During 1989-90, the capacity utilisation on Bhadrak-Kapilas Road section was 95% and with the increase in traffic to be handled to and from Paradeep Port, the

हो जाने से, 1994-95 तक खंड की क्षमता का उपयोग 118 प्रतिशत तक किया जाने लगेगा। इसलिए लाइन क्षमता में वृद्धि करना आवश्यक है। इस कार्य की अनुमानित लागत 1.02 करोड़ रुपये है और इसके लिए 30 लाख रुपये के परिव्यय का प्रस्ताव है।

section capacity utilisation will reach 118% by 1994-95. Augmentation of section capacity is therefore imperative. The work is estimated to cost Rs. 1.02 crores and an outlay of Rs. 30 lakhs has been proposed.

7. **खंड की क्षमता बढ़ाने के लिए चम्पा—गेवरा रोड खंड में सारगबुन्दिया—कठारी रोड के बीच क्रासिंग स्टेशन—दक्षिण पूर्व रेलवे**—चम्पा—गेवरा रोड विद्युतीकृत 44.6 कि०मी० लम्बा शाखा लाइन खंड कोरबा काम्पलेक्स में कोयला खानों को सेवित करता है। चूंकि इस क्षेत्र का तेज गति से विकास हो रहा है, इसलिए कोरबा को अन्य नगरों के साथ जोड़ने के लिए निकट भविष्य में कोचिंग गाड़ियां चलानी पड़ेंगी। कोरबा से रेल द्वारा कोयले के यातायात की ढुलाई में भी वृद्धि होने की सम्भावना है। इसलिए खंड की क्षमता बढ़ाने के लिए 1.96 करोड़ रुपये की अनुमानित लागत पर सारगबुन्दिया और कठारी रोड स्टेशनों के बीच एक क्रासिंग स्टेशन की व्यवस्था करने का प्रस्ताव है और इसके लिए 60 लाख रुपये के परिव्यय की व्यवस्था करने का प्रस्ताव है।

7. *Crossing station between Saragbhundia—Kathari Road in Champa-Gevra Road section to augment section capacity—South Eastern Railway.*—Champa-Gevra Road electrified branch line section 44.6 km. serves the collieries in Korba complex. In view of rapid development of the area, coaching trains will have to be introduced connectning Korba with other towns in the near future. Coal traffic by rail from Korba is also likely to increase. As such a crossing station between Saragbhundia and Kathari Road to augment section capacity is proposed at an estimated cost of Rs. 1.96 crores and an outlay of Rs. 60 lakhs.

8. **बरसुआ और बिमलगढ़ के बीच गगनपोश में क्रासिंग स्टेशन—दक्षिण पूर्व रेलवे**—बिमलगढ़—बरसुआ खंड पर 200 में 1 का लगातार ढलान हैं। लगातार अधोगामी ढलान के कारण, लदे हुए माल डिब्बों के साथ बरसुआ से बिमलगढ़ तक वापसी फेरे में गति प्रतिबन्ध लगाया गया है जिसके कारण लाइन क्षमता का उपयोग 86% हो गया है। राउरकेला इस्पात संयंत्र और कई अन्य उद्योगों द्वारा बरसुआ से लौह अयस्क की भारी मांग के कारण, इस खंड की क्षमता को बढ़ाना आवश्यक हो गया है। अतः, बरसुआ और बिलमगढ़ के बीच गगनपोश में एक क्रासिंग स्टेशन बनाने का प्रस्ताव है जिस पर 1.50 करोड़ रुपये की लागत आने का अनुमान है और जिसके लिए 60 लाख रुपये के परिव्यय की व्यवस्था की गयी है।

8. *Crossing station at Gagnaposh between Barsua and Bimlagarh—South Eastern Railway.*—On the Bimlagarh-Barsua section, there is a continuous gradient of 1 in 200. On return trip from Barsua to Bimlagarh with loaded wagons, due to continuous falling gradient, the speed restriction has been imposed thereby the capacity utilisation has been 86%. Due to high demand of iron ore from Barsua, by Rourkela Steel Plant and a number of other industries, augmentation of the section capacity is necessary. A crossing station at Gagnaposh between Barsua and Bimlagarh is, therefore, proposed at an estimated cost of Rs. 1.50 crores with an outlay of Rs. 60 lakhs.

9. **चक्रधरपुर—मनोहरपुर—बोंडामुण्डा खंड पर लाइन क्षमता बढ़ाना—दक्षिण पूर्व रेलवे**—चक्रधरपुर—बोंडामुण्डा, दोहरी लाइन वाला विद्युतीकृत खंड, उच्च घनत्व के यातायात के संचलन तथा रेल इंजनों के संतुलन के लिए बहुत ही महत्वपूर्ण है। सोनुआ से मनोहरपुर तक की लाइनों पर बहुत लम्बे और लगातार ढलान हैं जिनके कारण गाड़ियों के बार-बार रुक जाने/चलते चलते डिब्बे अलग हो जाने की घटनाएं होती रहती हैं। चूंकि यह खंड पहले से ही अधिक संतृप्त है और तीसरी लाइन के निर्माण तथा स्वचल सिगनल व्यवस्था करने के लिए नयी योजनाओं के कार्यान्वयन में कुछ समय लगने की संभावना है, इसलिए चक्रधरपुर—लोटापहाड़, लोटापहाड़—सोनुआ और मनोहरपुर—जराईकेला के बीच मध्यवर्ती ब्लाक स्टेशन की व्यवस्था करना अनिवार्य है।

9. *Augmentation of line capacity in Chakradharpur-Monoharpur-Bondamunda Section—South Eastern Railway.*—Chakradharpur-Bondamunda, a double line electrified section, is the most vital for movement of high density of traffic and for balancing of locomotives. The lines from Sonua to Monoharpur have very long and continuous gradients due to which stalling/parting of trains is very frequent. Since the section is already over saturated and implementation of the new schemes for construction of 3rd line and automatic signalling, is likely to take some time, the provision of IBS between Chakradharpur-Lotapahar, Lotapahar-Sonua and Monoharpur-Jaraikela is im-

इस काम पर 2.27 करोड़ रुपये की लागत आने का अनुमान है और जिसके लिए 70 लाख रुपये के परिव्यय का प्रस्ताव है।

10. राउरकेला—झारसुगुडा खंड पर दो मध्यवर्ती ब्लाक स्टेशनों की व्यवस्था करके लाइन क्षमता बढ़ाना—दक्षिण पूर्व रेलवे—भिलाई इस्पात संयंत्र के विस्तार और राउरकेला इस्पात संयंत्र के आधुनिकीकरण के कारण राउरकेला—झारसुगुड़ा खंड पर प्रक्षेपित यातायात में भारी वृद्धि हो जायेगी, इसलिए दो मध्यवर्ती ब्लाक स्टेशनों की व्यवस्था करके इस खंड की लाइन क्षमता बढ़ाना आवश्यक है। इस काम पर 1.32 करोड़ रुपये की लागत आने का अनुमान है और जिसके लिए 40 लाख रुपये के परिव्यय का प्रस्ताव है।

11. कटक—पारादीप खंड पर कटक—कंडारपुर के बीच क्रासिंग स्टेशन—दक्षिण पूर्व रेलवे—कटक—पारादीप खंड पर पाटपुर, कंडारपुर और रघुनाथपुर में तीन क्रासिंग स्टेशन खुल जाने से, क्षमता 10 से 15 गाड़ियों तक बढ़ जायेगी। चूंकि यह खंड संतृप्त है, अतः पारादीप में उतारा गया आयातित कोयला रेकों में लदान के लिए हवड़ा—मद्रास मुख्य लाइन पर धनमंडल तक सड़क द्वारा ढोया जा रहा है। खंड की क्षमता बढ़ाने के लिए, कटक—कंडारपुर के बीच लम्बे ब्लाक खंड को, एक क्रासिंग स्टेशन की व्यवस्था करके, विभाजित करने का प्रस्ताव है। इस काम पर 1.75 करोड़ रुपये की लागत आने का अनुमान है जिसके लिए 50 लाख रुपये के परिव्यय की व्यवस्था की गयी है।

12. खोरधा—पलासा खंड पर लाइन क्षमता बढ़ाना. पुल संबंधी निर्माण कार्य

1. धमाराघाट और बदलाघाट स्टेशनों के बीच पुल सं० 50 का पुनर्निर्माण—पूर्वोत्तर रेलवे—अगस्त, 1988 में आए भारी भूचाल के दौरान उपर्युक्त पुल के अनेक स्तंभ क्षतिग्रस्त हो गए थे । इस पुल में और भी अनेक कमियां हैं, जल मार्ग और कुओं की गहराई कम होना, बुरी तरह से क्षतिग्रस्त अवसंरचना आदि। पुल की संरक्षा के हित में स्थायी मार्ग पर पुल का पुनर्निर्माण अनिवार्य है । इस काम पर 4.25 करोड़ रुपये की लागत आने का अनुमान है जिसके लिए 40 लाख रुपये के परिव्यय की व्यवस्था का प्रस्ताव है ।

2. विल्लुपुरम—त्रिचिरापल्ली खंड (मुख्य लाइन) पुल सं० 508 का पुनर्निर्माण—दक्षिण रेलवे—इस पुल का निर्माण 1877 में हुआ था । चूंकि यह ऐसे क्षेत्र में अवस्थित है जहां बहुधा जंग लग जाती है, इसलिए इसके गर्डर वर्ष 1977 में बदलने पड़े थे । इस्पात के गर्डर पुनः बुरी तरह से क्षरण हो गए हैं और इसके पटरी वाहकों में छेद हो गये हैं । चूंकि गर्डरों को सुदृढ़ नहीं किया जा सकता इसलिए इस पुल को 15 × 3.66 मी० स्पेन के पी एस सी स्लैबों से पुनः निर्माण का प्रस्ताव है । इस पर 0.97 करोड़ रुपये की लागत आयेगी । इसके लिए 20 लाख रुपये के परिव्यय का प्रस्ताव है ।

BRIDGE WORKS

1. *Rebuilding of Bridge No. 50 between Dhamaraghat & Badlaghat stations—North Eeastern Railway.*—Several piers of the above bridge were damaged during the severe earthquake in August, 1988. The bridge also suffers from several deficiencies viz., inadequacy of water way and depth of wells, highly overstressed substructure, etc. Rebuilding the bridge on permanent diversion in the interest of the safety of the bridge is inescapable. The work is estimated to cost Rs. 4.25 crores with an outlay of Rs. 40 lakhs.

2. *Rebuilding of bridge No. 508 on Villupuram—Tiruchirapalli Section (Main Line)—Southern Railway.*—This bridge was constructed in 1877. As it is located in corrosion prone area, its girders had to be replaced in the year 1977. The steel girders have again been heavily corroded and its rail bearers holed through. As the girders are not amenable to strengthening, it is proposed to rebuild this bridge with 15 × 3.66m span PSC slabs, at an overall cost of Rs. 0.97 crore. An outlay of Rs. 20 lakhs has been proposed.

3. **एर्णाकुलम—कोट्टायम खंड पर कि॰ मी॰ 27/1-2 पर पुल सं॰ 402 पर पुनः गर्डर लगाना—दक्षिण रेलवे**—1956 में उत्थापित किये गये पुल के गर्डरों के मुख्य कोणों के निकट उच्चस्थ फ्लैंज प्लेटें, गसेट और स्थिरकों पर बुरी तरह जंग लग गयी है और उनमें छेद हो गए हैं। इस कारण संरक्षा की दृष्टि से गर्डरों का बदलाव जरूरी हो गया है। जंग लगे गर्डरों को भा॰रे॰मा॰ धातु से झले हुए गर्डरों से बदलने का प्रस्ताव है। इस पर 88.73 करोड़ रुपए की लागत आयेगी। इसके लिए 75 लाख रुपये के परिव्यय का प्रस्ताव है।

4. **कड़कवलासा और शिमिलीगुडा के बीच पुल सं॰ 337 के लिए अतिरिक्त जलमार्ग—दक्षिण पूर्व रेलवे**—मई 1990 के तूफान से वाल्तेरु मंडल की के॰ के॰ लाइन पर भारी दरारें/कटान बन गये थे। मानसून से के॰के॰ लाइन की क्षतिग्रस्तता को कम करने के उद्देश्य से दीर्घकालीन उपाय के रूप में, 0.80 करोड़ रुपये की अनुमानित लागत से उपर्युक्त पुल पर एक अतिरिक्त जलमार्ग की व्यवस्था करने का प्रस्ताव है। इसके लिए 16 लाख रुपये के परिव्यय का प्रस्ताव किया गया है।

3. *Regirdering of Bridge No. 402 at Km. 27/1-2 on Ernakulam-Kottayam Section—Southern Railway.*—The top flange plates, gussets and stiffeners near the main angles of girders of the bridge erected during the year 1956 have been badly coorroded and holed through, due to which replacement of the girders has become necessary on safety considerations. It is proposed to replace corroded girders with IRS metalised welded girders, at a cost of¡Rs. 88.73 crores. An outlay of Rs. 75 lakhs has been proposed.

4. *Additional waterway for Bridge No. 337 between Karakavalasa and Shimiliguda—South Eastern Railway.*—The cyclonic storm in May, 1990 resulted in severe breaches/slips on the K.K. Line of Waltair Division. As a long term measure to reduce the vulnerability of K.K. Line to ravages by monsoon, it is proposed to provide an additional waterway on the above bridge at an estimated cost of Rs. 0.80 crore. An outlay of Rs. 16 lakhs has been proposed.

13. *Replacement of GI wires by copper weld wire in Tinsukia—Mariani—Northeast Frontier Railway.*—The existing departmental alignment in Tinsukia—Mariani Section was originally provided by P&T Department during 1940-41. Due to patch repair & replacements the functioning of the control and Dy. Control circuits has badly deteriorated. As the minimum requirement of 85% efficiency was not maintained, the Railway had to take over the alignment in 1979. GI wires originally installed for block, interwire circuit have also become rusty and badly corroded resulting in frequent interruption to vital train operation circuits. It is, therefore, proposed to replace the rusty/GI wires by copper weld/GI wire on the Tinsukia—Mariani Section at an anticipated cost of Rs. 0.54 crore with an outlay of Rs. 6.5 lakhs.

22. *Chakradharpur Division—Additional 15 auxiliary transformers for power supply—South Eastern Railway.*—At a number of stations on Chakradharpur Division, there is only one auxiliary transformer for supplying 230 Volts power to the signalling system, which is an unsatisfactory feature as 'No light' of a colour light signal is considered a safety hazard. As such, two auxiliary transformers, one each for the Up and Down OHE are normally provided. It is, therefore, proposed to provide one additional auxiliary transformer at 15 stations at an estimated cost of Rs. 0.69 crore and outlay of Rs. 5 lakhs has been proposed.

23. क्षेत्रीय मुख्यालय और मंडलों के बीच आपरेटर्स ट्रंक डायलिंग परिपथ—दक्षिण पूर्व रेलवे—इस समय गार्डन रीच के क्षेत्रीय मुख्यालय और दक्षिण पूर्व रेलवे के मंडल मुख्यालयों के बीच आपरेटर ट्रंक डायलिंग सुविधा विद्यमान नहीं है। क्षेत्रीय मुख्यालय और मंडल मुख्यालयों के बीच टेलीफोन काल के क्लीयरेंस में विलम्ब से प्रशासकीय कार्यों में असुविधा पैदा होती है। अतः सरणियों में वृद्धि करने और कॉल की शीघ्र क्लीयरेंस के लिए आपरेटर्स ट्रंक डायलिंग सरकिट शुरू करने का प्रस्ताव है। इस पर 0.51 करोड़ रुपये की अनुमानित लागत आयेगी जिसके लिए 8 लाख रुपये के परिव्यय का प्रस्ताव किया गया है।

25. *Mahalaxmi—Ahmedabad—Replacing microwave link by* (34 + 2) *MB digital microwave link—Western Railway.*—The existing microwave link on Mahalaxmi—Ahmedabad section has served for 17 years and has become obsolete. Spare components are also not available. Railways have already rented circuits for working computerised reservation system between Bombay VT and Ahmedabad due to unsuitability of the existing Railways' microwave system. With the replacement of this link, it will also be possible for the Railways to surrender these channels and extend computerised passenger reservation system to Vadodara and Surat. It is, therefore, proposed to replace the existing worn-out microwave system at an estimated cost of Rs. 22.49 crores with an outlay of Rs. 9 lakhs.

26. *Expansion of main automatic exchange by* 300 *lines—Chittaranjan Locomotive Works.*—Increased production of electric locos has necessitated increased communications. 12. माहिम, मीरा रोड और विरार सब स्टेशनों पर उच्च गति सर्किट ब्रेकरों का बदलाव--पश्चिम रेलवे--माहिम, मीरा रोड और विरार कर्षण सब स्टेशनों पर उच्च गति वाले सर्किट ब्रेकरों की आयु उनकी कोडल आयु से अधिक हो गयी है और इन्हें आयु एवं हालात के आधार पर बदलना अपेक्षित है । मौजूदा उच्च गति वाले सर्किट ब्रेकरों की क्षमता भी अपर्याप्त है जिसके कारण सब स्टेशनों में अत्यधिक क्षतियां और आग लगने की घटनाएं होती हैं । अतः इसका बदलाव करना आवश्यक है । इस कार्य की अनुमानित लागत 2.77 करोड़ रुपये है और इसके लिए 9.00 लाख रुपये के परिव्यय का प्रस्ताव है ।

13. मुख्य लाइन-कर्षण सब स्टेशन--पश्चिमरेलवे--बम्बई उपनगर में कर्षण सब स्टेशनों की मौजूदा 101 मेगावाट की संस्थापित क्षमता की योजना इस्तेमाल में लाये जा रहे 55 रेकों की आवश्यकताओं और चर्चगेट में 3 घंटे की व्यस्त अवधि के

ing of OHE masts by open door wagons and oversized consignments, renewal/rehabilitation of OHE over certain section has become necessary to ensure reliability and safety. The anticipated cost of this work is Rs. 1.26 crores with an outlay of Rs. 65.00 lakhs.

10. *25 KV vacuum type interruptor in lieu of minimum oil type at 7 switching posts in Kharagpur—Tata Section (Ph-III)—South Eastern Railway.*—Kharagpur—Tata Section was electrified in 1962. The interruptors provided in 13 switching posts (imported from France) have outlived their codal life of 25 years. It is essential to replace 12 Nos. of these interruptors to ensure reliability and uninterrupted power supply. The anticipated cost of this work is Rs. 85.58 lakhs and an outlay of Rs. 50 lakhs is proposed.

trains each way at Churchgate during 3 hours peak period. As against this, 59 rakes have already been put into service and 98 trains have been introduced causing severe overloading of the system. As the demand for traction power cannot be met from Churchgate and Grant Road sub-stations, provision of new sub-station at Marine Lines of 6 MW capacity together with a separate 22 KV feeder is necessary. The anticipated cost of this work is Rs. 9.35 crores with an outlay of Rs. 16 lakhs.

14. *Bombay local section—Replacement of 13 kms. of 22 KV cable at different locations—Western Railway.*—On Bombay local section, the entire electrical load is catered for by the traction sub-stations situated between Churchgate and Virar Stations. The cables will complete their codal life of 30 years shortly. It is, therefore, essential to replace these cables by XLPE cables, a recent technological break through, which are more reliable and less prone to failures. The anticipated cost of this work is Rs. 4.99 crores with an outlay of Rs. 21.00 lakhs.

15. *Bombay local section—Providing SRC, TPC and intertripping circuit optical fibre cable—Western Railway.*—For ensuring an uninterrupted power supply on the Bombay local section for traction purpose , 100 lines traction Telephone exchange has been provided. One additional 50 lines exchange at Kandivli has been planned under intensification of sub-urban services. These telephones are mainly used for undertaking maintenance of sub-stations, OHE, cables, etc. It has, therefore, been proposed to utilise separate channels of fibre optic cable for remote control equipment on all the sub-stations, TPC circuit between Churchgate—Virar section and inter-tripping of all the feeder HSCBs at traction sub-stations. The anticipated cost of this work is Rs. 1.57 crores with an outlay of Rs. 5.10 lakhs.

बजट विवरण

संविधान की धारा 112 के अन्तर्गत, प्रत्येक वित्त वर्ष, जो पहली अप्रैल से 31 मार्च तक चलता है, के संबंध में भारत सरकार की अनुमानित आमदनी और खर्च का विवरण संसद के समक्ष प्रस्तुत करना होता है। इसे 'बजट विवरण' कहते हैं। चूंकि रेलवे वित्त केन्द्रीय सरकार के सामान्य वित्त से पृथक कर दिया गया है, इसलिए रेलवे का बजट अलग से पेश किया जाता है। केन्द्रीय सरकार और रेलों के बीच वित्तीय संबंध संसद की रेल अभिसमय समिति द्वारा समय-समय पर की गयी सिफारिशों द्वारा शासित होता है।

2. बजट विवरण में रेलवे की कुल राजस्व आमदनी, उनका राजस्व और निर्माण व्यय, खर्च की तुलना में प्राप्तियों का रेलवे अधिशेष का वितरण और केन्द्रीय सरकार के पास रेलों की जो विभिन्न निधियां हैं, जैसे मूल्यह्रास आरक्षित निधि, विकास निधि, राजस्व आरक्षित निधि, पेंशन निधि और दुर्घटना क्षतिपूर्ति, संरक्षा एवं यात्री सुविधा निधि, उनकी स्थिति दर्शायी जाती है।

3. रेलों की राजस्व प्राप्तियों में यात्री यातायात से आमदनी, अन्य कोचिंग यातायात (जिसमें पार्सल और सामान शामिल हैं) से आमदनी, माल यातायात से आमदनी और अन्य फुटकर आमदनी, जैसे किराया, खानपान से आमदनी, ब्याज और बाहरी निकायों से अनुरक्षण प्रभार आदि शामिल हैं।

4. इनके अतिरिक्त अन्य विविध प्राप्तियां भी होती हैं जैसे आवेदन पत्रों की बिक्री और परीक्षा शुल्क आदि से रेल भर्ती बोर्डों की प्राप्तियां और अधिशेष लाभों में सरकार का हिस्सा, जिसमें उन सहायता-प्राप्त रेलवे कम्पनियों से प्राप्तियां शामिल हैं, जिनमें सरकार की कोई पूंजी नहीं लगी है। लाभांश राहत के संबंध में सामान्य राजस्व से 'आर्थिक सहायता' विविध प्राप्तियों का एक अंग है। इन सभी मदों का जोड़ ही रेलवे की कुल प्राप्तियां होती हैं। आमदनी का वह भाग, जो वित्त वर्ष के दौरान रेलवे को देय होता है लेकिन वास्तव में रेलों को प्राप्त नहीं होता है, 'उचन्त' लेखे में रखा जाता है।

Budget Statement

Under Article 112 of the Constitution a statement of estimated receipts and expenditure of the Government of India has to be laid before Parliament in respect of every financial year which runs from 1st April to 31st March. This is the Budget statement. As Railway finances have been separated from the General Finances of the Central Government a separate Budget is presented for the Railways. The financial relationship between the Central Government and the Railways is governed by the recommendations made from time to time by the Railway Convention Committee of the Parliament.

2. The Budget statement shows the total revenue receipts of Railways, their Revenue and Works Expenditure, the distribution of the Railways' excess of receipts over expenditure and the position of the various Funds that the Railways are keeping with the Central Government, viz., Depreciation Reserve Fund, Development Fund, Revenue Reserve Fund, Pension Fund and Accident Compensation, Safety and Passenger Amenities Fund.

3. The Revenue receipts of the Railways consist of earnings from passenger traffic, other coaching earnings (which include parcels and luggage), earnings from goods traffic and sundry other earnings like rent, catering receipts, interest and maintenance charges from outside bodies etc.

4. There are also other miscellaneous receipts like Receipts of Railway Recruitment Boards from sale of application forms and examination fees etc. and Government's share of surplus profits which includes receipts from subsidised Railway companies in which the Government has no capital interest. The subsidy from General Revenues in respect of dividend reliefs forms part of miscellaneous receipts. The total of all these items makes up the total receipts of the Railways. The portion of the earnings which is due to the Railways during the financial year but has not actually been realised is held in a 'Suspense' account.

5 रेलों द्वारा किया गया खर्च राजस्व लेखे और निर्माण लेखे में होता है । राजस्व लेखे में रेलों के विभिन्न विभागों द्वारा अपने दिन प्रतिदिन के काम में किया गया साधारण संचालन व्यय, अन्य विविध व्यय जैसे रेलवे बोर्ड, लेखा-परीक्षा, सर्वेक्षण और अन्य विविध स्थापनाओं पर व्यय और उन चालित लाइनों का भुगतान शामिल किया जाता है जो रेलों के स्वामित्व में नहीं होतीं तथा जो भारतीय रेलों द्वारा अथवा संबंधित प्राइवेट कम्पनियों द्वारा चालित हैं । यह भुगतान संविदाओं द्वारा विनियमित होता है। राजस्व लेखे में रेलों द्वारा सामान्य राजस्व को देय लाभांश और मूल्यह्रास आरक्षित निधि और पेंशन निधि में विनियोग भी शामिल होता है। रेल अभिसमय समिति की सिफारिशों के आधार पर हर वर्ष मूल्यह्रास आरक्षित निधि में विनियोग किया जाता है और इसका उद्देश्य पुरानी परिसम्पत्तियों के स्थान पर नयी परिसम्पत्तियों की लागत और यदि उनके लिए किसी परिष्कृत विधि की आवश्यकता हो तो उनकी लागत के लिए भी इससे धन जुटाया जाता है । पेंशन निधि में विनियोग रेल कर्मचारियों को पेंशन तथा मृत्यु एवं सेवानिवृत्ति उपदान को पूरा करने के लिए किया जाता है और राजस्व की स्थिति को ध्यान में रखते हुए ऐसा किया जाता है । 31 मार्च, 1980 को रेलों की लाभांश दायी पूंजी पर 6 प्रतिशत की दर से और तत्पश्चात् निवेशित लाभांशदायी पूंजी पर 6.5 प्रतिशत की दर से लाभांश देय होता है । उपर्युक्त 6 प्रतिशत लाभांश में से, 31 मार्च 1964 तक निवेशित पूंजी का 1.5 प्रतिशत ('आर्थिक सहायता' के लिए अधिकृत पूंजी को घटाकर) लाभांश यात्री किरायों पर कर के बदले राज्य सरकारों को अन्तरण के लिए और संरक्षा-कार्यों के लिए धन की व्यवस्था करने के लिए राज्य सरकारों की सहायतार्थ है। विकास निधि, जिससे रेल परिवहन के उपयोगकर्ताओं के लिए सुविधाओं, कर्मचारियों के लिए कल्याण-कार्यों और कुछ वित्तीय सीमाओं से अधिक अलाभप्रद परिचालनिक सुधारों पर खर्च किया जाता है, के लिए वित्त की व्यवस्था खर्च की तुलना में प्राप्तियों के अधिशेष से, यदि कोई हो तो, की जाती हैं जो लाभांश की चालू दायिता का निर्वाह करने के बाद बच रहता है। इस निधि में अन्तरित करने के लिए यदि कोई अधिशेष न हो अथवा पर्याप्त अधिशेष न हो तो इस निधि से किए जाने वाले खर्च को पूरा करने के लिए सामान्य राजस्व से अस्थायी ऋण ले लिया जाता है ।

5. The expenditure incurred by the Railways is on Revenue account and on Works account. The Revenue account consists of Ordinary Working Expenses incurred by the various Departments on the Railways in their day to day working, other miscellaneous expenditure like the expenditure on Railway Board, Audit, Surveys and other miscellaneous establishments and payments, as regulated by contracts, to worked lines which are not owned by the Railways and which are either worked by the Indian Railways or by the private companies concerned. The Revenue Account also includes appropriations to Depreciation Reserve Fund and Pension Fund and dividend paid by the Railways to the General Revenues. Appropriation to Depreciation Reserve Fund is made annually on the basis of the recommendations of the Railway Convention Committee and is intended to finance the cost of new assets replacing old assets, including the cost of any improved features that such new assets may have. Appropriation to Pension Fund is to finance Pension and Death-cum-retirement gratuity payments to the Railway staff and is made taking the Revenue position into account. Dividend is payable at the rate of 6% on the dividend-paying Capital of the Railways as on 31st March, 1980 and 6.5% on the dividend-paying Capital invested thereafter. Out of the 6% dividend referred to above, 1.5% of the Capital invested upto 31st March, 1964 (less Capital entitled to 'Subsidy') is for transfer to the State Governments in lieu of passenger fare tax and to assist the State Governments to finance safety works. The Development Fund, which finances expenditure on amenities for users of Railway transport, staff welfare works and unremunerative operating improvements beyond certain financial limits, is funded from the excess of receipts over expenditure, if any, that remains after meeting the current dividend obligation. In case there is no excess, or not enough excess to be transferred to this Fund, temporary loan is obtained from the General Revenues to finance the expenditure to be met out of this Fund.

6. निर्माण-व्यय, सामान्य राजस्व से पूंजी उधार लेकर तथा मूल्यह्रास आरक्षित निधि, विकास निधि, दुर्घटना क्षति-पूर्ति, संरक्षा एवं यात्री सुविधा निधि और राजस्व से आन्तरिक व्यवस्था करके पूरा किया जाता है (अलाभप्रद परिचालन कार्यों और कुछ वित्तीय सीमाओं से कम लागत वाली यात्री सुविधाओं से भिन्न कार्यों की लागत राजस्व में डाली जाती है)। भारत सरकार के सामान्य वित्त से रेलों को कुल मिलाकर जो बजट संबंधी वार्षिक सहायता दी जाती है, उसमें पूंजीगत ऋण एवं विकास निधियों में कमी को, यदि कोई हो, पूरा करने के लिए अस्थायी रूप से उधार ली गयी रकम शामिल है। रेल योजनाओं के अन्तर्गत आने वाली रेल परिसम्पत्तियों में कुछ निवेश भारतीय रेल वित्त निगम द्वारा भी किया जाता है। यह निगम बाजार से ऋण लेकर धन जुटाता है।

7. रेलों की सम्पूर्ण राजस्व आमदनी भारत की समेकित निधि में डाल दी जाती है और खर्च समेकित निधि से ही किया जाता है। संसद से प्राधिकार प्राप्त किये बिना इस निधि से कोई रकम नहीं निकाली जा सकती।

8. ऐसे अवसर भी आ सकते हैं जब सरकार को संसद से प्राधिकार प्राप्त किये बिना तात्कालिक अप्रत्याशित खर्च करना पड़े। इस प्रकार के खर्च को वहन करने के लिए राष्ट्रपति के पास अग्रदाय के रूप में भारत की आकस्मिकता निधि रखी गयी है। ऐसे खर्च के लिए और समेकित निधि से उतनी ही धनराशि निकालने के लिए संसद का अनुमोदन बाद में प्राप्त कर लिया जाता है और आकस्मिकता निधि से खर्च की गयी रकम की प्रतिपूर्ति उस निधि को कर दी जाती है।

9. यद्यपि विनिर्दिष्ट प्रयोजनों पर खर्च के लिए मूल्य-ह्रास आरक्षित निधि, विकास निधि, पेंशन निधि और दुर्घटना क्षतिपूर्ति, संरक्षा एवं यात्री सुविधा निधि में विनियोग संसद द्वारा स्वीकृत किया जाता है, तथापि विनिर्दिष्ट प्रयोजनों पर प्रस्तावित खर्च को भी संसद की स्वीकृति के लिए प्रस्तुत किया जाता है, हालांकि यह धनराशि इन निधियों को अन्तरण के लिए संसद द्वारा पहले ही निर्धारित कर दी जाती है।

अनुदान की मांगें

10. बजट विवरण में सम्मिलित समेकित निधि से खर्च, जिसके लिए लोक सभा की स्वीकृति अपेक्षित है, का अनुमान

6. Works expenditure is financed from Capital borrowed from the General Revenues and also by internal financing from Depreciation Reserve Fund, Development Fund, Accident Compensation, Safety and Passenger Amenities Funds and Revenue (The cost of unremunerative operating works and works other than passenger amenities costing below certain financial limits are charged to Revenue). The overall annual budgetary support of the General Finances of Government of India to the Railways consists of the Capital loans and the sums temporarily loaned to meet the deficiency, if any, in the Development Fund. A part of the investment in Railway assets, covered by the Railway Plans, is also made by the Indian Railway Finance Corporation which raises funds through market borrowing.

7. All the revenue earnings of the Railways are credited to the Consolidated Fund of India and expenditure is incurred from the Consolidated Fund. No amount can be withdrawn from the Fund without authorisation from Parliament.

8. Occasions may arise when Government may have to meet urgent unforeseen expenditure pending authorisation from Parliament. The Contingency Fund of India is an imprest placed at the disposal of the President to incur such expenditure. Parliamentary approval for such expenditure and for the withdrawal of an equivalent amount from the Consolidated Fund are subsequently obtained and the amount spent from Contingency Fund is recouped to the Fund.

9. While the appropriations to Depreciation Reserve Fund, Development Fund, Pension Fund and Accident Compensation, Safety and Passenger Amenities Fund are voted by the Parliament for spending on specific objects, the proposed expenditure on the specific objects is also submitted for vote of Parliament, even though the moneys have already been earmarked by Parliament for transfer to these funds.

Demands for Grants

10. The estimates of expenditure from the Consolidated Fund included in the Budget Statement and

अनुदान की मांगों के रूप में पेश किया जाता है। प्रत्येक मांग रेलों की विशिष्ट कार्यात्मक गतिविधि की द्योतक होती है। निर्माण व्यय सम्बन्धी मांगों को राजस्व व्यय सम्बन्धी मांगों से पृथक रखा जाता है। जहां-कहीं किसी मांग में खर्च की 'स्वीकृत' और 'प्रभृत' दोनों मदें शामिल होती हैं, वहां 'प्रभृत' मदों को भी मांग में शामिल कर लिया जाता है, लेकिन 'स्वीकृत' और 'प्रभृत' व्यवस्था को उस मांग में पृथक-पृथक दिखाया जाता है। 'स्वीकृत' व्यय में वे मदें शामिल होती हैं जिनके लिए धन की व्यवस्था संसद की स्वीकृति पर निर्भर करती है, जबकि 'प्रभृत' व्यय के लिए धन की स्वीकृति राष्ट्रपति द्वारा दी जाती है और उसे संसद की स्वीकृति के लिए प्रस्तुत नहीं किया जाता। रेलों के 'प्रभृत' खर्च में न्यायालय नियमों आदि के अन्तर्गत दिए गए फैसलों, डिगरी या न्यायालय के निर्णय अथवा पंचाट निर्णयों की संतुष्टि के लिए अपेक्षित रकमें शामिल हैं।

11. लेखा और बजट संबंधी मौजूदा कार्यविधियों के अन्तर्गत कतिपय श्रेणियों की प्राप्तियों, जैसे एक विभाग द्वारा दूसरे विभाग को किये गये भुगतान और महत्वपूर्ण परियोजनाओं अथवा योजनाओं की प्राप्तियों को प्राप्तकर्ता विभाग के खर्च में से निकाल कर परिकलित किया जाता है। बजट विवरण में सम्मिलित खर्च के अनुमान शुद्ध खर्च के लिए होते हैं, जैसा कि लेखों में प्रतिबिम्बित होता है, अर्थात् ये अनुमान वसूलियों को हिसाब में लेने के बाद तैयार किये जाते हैं। लेकिन अनुदान की मांगों में खर्च के जो अनुमान शामिल किये जाते हैं, वे समग्र राशि के लिए होते हैं।

12. अनुदान की मांगें, बजट विवरण के साथ ही लोक सभा को पेश की जाती हैं। प्रत्येक मांग में सबसे ऊपर उस मांग के अन्तर्गत कुल 'स्वीकृत' और 'प्रभृत' खर्च अलग-अलग दर्शाया जाता है। इसके बाद विभिन्न शीर्षों के अन्तर्गत खर्च के अनुमान दिखाये जाते हैं। वसूलियों की कुल राशियां, जो लेखा में खर्च में कमी के रूप में मानी जाती हैं, भी दिखायी जाती हैं। इसके अतिरिक्त, टिप्पणियों में चालू वर्ष की आवश्यकताओं और विभिन्न मांगों में शामिल अगले वर्ष की आवश्यकताओं के बीच कमी-बेशी के संक्षिप्त कारण स्पष्ट किये जाते हैं।

13. अनुदान की 16 मांगें हैं—मांग 1 से 15 तक का संबंध राजस्व व्यय, निधियों और लाभांश भुगतानों में विनियोग से तथा मांग 16 का संबंध निर्माण व्यय से है।

required to be voted by Lok Sabha are submitted in the form of Demands for Grants. Each Demand presents a distinct functional activity on the Railways. Demand for Works Expenditure is kept distinct from Demands for Revenue Expenditure. Wherever expenditure in a Demand includes both 'Voted' and **'Charged'** items of expenditure the latter are also included in the Demand but the 'Voted' and **'Charged'** provisions are shown separately in that Demand. Voted expenditure includes those items for which the provision of funds is subject to the vote of Parliament, while funds for **'Charged'** expenditure are sanctioned by the President and not submitted to the vote of Parliament. **'Charged'** expenditure for Railways includes sums required to satisfy judgement, decree or award of court or awards by Arbitrators where made into rule of court, etc.

11. Under the present accounting and budgetary procedures, certain classes of receipts like payments made by one department to another and receipts of capital projects or schemes are taken in reduction of the expenditure of the receiving department. The estimates of expenditure included in the Budget statement are for the net expenditure as will be reflected in the accounts, that is, after taking into account the recoveries. The estimates of expenditure included in the Demands for Grants are, however, for the gross amounts.

12. The Demands for Grants are presented to the Lok Sabha along with the Budget statement. On the top of each Demand, the total of 'Voted' and **'Charged'** expenditure in the Demand are indicated separately. This is followed by the estimates of expenditure under different heads. The aggregate amounts of recoveries taken in reduction of expenditure in the accounts are also shown. Besides, the notes briefly explain the reasons for the variations between the current year's requirements and requirements for the next year included in the various Demands.

13. There are 16 Demands for Grants—Demands 1 to 15 dealing with Revenue Expenses, Appropriations to the Funds and Dividend payment and Demand 16

गतिविधि और व्यय की प्राथमिक यूनिटों से संचालन व्यय और विविध व्यय से संबंधित प्रत्येक मांग का दोहरा वर्गीकरण किया जाता है। गतिविधि वर्गीकरण में यह बताया जाता है कि किन प्रयोजनों के लिए खर्च किया गया, जैसे रेलपथ का अनुरक्षण, पानी की सप्लाई, रेल इंजनों का आवधिक ओवरहाल आदि और खर्च की प्राथमिक यूनिटें यह बताती हैं कि खर्च कैसे किया गया जैसे वेतन, मजूरी, समयोपरि, सामग्री की लागत आदि। यह दोहरा वर्गीकरण कार्यपरक बजट, जो क्रियाशीलता पर आधारित है तथा प्रबंध नियंत्रण और खर्च के प्रयोजनों पर भी आधारित है, की आवश्यकताओं का पूर्ण योग सूचित करता है।
